A DEAD BEAT.-A day or two ago, a seedy looking individual who gave his name as Charles Edwards, and represented himself as being the advance agent of the Morris Bros. Minstrels, artived in town and put up at a botel, by bis "winning ways" succeeding in ingratiating himself into the good graces of the landlord to the extent of one or two mesle, several drinks, and a small sum of money, and "guessed he would go out and examine the sights about town." The landlord suspecting that he had "canght a Tartar," set an officer on the trail who succeeded in "catching the Tartar" and making him "come down with th first train going south. The Morris Bros. are probably not aware of the fact that this that place. dead beat is traveiling through the country beating his way on the strength of their reputation. Our exchanges and hotel keepers in neighboring towns would do well to be on the look out for this swindler. Considerable interest is at present manifested in the oil territory at Reno. The well reported a day or two since as yielding 100 barrels per day, is now yielding sixty barrels. It is located on the Milton farm, in Cranberry township, and is owned by Oli City parties. Speaking of this territory the Venango Spectator says: "We expect to see lively times for a tew days in seeking leases and property in this new field."

Interesting Law Sait. We copy the following interesting account from the Venango Spectator, of a law suit tried in the Court at Franklin this week. The parties to the suit all reside in this

vicinity: John F. Tarr vs. C. G. Dempsey, R. A. Dempsey and William Spence. This was an ction on the case for con-

spiracy to defraud, brought by caplas. Taylor & Mackey appeared for plaintiff and the defence was conducted by McCalmont & Osborn and F. D. Kin-

The plaintif claimed that defendants by means of false and fraudulent representations as to the quality and quantity of certain land situate in Morgan county, Tennessee, induced him to enter into an article once. of agreement for the purchase of 2,500 acres

of said lands at one dollar per sere, and that afterwards by means of said representations, they induced the plaintiff to sign a judgment note for \$2,000; which note was discounted at the Banking House of Geo. H. Biesell & Co., and the money obtained appropriated to the use of the defendants.

The object of the suit was to recover the sore. amount of the note. The defendants claimed that the plaintiff had made all his negotiations with Wm. Spence, one of the defendants, and there, fore he could not recover against all of them. And the defendant IWm. Spence ets. claimed that he had made no false or fraudulent representations, and therefore was not liable to account to the plaintiff. It was also claimed that the plaiotiff after

seeing the land in question, had approved the contract and agreed to take it at the price agreed upon. The trial of the case lasted three days,

and was closely contested on both sides .-Over one bundred and Gity witnesses were examined. This is the second case of its nature ever tried in this County. The jury were out but a short time and brought in a verdict in favor of the plaint iff for the sum of \$2,301.97, being the full amount claimed with interest. The taxable costs in this case will amount to about \$1,500 in ad-

dition to the verdict. Our townsmen, Messre, S. A. Woods, H. S. Phinney, James Adams and L. H. Col- himself to be all right, drank a glass of iom, to-day completed a purchase of four acres of land nearly adjoining the new well at Reno. Terms private.

By the following from the Republican it will be seen that the Meadville oil company is a fixed fact:

The Meadville Oli Co. is evidently in good hands as their works do show. The derrick is atready up, and they will soon be ready to drill. From the top floats the stars and stripes, and we hope soon to chronicle a large well of oil or gas, or both. Success le their motto.

Commissioner Pleasanton decides that persons whose gross income during 1870, estimated in United States currency, did not exceed \$2,000, are not required to make any income returns.

No change has occurred in the membership of the Columbia Cornet Band, of Col-umbia Farm, Oil Creek, since its organization three years ago.

We notice the above going the rounds of our exchanges. The item is erroneous. A large number of charges have occurred in the Columbia Band since its formation, and but few of the original members are now connected with the organization. This, bowever, does not impair the excellence of is pizen, I go sgin sassingers. Yours, till the band, which is second to none in Wesiern Pennsylvania.

A number of young bloods from Meadville paid the Centre a visit yesterday, and stamps," after which Edwards left on the their tanks well filled with benzize, and exbibiting the "way they do such things" in

The Vennego Citizens has the following interesting oil news:

Intense excitement is raging concerning oil lands in Cranberry township, nearly opposite Reno. Three wells are about completed in that vicinity, and the prospect that they will prove large producing wells is very flattering.

One of these wells on the John Milton farm, owned by McDonald, Hefferman, Findley and Simon, of Oil City, is now being tested. This well, known as the "Mollie well," was drilled by Peter Nolan, an ex-

perienced operator, and is 907 feet deep, with thirty feet of sand, equal in quality to any found in the oil region. The company owning the well have a lease of thirty acres all of which they propose developing at

This well is southeast from Reno, near the Bredin and Milton wells, and has a besvier sand rock, and on the belief that the territory still further east would prove Treasurer, subject to the usages of the Re-more productive, some parties, on Thesday, publican party, at the primary meeting. leased twenty acres adjoining the lease on which the well is located, paying therefor one half the oil and \$20 bonus per

A large amount of land has been purchased and leased in this vicinity, and Messra McMulleo, Patterson and Dickey, of Petroieum Contre, and Messrs. Irwin & Boum, of Franklin, are the largest bold-

The prospects are very flattering that this territory will prove productive.

There is a general complaint in Boston that heas don't seem to know that the war is over, or that gold has failen from 280 to 111, as they keep right on laying eggs at the old price, and some of them lay old eggs. It is to be investigated by a committee of the Common Council.

A few days since, at High Prairie, near Leavenworth, Kansas, while John Cell was engaged in cleaning out a well, the walls caved in and buried him deep in the earth. Everybody supposed he was crus ed to death, and the process of digging bim out was very slow. Five days after the accident he was reached and found to be alive As soon as he was taken on the deplaced whisky, ate some food, and smoked a pipe Several hours afterward be communed sinking, and died without a struggle.

Parties who visited the new well at Rena, yesterday, report it as yielding about six ty barrels per day.

Within the fast five years over a hundred thousand dollars have been expended on the churches in Warren, and the Mall thicks its citizens ought now to afford \$26,-450-the estimated cost-for building a bridge across the Allegheny river at that point.

The Peansylvania Legislature is trying to pass a law to compel every healthy child between seven and fourteen years of age, to attend school at least six months in every year. The proposition meets

A disconsolate citizen of New Orleans puts the following question to one of the papers published there: "Mr. Edytur, that what I wish to ask you is whether strychnine," what the police give to dogs, wou't pizea the human being after sassingers has been fried. Please put in the paper how this is, for if fried strychalne pizened."

A nome poet sends us a poem begin- claity. ning:

Annonucements.

The annoucement cards of candidates for nomination for the various offices will be published at the following rates: Assembly, \$10; Associate Judge, \$10; Sheriff, \$10; Treasurer, \$10; District Attorney, S10; Commissioner, \$5; Auditor, \$5. Positively no announcements published unless paid for in ADVANCE.

DISTRICT ATTORNEY.

We are authorized to announce the name of James H. Smith, as conducate for Dis-trict Attorney, subject to the usages of the Republican Primary Election. Petroleum Centre, March 25, 1871.

COUNTY TREASURER.

Entron Recomp :-- Please announce the name of FID BISHOP, of Oil City, as a candidate for the office of County Treasur-er, subject to the decision of the Republican Primary Election, and othige MANY REPUBLICANS.

We are authorized to announce the name Petroleum Centre, March 22, 1871.

SHERIFF.

We are authorized to announce the name of C. S. MARKS, as a condidate for Sheriff. subject to the usages of the Republican party, at the primary meeting. P-troleum Centre, March 16, 1871.

Kenyon's New Double Acting On Pump for Pumping Off or Water in Deep Wells.

Kenyon's New Double Acting Oil Primp is acknowledged to be the best primp now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of para the and other obstract ones, and the oil in the vents is drawn towards the well. It has been ascertained by account test that the use of this pump causes a gradually increas-ing flow of sit. It is well known by ail operators that this improvement is of great value, and one that has been long south tor. The ablest mechanics of our country have for years, been at work trying to find out while new and untried plan to provog the life time of an oil web; and nothing yet to our knowledge has been brought before the public that in any way equals the power the prediction in sky way equals the power of the Kenyon Pump, experience having thenght tool it is the long continued suc-tion that has the power to kkep up and in-crease the production of all wells. Ou operators are reserved to Mr. Geo. Boulton, Superintendent of the Columbia Farm; for Superintendent of the the practical work-information in regard to the practical work-information in regard to the practical workings of the Kenyon Fump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL Co. Columbia Farm, Jan. 28.

Columbia Farm, Jun. 28. 5 Mn. H. K. KENYON: Dear Sir:--We are using your Double Acting Oil Primps in three of our oil wells and take pleasure in stating that we are gotting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use

to be the best in use. Hespecificity yours, G W. BOULTON, Sup'l. J. P. BARCOUT, Manager For further particulars address H. K. KENTON, Petroleum Centre. P. O. box jan31.
