No. 6—Direct from Philadelphia without change.

No. 4—Direct to Pittsburgh without change.

Monday, Nov. 25, 1870.

Gold at 1 p. m., 110 1/2

The excitement over the new well near Reno, on the Milton farm, appears to be on the increase, and operators and speculators are crowding in there to such an extent that board and lodging cannot be furnished them and visitors either have to "carry their fodder in a baversack" strapped to their backs, or risk the chance of going hungry. Yesterday, Messrs. Hess, Patterson & Dickey, of Petroleum Centre, sold an undivided one-fourth interest in the Gibbens farm, to Messrs. Vera & Blake, of Petroleum Centre, for the snug little sum of \$10,000. The Gibbens farm adjoins the Milton farm, and contains 100 acres. The plan for a new oil town has already been laid out on this farm, and yesterday and to-day "corner lots" have been in active demand, the owners of the farm having already given out sixteen leases for building purposes. The foundation for a large hotel is being dug, and the building will be up in a few days. Our townsmen, Mr. H. C. Wachter, is about to open a grocery store in the new town. The owners of the Gibbens farm have decided to name the place "Driftwood," a very beautiful and romantic name, not all in keeping with the names of other oil towns such as "Tip Top," "Red Hot," "Stand-Off City," &c.—Welcome to the new oil town of "Driftwood."

The remains of the poor unfortunate, Mary Jane Charters, who committed suicide day before yesterday, were committed to their final resting place, on the hill near the Churches, at 11 o'clock this forenoon. The relatives of deceased failed to claim the body, in consequence of which a subscription was taken up to defray the funeral expenses. The old, old story—a short life of gilded pleasure and shame, followed by a pauper's grave at the hands of strangers, and the play is ended—the curtain drops and another life—wr of passes from mortal view forever.

A new lodge of Oil Fellows is soon to be started in Oil City.

The officers of Petroleum Centre Lodge No. 715, I. O. O. F., were regularly installed into office last evening, by D. D. G. M. Herry Plance, assisted by a corps of specially appointed Grand officers. The elective officers for the ensuing term of six months are as follows:

- N. G., James K. Elliott.
- V. G., John E. Boyles.
- P. S., Albert Glenn.
- A. S., Wm. J. Hovis.
- Treas., Jesse B. Collom.

The following named members were appointed to subordinate positions:

- Sr. Warden, Samuel Corbitt.
- Jr. Warden, D. Thompson.
- Conductor, Benj. Allen.
- R. S. S., J. W. Gordon.
- L. S. S., D. C. Brooks.
- I. G., Arthur Robinson.
- O. G., Harvey Mallory.
- R. S. to N. G., L. H. Collom.
- L. S. to do, A. S. Parker.
- R. S. to V. G., Geo. Stepheps.
- L. S. to do, P. W. Schofield.

After the installation ceremonies were concluded, a very pleasant and profitable time was experienced in listening to a telling speech from P. G., D. C. Rheim, of Venango Lodge No. 255. Remarks were also made by P. G., J. O. Rockwell, same lodge, and by P. G., John Campbell, of Covenant Lodge No. 35, N. Y. P. G., F. J. Keller, of Northern Liberties Lodge No. 17, of Philadelphia, made some very interesting remarks, during the course of which he took occasion, on behalf of the Lodge to present P. G., Joseph Moorhead, one of the pioneers of the Lodge, with an elegant and beautiful Past Grand's regalia. The presentation was a complete surprise to P. G. Moorhead, who, however, thanked the brethren in a feeling manner.

The Lodge is in a very prosperous condition at present. It now numbers seventy-seven members, is entirely clear of debt, and has a fund of several hundred dollars in the treasury. They are working silently but surely, and from the members of other Lodges who visit them they receive the highest encomiums upon the efficient manner in which they perform all the "work" of Odd Fellowship.

I SCREAM—Ice cold Soda Water, deliciously flavored, and the first of the season, on draught at Griffes Bros. Drug Store.—Also, at M. S. Simmons' Drug Store.

There was a serious riot at Scranton yesterday, over 1,000 men armed with rifles and pistols visited the different mines and drove the miners from their work. Three men were shot down and others stoned to death. Great excitement and fear prevailed among the citizens. In the evening one battalion of infantry and a section of artillery arrived on the ground, under command of Maj. Gen. Osborne, causing a more confident feeling to be experienced by the people.

Yesterday morning the printing office of Weed, Parsons & Co., of Albany, N. Y., was totally destroyed by fire together with some twelve other buildings. The loss to Weed, Parsons & Co. will reach \$350,000 above their insurance which was \$100,000. Total loss \$300,000. Over 300 persons are thrown out of employment. The remains of a young man have been found in the ruins.

The New Castle Guardian thus tells what befell an individual who lately distinguished himself in that place. On Saturday night last a vendor of prize packages of obscene pictures, who had been prosecuting his calling in this city some two or three days, succeeded in rendering himself obnoxious to some of our boys, and getting more and more impudent as he pocketed more and more "stamps" he was unanimously voted a "fraud," and a resolution to "egg" him passed, and was carried into execution instantly. Eggs filled the air, and before the object at whom they were directed could remove to a safe place his garments were in a woeful plight.

This is the same individual that inflicted his presence on the people of this place a few days since. Instead of eggs he got a plentiful supply of flour on his miserable carcass. He left town immediately.

Clothes line thieves are at work in Titusville. It would be well for our citizens to be on their guard lest they pay this place a call. The Titusville clothes line thieves are not remarkable for their honesty.

Nine years ago Thursday the battle of Shiloh or Pittsburg Landing was fought.

The Oil City Register of a late date says:

A large number of heavy capitalists from the eastern cities are now in this region looking for investments in good real estate. Everything looks favorable for this year being the most prosperous in the history of the Oil Region.

**CORN PLANTER.**

An act passed the House at Harrisburg on the 13th ult., for the relief of the heirs of Corn Planter, to Seneca Indian Chief, formerly residing on the Allegheny above Warren. In 1791 the Governor of this State was authorized to grant to him about 786 acres of land for meritorious services. His descendants now petition the legislature for a division of the lands in question. The bill authorizes the appointment by the Orphans' Court of this County of three competent disinterested men, citizens of Pennsylvania, to make such partition and allotment of shares as they may think just and equitable having to value and the location of the improvements made by the parties interested, and to pray also for the appointment of guardians for any parties being minor; and the said three men so appointed by said court shall have all the powers of commissioners or an inquest to make partition, and shall make the allotments and report their proceedings to said court and when confirmed by the said court such partition shall be and remain firm and stable forever.

It also provides that these shares or allotments may be sold by the owners to any of the descendants of Corn Planter, or any member of the Seneca nation of Indians, but not to others without the authority of the Legislature.

The bill was carefully drawn by Hon. Ed. K. Price, of Philadelphia. It will no doubt pass the Senate and go into operation at no distant day. The land in question is in a broad valley of the Allegheny between the villages of Corydon and Kinzua, and may become very valuable.

Knoxville, Tenn., boasts of a young Samson, named Louis Kuckert. One of his feats is to lie flat on his back on the floor and stretch his arms above his head, with the palm of his hand upward, and for a heavy man to place a foot in either hand, when he would raise him with ease and get up on his feet. He has lifted men weighing nearly two hundred pounds in this manner.

The first of April came along as usual; but as to its being a "moving day," it was no more so in Warren than any other day, and even less so. There have been but few "moves" since the month came in. There were some old jokes played off, except the stoppage of a train on the Oil Creek & Allegheny River Railway. There was believed to be a man on the track.—The train was stopped, the object examined and proved to be a man of stone. The engineer gave full vent to his feelings on hearing a voice exclaim high up the mountain: "Remember that this is the first day of April."—Warren Ledger.

The 1:26 train going south this p. m. ran off the track near Shaffer Farm. A delay of nearly an hour was the consequence.

A little child of Mr. John Ross, of Titusville, was drowned in a barrel of rain water, at that place day before yesterday.

Base ball matters are beginning to look up in some of the surrounding towns.—What has become of the Black Stocking club of this place?

Special trains will be run from Oil City to Meadville on Wednesday evening next for the benefit of those wishing to hear Nilsson sing.

A constant dropping will wear a rock. Keep dropping your advertisements on the public and they will melt under it like rock salt.

The Iron Manufacturers in convention at Pittsburgh have advanced the price of iron 1/2 cent per pound, and nails 25 cents per keg.

Since a Kansas vigilance committee held a necktie party, eight horse thieves are missing.

**NOTICE.**

Sealed Proposals will be received up to 10 o'clock a. m. Monday April 24th 1871, for the Building of a School House at Petroleum Centre. Plans and specifications to be seen by calling on J. M. DICKEY or I. A. GIBSON, Rousseville.

By order of Building Committee.

**Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.**

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Bonilton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO.  
Columbia Farm, Jan. 28.

Mr. H. K. KENYON:  
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,  
G. W. BOUTON, Sup't.  
J. P. BARCROFT, Manager  
For further particulars address H. K. KENYON, Petroleum Centre. P. O. Box 547. Jan 31.
