PHILADELPHIA EXPRESS TRAINS. No. 5 - Direct to Philadelphia without change.

PHILADELPHIA EXPRESS TRAINS. No. 6 - Direct to Pittsburgh without change.

Gold at 1 p. m., 111

The Titusville Courier of this morning in one fell swoop annihilates (on paper) our assertion that its enterprising reporters copied from the Record local items which said items slightly altered afterwards appeared in that paper as original matter.

As illustrating that there is some stability of population in the oil region, "G. W. B." our Warren county correspondent, notes that no change has occurred in the membership of the Columbia Cornet Band of Columbia Farm, Oil Creek, since its organization three years ago.

The Dispatch is right. The Columbia Cornet Band is now one of the best bands in Pennsylvania, not excepting the crack bands of Philadelphia and Pittsburgh.

PERSONAL - Ex-Gov. Wm. Bigler, formerly Governor of Pennsylvania, was in town last night, a guest of the Messrs. Phillips.

Prang's and imported Chromos at Witt Brothers.

FAN ACCIDENT. - Early this afternoon, Mr. Wm. Gaitley, a workman in the employ of the Columbia Oil Company, while assisting in driving pipe at well No. 26, accidentally got caught in the hub wheel rope, and had his leg broken in two places.

A correspondent of the Erie Dispatch sends the following account of the drowning of a raftman in the Allegheny. Two men, one of them named George Gates, were crossing the river at Thompson's Eddy, six miles below Irvineton. They were crossing the river in a skiff, when they were driven by the force of the swift current against a snag, precipitating both men into the water.

The body of a boy, who was drowned at Oil City several weeks since, was discovered last week at Six Mile Island, near Pittsburgh, having been swept down the river upwards of a hundred miles.

COLUMBIA FARM, March 24. The citizens of Columbia farm were startled this morning by the inspiring strains of martial music, and on turning out of their respective residences beheld a large procession headed by drums and fifes. The excited crowd marched down to the headquarters of the Columbia Company, headed by Mr. Hank McGinley, where they serenaded Mr. James Immel, who is a rival candidate for President of the Library Association, but who failed to acknowledge the complimentary serenade.

The largest stock of Picture Frames and Mouldings in the oil regions at Witt Brothers. m23-31.

CATHOLIC MISSION. - On Sunday morning, at 10 1/2 o'clock, a mission will be opened in the Catholic Church of this place by the celebrated Father Anthony of the Passionist Order. There will be a succession of masses every morning during the week, the first commencing at 5 1/2, and the last at 8 1/2 o'clock. Every evening at 7 1/2 there will be preaching and other devotional exercises. All are invited. The religious order of which Father Anthony is a member receives its name from making the Passion or sufferings of our Lord the special subject of all their meditations, &c.

Mr. Dan. Fisher has become associated with the firm of Messrs & Armstrong, as business manager. We understand it is the intention of this firm to enlarge their business by adding a complete stock of provisions, such as all kinds of vegetable, &c. Mr. F. is a thorough business man and that enterprising firm could have made no better selection to assist them in their largely increasing trade.

For Photographic Views of the Oil Regions, inquire at Witt Bros.

Nicholson Bros., at the Post Office News-room, are constantly in receipt of the latest standard literature of the day, and their shelves are loaded down with "good things for the mind." In addition the brands of cigars and chewing tobaccos sold by them are unexcelled, especially those fragrant Havana cigars. All those who take delight in enjoying a good smoke should call on Nicholson Bros.

Property on both sides of the river at Oil City has materially advanced since the consolidation, and lots are being sold in Venango City now at the rate of twenty-five to thirty per day.

NEW PROCESS OF REFINING PETROLEUM. - A new process of treating refined petroleum by the introduction of nitro-benzole, a product of coal tar, has just been introduced in Scotland. It is claimed that the use of this compound will remove all cloudiness, turbidity, and blueness of color, and render the oil transparent and clear.

Work on the extension of the Pithole Valley Railroad from Pithole to Pleasantville, is we understand, to be commenced as soon as the weather becomes settled. The railroad is at present doing a good business, under the efficient management of Mr. J. T. Blair, the popular Superintendent.

For life-size Photographs and Oil Paintings go to Witt Brothers, the largest Photographic Rooms in Western Pennsylvania, Hanna's Block, Franklin, Pa.

Another revolution in Mexico may shortly be expected. The opposition to Juarez is gaining ground.

In 1870 the State of Pennsylvania made over one million tons of iron. We have not the figures at hand for the importation of foreign iron during the same time, but in 1869 the imports of pig iron from England were 148,383 tons, and of rails, 335,500 tons, making altogether 484,383 tons. The entire product of iron in the United States in 1870 was nearly two millions of tons, and these figures increase steadily and rapidly from year to year. So far, therefore, as the raw material is concerned, we have completely gained the ascendancy over the foreign trade, and all we need is a little time to cover the entire field, and production in such quantities as effectually to keep out foreign competition. That any relaxation of the protective duties at the present time would throw us back and put off the final consummation indefinitely, is rendered obvious by the statistics of the British iron trade. In 1865 we only imported 44,601 tons of pig iron, and in 1869, this had swollen to 148,385. In 1865 we imported but 53,327 tons of rails, and in 1869 we received 335,500 tons.

Stereoscopic Views of the Union and Pacific Railroad, and fine views of the most gorgeous scenes in the Yosemite Valley, California, at Witt Brothers, Photographers and Publishers of Views of the Oil Regions, &c., and dealers in Photographic Instruments and Materials, Hanna's Block, Franklin, Pa.

A man at Windsor, Va., hitched his team to a freight car standing on the track, and went into a benzine shop to take something. Soon he thought he heard something, and looked up the track saw a freight train moving out, in the rear of which was a whirlwind, composed principally of horses' tails, wagon wheels, and harness leather. All he saved out of his establishment was a few horse-shoes and a wagon-tire. He says poets are the most economical things to hitch to.

The Corry Republican publishes an extended and interesting history of the Climax Mowing Machine Works of that place. From it we are led to infer that the business of the company is in an exceedingly flourishing condition.

Miss Anna E. Dickinson lectures in Rouseville, on Monday evening, April 31. Subject - Joan of Arc. Tickets \$1.00.

It is believed the cotton crop of 1870 will reach 4,200,000 bales. Last week New Orleans had 39,609 bales on the levee at one time.

From the Titusville Herald we learn that a boiler explosion occurred at well No. 15, Clark farm, Saumburg, yesterday morning, by which the engineer, Mr. A. C. Nelson, was seriously injured. The engine house was demolished.

The suicide in via has been assuming very alarming proportions of late. For the last few weeks Cincinnati has averaged a suicide a day, and on Wednesday last there were six suicides in and about New York. Much of this untimely "taking off" is undoubtedly due to the scarcity of money and labor and the high price of provisions.

The latest style collar is the Nilsson. Cameos are coming into vogue again. Domeo rings are in special favor. White crosses are acknowledged the style. New bracelets are broad, thick and clumsy. The newest earrings are oval, not round hoops. Overshirts are made nearly as long as the undershirts. Old point lace was never so much valued as at present. Costumes of materials of two or more shades are stylish. Young ladies wear white aprons with bows of colored ribbon. Long black silk basques fitted to the figure for summer wear.

Announcements. The announcement cards of candidates for nomination for the various offices will be published at the following rates: Assembly, \$10; Associate Judge, \$10; Sheriff, \$10; Treasurer, \$10; District Attorney, \$10; Commissioner, \$5; Auditor, \$5. Positively no announcements published unless paid for in advance.

COUNTY TREASURER. EDITOR RECORD: - Please announce the name of FID BISHOP, of Oil City, as a candidate for the office of County Treasurer, subject to the decision of the Republican Primary Election, and oblige MANY REPUBLICANS.

We are authorized to announce the name of N. B. RIDDLE, as a candidate for Treasurer, subject to the usage of the Republican party, at the primary meeting, Petroleum Centre, March 22, 1871.

SHERIFF. We are authorized to announce the name of C. S. MARKS, as a candidate for Sheriff, subject to the usage of the Republican party, at the primary meeting, Petroleum Centre, March 16, 1871.

Local Notices.

S. M. Pettengill & Co. 37 Park Row, New York, and Geo. F. Rowell & Co. Advertising Agents, are the sole agents for the Petroleum Centre Daily Record in that city. Advertisers in that city are requested to leave their favors with either of the above houses.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by all operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Bonilton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. Columbia Farm, Jan. 28.

Mr. H. K. Kenyon: Dear Sir: - We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours, G. W. Baulton, Supt. J. P. Bancroft, Manager. For further particulars address H. K. Kenyon, Petroleum Centre, P. O. box 517. Jan 31.
