The Oil City Register selvocates the claims of Oil City as a central point for the location of oil refineries in the following truthf 1 manner:

We respectfully submit to those engaged to the refining branch of the Petroleum business, the sivaltages presented by Oil City as the best point for refining Petroleum,-Four of the chief railroads, having direct connections with all other leading railroads in the country, centre here. Oil Creek and the Allegheny River are navigable during portion of the year. Oil piper from all the principal producing localities have their terminus here. For transport of tue crude and manufactured article, chemicall, sto. needed by the reliner, no other pluce presents the same facilities and advan tager. It is an indisputable fact, we think, that the place of production is the proper locality to manufacture the same, provided the transportation facilities are suple. That they are in our case is a fact beyond dispute With transportation, a central locality, and all the requisite advantages, Oil Ciry has ever been the point for the transaction of the general tusiness, and is the headquarters of the petroleum trade. The refining interest must centre berd of a necessity .-Several refin-ries are to be built here as soon as the weather will permit, and gradus'ty but surely will the entire relining trade centre at Oi) City, the hest and only location in the Oil Region fitted in all responts for it. Every facility should be extended to reflace to hasten as much as possible, this designble consummation.

TOOK TE EASY .- Scene: A Saloon up The Surciog.-In a conversation with town, two Teutons seated at a card table Mr. F. J. Higgins, engineer at the wells on lease 22, Central Petroleum Co's farm, and playing "muggins" for the beer. Enter Hans, who excitedly addresses one of the who ran tour with the deceased for nearly a year and a half previous to his death, we players: learn some additional facts in regard to the "Shinglefliddler, your hoss'n vaggon is

and occurrence. Pryor came to this place run away." from Newark, Obio, at which place he has "Isn dot so? Vy you don't shtop him up three brothers living at present. He had a tredie?" worked at that place from the time of his ·Coz he was more ash haaf a square away strival from the old country up to the time before 1 see bim."

in the belief that the unfortunate man was

act, and states that deceased had frequen'-

house, expressing the belief that he (Pryor)

was soon going to die, and exquiring as to

the easiest and surest method of dying. This

was particularly observable for several days

The body was enclosed in a coffin, last

evening, and bronght to town, where it

lies awaiting tue arrival of another brother

from Newark, alter which it will be tak-

en to Dunkirk for borial. One brother ar-

rived last night, and is highly spoken of,

having been freight receiver at Dunkirk for

the last nincteeu years. His other brothers

are also respectable citizens of Newark, O.

From the evidence before the coroner's

jury is appears that Pryor in a fit of insan-

ity hung bimself on the 34 day of October,

1870, and has hung or been loying on the

ground within 150 yards from dwelling

houses in Wild Cat Hollow for six months

and eight days, a singular fact considering

the number of people that were constantly

going up or coming down the hill in that

The following is the verdict of the coro-

COMMONWEALTH OF PENNSTLVANIA, SS

We the undersigned, having been duly summoused and enoprinelled as a jury to de-termine the cause of the death of an un-known body. found near Petroleum Centre, Venango county, Pa., A pril 12th, 1871, si-ter hearing the evidence we have come to the conclusion that the said body is the per-

son of one Patrick Pryor, who came to his death by his own bands by hanging bimself

while in a temporary fit of insanity.

Attest : SANCEL REYNOLDS, J. P.

3:38 train this afternoon.

Since the above was written we learn that

It may not be generally known to our oll

operators, but it is a fact that for the past

year or more, the prices of first-class en-

gines and bollers, with machinery complete,

for use in drilling or pumping oil wells, has

fallen off considerably over previous rates

Our attention has been called particularly

to this fact after an examination of the price

fist of englises and boilers manufactured by

the Bay State Iron Works Co., Erie, Ps .-

They turaish a 10-horse power engine, with

round valve, extra heavy bearings and

boxes, long connecting rod complete with link, for \$350 at retail, and 15-horse power

portable boilers at \$600, which is a large

reduction over old prices. These engines are warranted in every respect. Mr. A. P.

Orsbero, is a member of this firm, and vis-

its the oil region every two or three weeks

the remains will be taken to Dunkirk on the

VENANGO COUNTY,

vielaity.

previous to his disappearance.

he arrived in the oil region, and not at "flow you know he was my hose's wag-Lockport, the error baving arose from the gun !" fact that the memorandum book found in "Vy, he had your name on do vaghis clothing did not belong to him, but was

gon " the property of a man named Luke Hanron "Ish dot so! Vell, you disk you poety who was from Lockport, and formerly worksmart, sin't it? But dot ish not my vaged for the Central Co. Mr. Higgins is tirm gon; it is my wife's hoss's vaggon. Hurry

up, Shake, (to his partner,) und blay out insame at the time of committing the rash dish game. If dot hoss'n vaggon git smash. ed up, ven I go home der night my vife vill ly acted in a strange manner in the engine | kive me hell Columbus, "

> The family of Captain John Brown, the hero of Harper's Ferry, are now living near Probnerville, Humboldt county, California. having moved thitber appear ago from Tebama county, to which they emigrated during the war. Mrs. Brown is living with her only surviving son, Salmon, who is a sbeep farmer, her daughters Sarah and Ellen are with her; her health is poor, as is that of Miss Sarah. Anue, who was with her father at Harper's Ferry, is married in Cali fornia, and has one child-a daughter. The fam y have not been very prosperous 1 . California. Two of Captain Brown's cons by his first marriage live in Ohio with their families - John and Jason; Owen lives near Petroleum Centre, in Pennsylvania and Rut, (Mrs. Thompson, ) still lives in North Elba, we believe.

Boring for oil has commenced on Limestone Creek, about five miles from Kittanning. It is an enterprising Pittsburgh company that is is testing this territory. The well is now down to the depth of 1,000 feet and at this depth they struck a vein of gas which has been throwing the water to quite a height ever since they struck it. There have been small particles of oil seen at different times, by several parties. A correspondent of the Leader says, unother ourlosity, which, bundreds have witnessed, is the burning of the gas at different places along the creek, some of the flames occupying a space of over a rod square, and at a distance of over a mile from the well. The cause of this is supposed to be that the weight of the water in the well forces the gas through the crevices of the rock .-Some of these places have been burning for more than a month without ceaslog.

NEW LIVERT STABLE AT OIL CITY .-Our townsman, Mr. T. McDouald, bas recently established a branch of his extensive livery establishment in this place, at Oil City, and bas stocked it with a large stud of driving and riding horses, which in addition to the finest buckboards, carringes, wagons, &c , forms one of the most cont-

An exc. unge says: "We are in receipt of two poems, one on the 'Throbbing Brain,' and the other on a 'Beating Heart. We will wait natil we receive one on the 'Stomach Ache,' and publich all three togetber."

In speaking of the Union & Timeville R. R., the Westfield Republican says: "I represents that that the Bay State engine is reported that Fisk and Gould have deci to ext ad the road into this county; the Mayville people claim that an arrat ment has already been made by which road is to strike the Crossout just bey Sherman, and run on its track by lay down a third rail. to near the brink of precipice over which the Cross Cut pitch into Portland, and then bear off to right down to Dunkirk, and there con with the N. Y. & Erie." A stolen kiss saved a girl's life in P du Luciast week, for if the man who the deed had not putted her bead forw just as ne dil a beam, which fell fr the upper floor, would have dashel orains out. Since then all the young m in Fond du Lac are going around say the lives of the young women. They se is sweet to be a philantropust.

## Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other field, but that it creates and sustains a constant and powerful suction, by means of which the seams or velos of the weil are in a great measure cleared of para line and other obstructions, and the off in the verus is drawn towards the well. It has been ascertained by actual test that the use of this pourp causes a gradually increasing flow of on. It is well known by oil operators that this improvement is of great when and one that has been long rought for. The ablest mechanics of our country list. plete establishments in Oil City. We take pleasure in recommending Mr. M. to the people of Oil City as a fair and honorable busicess man, and trust they will extend him a liberal patronage. An exc, ange says: "We are in recently the set of the the set in a set of the set o tion that has the power to keep up and in-crease the production of oil wells. Oil operators are reterred to Mr. Geo. Bonkon, Superintendent of the Columbia Farm, for information in regard to the practical work-ings of the Kenyon Pamp. We append the following testimonial from the madagers of the Columbia Farm:
