Gold at 1 p. m., 111

Peter Thomas, an American citizen of African birth, was arrested this morning for assault and battery on the person of Harriet Butler, a dark skinned maiden, at Pioneer, last evening. The examination takes place this afternoon before Justice Reynolds. Thomas, it appears, imbibed pretty freely and started out to have a little sport, and "just for fun, you know," struck Harriet on the side of her head with a hatchet, inflicting an ugly wound. The woman was also intoxicated at the time. Thomas should be taught that playfulness does not consist in knocking other people in the head with a hatchet.

For life-size Photographs and Oil Paintings, go to Wilt Brothers, the largest Photographic Rooms in Western Pennsylvania, Hanna's Block, Franklin, Pa.

An alarm of fire about ten o'clock last night was occasioned by a derick at one of the wells in Wild Cat Hollow catching fire from the gas. The flames were extinguished before any material damage was done.

The St. Charles Hotel, Greenville, and Connelly's saloon were both partially destroyed by fire on Monday evening last.

One or two circuses are already booked for this place, and the oil region. The touring season commences early this year.

The steamer Jamestown will commence making regular trips from Mayville to Jamestown, on Chautauque Lake, on Monday next.

When the water gets low we are going to have a sensation from Steubenville, Ohio, where eighteen boxes of nitro glycerine repose calmly on the bottom of the river, emptied there by a drunken skiff not long since. Steamboat men say they "New Italy me" every time they pass that spot.

**THE ORIGINAL HIBERNICON.**—For four nights the past week Charles Mac Evoy's Original Hibernicon filled Brainard's Hall with delighted audiences. The weather was not at all agreeable, but it seemed to have but little effect in keeping the people away, which is as good an evidence of the merits of the entertainment as could be asked for, and it is a really pleasing and instructive exhibition, with just enough of the humorous to keep the audience steadily in the best of spirits. The paintings representing the more prominent and historic scenes in Ireland, are given with a fidelity and artistic excellence, that have never been equalled by anything of the kind presented to the public. They are graphically explained in the most satisfactory manner by Mr. Charles Mac Evoy, who tells an anecdote with all the force and humor characteristic of a true Irishman. Mr. W. F. Lawlor is a fine comedian, and has an excellent voice; he is a young man of great promise and a primo favorite. Marie D. Mac Evoy is a charming little actress, sings well, and keeps the stage bright as a sunbeam while she is on it. Miss Kate Halpine is also a great favorite, and plays her parts to perfection. With all these good things to recommend it there is very little wonder that every entertainment given by the Hibernicon is crowded. The Hibernicon will exhibit at Roeder's Hall on the West Side for three nights, commencing this evening.—Cleveland Herald.

Stereoscopic Views of the Union and Pacific Railroad, and fine views of the most gorgeous scenes in the Yosemite Valley, California, at Wilt Brothers, Photographers and Publishers of Views of the Oil Regions, &c., and dealers in Photographic Instruments and Materials, Hanna's Block, Franklin, Pa.

We copy the following items from the Forest Republican:  
A brand new locomotive, called the Joe, A. Dale, passed over the O. C. & A. R. R. one day last week, for the Pitohole Valley Railroad. It was a model of strength and beauty. The Judge will not be ashamed to see his name displayed on so beautiful a piece of work. The Pitohole Railroad will soon be in good trim.  
Rafting business is as brisk as could be wished on the creek. We are informed that about twelve million feet of lumber will be run out of the Tionesta this season, of which the Cobb Mills will contribute about five millions, Wheeler, Dusenbury & Co., between two and three millions. As we write weather seems favorable for a good run down the river.

"Farewell! I've yet one solace left, which cheers my lonely hearth,  
And in that thought a thousand hopes are springing into birth;  
How beautiful the vision comes, amidst life's gathering cares,  
In shape—a Champagne bottle, and a box of fine cigars."  
Of the champagne we cannot speak, but we do know that a box of either of these favorite brands of Cigars—Pride of Titusville or Six Sands—manufactured by Sharkey & Cortelyou, Titusville, are just the thing to make one forget the cares and sorrows of life and "lay back" and enjoy himself in royal style. Everybody knows "Uncle" John Cortelyou, formerly of Petroleum Centre, and knows that when he represents a brand of cigars to be A. 1, they need no further commendation, hence the popularity of the Six Sands and Pride of Titusville. Try them and be convinced.

For Photographic Views of the Oil Regions, inquire at Wilt Bros.

The Corry Republican says:  
A certain T. R. Pollock has been employed for some time as platform man at Truskeyville, a station on the O. C. & A. R. R. Ry., near Tidoute. A few days ago he appropriated \$180 of the Company's funds to his private benefit. Special Detective J. A. Kenzie got wind of his operations and hauled him up short in his career, Saturday last. A preliminary examination so clearly established his guilt that he was at once taken to Tionesta Jail to await trial. A subsequent examination of affairs showed that he had for sometime been carrying on a systematic operation of pilfering from packages of goods in transit. Dried beef, tobacco soap and numerous other articles, it was found, had been thus appropriated. The full extent of his pilfering operations is not known; but is probably to quite an amount.

A Philadelphia father allowed his little boy, seven years old, to play with his pistol, and after the funeral he went to a Foundling Asylum and adopted another boy. He says he can't get along without a boy.

The business of the Union & Titusville Railroad is said to average fifteen hundred dollars per day at present.

In London, every eight minutes, night and day, somebody dies; every five minutes a child is born. This great city contains as many people as the whole of Scotland, twice as many as Denmark, three times as many as Greece, and four hundred times as many as Georgetown, D. C. In its vast population of nearly 4,000,000 it has 140,000 habitual gin drinkers, 100,000 abandoned women, 10,000 professional gamblers, 50,000 criminals known to the police as thieves and receivers of stolen goods; 500,000 habitual frequenters of public houses, and 60,000 street Arabs. To keep this vast multitude of disorderly characters in something like obedience to the law, 6,000 policemen are necessary. Of the population of the city, only about 500,000 attend public worship, there being a million of adult absentees from church every Sunday.

Cincinnati is luxuriating in false teeth, a top and bottom set being furnished for the small sum of ten dollars. No one can enter society without false teeth, and at a social gathering it is said to be amusing to see the whole crowd with their teeth out, showing and comparing them. Sometimes a humorous chap will gather up a dozen set and mix them up, and then it is fun to see them quarrel over the sets, and try them in their mouths until they get the right set.

Prang's and imported Chromos at Wilt Brothers.

As the fate of the local option bill seems to be in some doubt in the Legislature, the Press suggests to the friends of reform legislation the draft of a "domestic option bill," under the provisions of which no man should be allowed to buy a glass of ale, or wine or whiskey, without presenting at the bar a written permit from his wife.—Such a statute would refer the whole question of what a man shall drink, like that of what he shall eat, to the family. Unmarried men might drink at will, or in special cases choose a temporary keeper of their appetites.

David Hooker, a miller at Milwaukee recently met with a serious accident while handling a kettle of molten iron. The hook supporting the kettle gave way, the vessel tilted, and a stream of molten iron struck Hooker upon the leg and ran down into his boot, where it pierced instantly to the bone and formed a mould where the iron hardened. He was so maddened by the pain that he ran about 250 feet before he was caught so as to be relieved. His leg will have to be amputated.

The largest stock of Picture Frames and Mouldings in the oil regions at Wilt Brothers. m23-31.

Humboldt, Kansas, claims the champion nailer of the world, in the person of Albert Minor, a lather by trade. A local paper says he can drive more nails in one day than any other living man. He will drive nails faster than the fastest compositor can pick up type. He will drive sixty lath nails per minute ten hours out of twenty-four, the year through, which would be 3,000 an hour, 36,000 a day, or 5,268,000 per year.

Mrs. Hess, who murdered two men in Steuben county, last January, has been convicted of being insane. Of course she was a. Any woman who will kill two men as scarce as men are getting to be, must be insane, from the nature of things.

Navigation on the lakes is open earlier this year, than any year since 1855. Steamboats and sailing vessels are running between the various ports.

In Troy a number of professional burglars were recently sentenced to three years imprisonment, while a poor outcast who stole some food to prevent starvation was at the same time sentenced for five years.

**Announcements.**  
The announcement cards of candidates for nomination for the various offices will be published at the following rates:  
Assembly, \$10; Associate Judge, \$10; Sheriff, \$10; Treasurer, \$10; District Attorney, \$10; Commissioner, \$5; Auditor, \$5. Positively no announcements published unless paid for in advance.

#### Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:  
OFFICE COLUMBIA OIL CO. }  
Columbia Farm, Jan. 28. }  
Mr. H. K. KENYON:  
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.  
Respectfully yours,  
G. W. BOULTON, Sup't.  
J. P. BARCROFT, Manager  
For further particulars address H. K. KENYON, Petroleum Centre, P. O. box 547. Jan 31.
