We are informed by Mr. James Rooker, of Pithole, owner of the farm by that name, that he disposed of his property a few days since to our townsmen, the Messrs. Phillips, for the sum of \$105,000. The farm lies a short distance back of Prather City, and contains 90 acres. During the entire Pithole excitement of 1865, this farm was counted as dry territory by operators, but Mr. Rooker always clung to the idea that it would some day prove valuable for oil purposes, and recent strikes have proven his theory correct. In addition to the wells already down and pumping, a large number of derricks are already up and others in prospect.

Hon. James C. Brown, of Mercer county, has been appointed and confirmed Assessor of Internal Revenue, 20th District, Pa., in place of Mr. A. Carnes the present incumbent.

Some unprincipled wretch, not having the fear of the law, went through the mill at the McClintock House, at a late hour last night, securing for his labor the sum of forty cents in scrip, an English shilling, a few coppers, &c. An overcoat was also taken. The thief was undoubtedly well acquainted with the house, as particular pains appeared to have been taken in the selection of a coat belonging to a stranger. The rascal evidently fortified his courage by frequent potations from a bottle of old rye which had accidentally been left unlocked. It is to be hoped the sneak will be detected and punished.

Messrs. Armstrong, next door to the McClintock House, have just received a car load of apples—Ru sets, Spitzenburg, &c.,—direct from the apple growing districts of Ohio and Western New York. They are by far the finest lot of apples yet brought to this market. Call and examine them.

Yesterday surgeons—Mrs. Rodgers.

A correspondent of the Titusville Herald, writing from Pleasantville, says:

The prospects of a railroad being built from Pithole city via Pleasantville to your flourishing place, during the coming season, are good. The surveyors have run a line into this place from Pithole, and are to-day engaged in trying to find a suitable grade to Enterprise. Of course there will be no difficulty in getting to your place after Enterprise is reached. The line as now run strikes the Plank road near its junction with the Shamburg wagon road at the west end of the borough. From that point it passes in a north and northeasterly course and crosses the Enterprise roads a short distance to the north of the Methodist and Baptist churches. It passes above the Nettleton wells and crosses the old New Kirk farm, and is to pass from thence to Pine Creek. It is thought that it will require some enterprising engineering to secure a passably fair grade from New Kirk's to Enterprise. There would be no difficulty in a direct route from Pleasantville to Titusville. This road will greatly benefit this section.

Ice.—Last season it will be remembered the supply of ice in this vicinity ran short, the consequence being that those who preferred ice cool lemonade for a summer drink had to adopt Adam's ale, and that portion of community who enjoyed an iced whiskey cocktail or sangaree had to take it "plain and strait." This season that enterprising firm of ice dealers, Messrs. Bailey, Guinn & Smith, have laid in a sufficient quantity of the finest Chautauqua Lake ice ever brought to the oil region to supply all demands. The ice is stored in a large ice house near the railroad depot, built expressly for that purpose. Those wishing to keep cool should bear in mind that B. C. & F. have ice enough for all.

A Masonic Swindler.

A man giving his name as R. C. Spencer and representing himself to be a member of Stewart Lodge, No. 25, A. F. & A. M. of Clinton, N. J., (this is not the correct No. of that Lodge) has been in this vicinity attempting to obtain relief. The Secretary of Stewart Lodge says no such man has ever been a member of that Lodge, nor was ever in that vicinity so far as he can learn, they heard of him once before in the vicinity of Pittston, Pa., attempting the same thing, and he warns the fraternity against him as he is an impostor. Said Spencer is about five feet, nine inches high, blue eyes, gray hair and beard, above sixty years of age, and in apparent ill-health.—Tidout Journal

The Erie papers announce the death of Rev. Dr. Lyon, late pastor of the First Presbyterian Church in that city. Dr. Lyon went to Erie more than forty years ago, and when the population was but 1,200 people. He had been unwell for some time, and was at Avon at the time of his death, where he had gone with the hope that a change of air, and with the mineral waters at that place would improve his health. The funeral of the venerable doctor was held in Erie yesterday, and was largely attended.

The inconvenience and annoyance resulting from having animals for pets is illustrated by the poetry about a small sheep that a young lady named Mary once owned. It is enough to discourage any one from trying to raise sheep.

There was a small audience in attendance at the Hibernian, at Sobel's Opera House, last evening. The entertainment is first-class in every respect, and we are sorry to see so deserving a troupe receive so small a share of the public patronage.

Rumor has it that an old fashioned cock fight comes off in the Titusville cock-pit, this afternoon. The sports from all along Oil Creek are in attendance at this highly important event. Titusville must be improving in morals. How are you "Sodom, and Gomorrah."

Thanks to the liberality of our citizens, and business men generally, enough money has been subscribed and the sidewalk, destroyed at the late fire, placed in thorough repair. The new sidewalk meets the approbation of pedestrians in a body.

A new lodge of Good Templars has been organized at Tidout.

The Journal says the growth of Tidout will be unprecedented during the year 1871. A large number of new buildings have already been commenced.

TORPEDOED.—Well No. 1, Jas. S. McCray farm, owned by Mr. McCray, was torpedoed on Saturday last by Mr. Levi Mason, and from yielding between three and four barrels per day, increased to nearly forty. The well had been gradually falling off for several weeks past.

Titusville is the third money order office in the State in size.

Grady, the murderer, who was executed in Washington on Saturday, held this brief conversation on the day before:

"Look here," said he, I want to get out of this; I want to go on the scaffold. I told my father and sister so the other day. They don't want me to die; but every time I see them I feel more like it. They know and say that people will call them Grady's father and sister, but I can't help that now."

"Nobody to blame but yourself have you?"

"Yes, sir, another; a friend at times, and again an enemy. I'll tell you frankly how it is. His name is whisky. I can't say I did the deed, nor can I deny it because I was oblivious from the effects of liquor."

To this not much could be added that any person of conscience will not supply.

A farmer, who wished to invest the accumulation of his industry in United States securities, went to a brokers office to obtain treasury notes. The clerk inquired: "What denomination will you have them, sir?" Having never heard that word used excepting to distinguish religious sect, the farmer, after a little deliberation, replied: "Well you may give me part in Old School Presbyterian, to please the old lady, but give me the best on't in Free Will Baptist."

A GRIM JOKE.—In a freight car that came up on the A. V. R. R. the other day was a shipment of whisky, and in the same car a shipment of coffins for an undertaker; there being one coffin for each barrel of whisky. Whether this significant coincidence was the work of a factious freight hand of the railroad, or whether the coffin man watches the shipments of Pittsburgh whisky to this place and orders his underground overcoats accordingly, we know not. If it is the latter the undertaker has a good deal of confidence in the spirits. One coffin to a barrel of whisky may be correct by statistics, but we can hardly swallow it—the calculation, not the whisky.—Spectator

Religion Made Easy.

We read in one of the religious journals that a church, now in course of construction in Newark, N. J., is to be supplied with conveniences and luxuries, and, in fact, all the modern improvements. Adjoining the vestry is to be built a church parlor, which is to be furnished like a modern drawing-room, with piano and elegant furniture. Beneath this room will be situated the church kitchen, with a hotel range, and all the conveniences for getting up "big dinners." While the good people were about it, it is a wonder they did not add a billiard saloon, a smoking room, a reading room, and a gymnasium to the other conveniences and luxuries. There is nothing like taking things easy.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions; and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boniton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. Columbia Farm, Jan. 28.

MR. H. K. KENYON:

Dear Sir:—We are using your Double Acting Oil Pump in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,

G. W. BOUTON, Sup't. J. P. BARNHART, Manager. For further particulars address H. K. KENYON, Petroleum Centre, P. O. box 547. Jan 31.
