Gen. Kilpatrick will deliver his great military lecture at Sobel's Opera House, to-morrow evening.

At a meeting of the Petroleum Centre Choral Union, held at the Catholic Institute Saturday evening, the organization of the Union was completed by the adoption of a constitution and by-law, and the election of the following officers:

President—L. H. Collom.

Vice-President—Mrs. H. M. Carman.

Treas. and Sec'y—G. W. Winsor.

Conductor—C. L. Boies.

Executive Committee—John Waddell, J. R. Porter, C. L. Boies.

An institution of this kind has long been needed in this place, and now that one is organized, our music-loving citizens should encourage and sustain it by joining and otherwise advancing its interests. We are not advised as to the regular nights of meeting, but shall let our readers know as soon as possible.

Bendurfor, the man who was so seriously burned by a kerosene explosion, yesterday morning, is somewhat easier to-day and his physician thinks will recover. His escape from a horrible death was a narrow one.

Battle Scenes and Incidents of the Rebellion, at the Opera House, to-morrow eve'g.

St. John's (Episcopal) Church, Rouseville, will be consecrated on Thursday next.

Rouseville has a new fire engine and the people rejoice thereat.

A fire occurred in Critchenden's liquor store, Titusville, early Sunday morning, by which the building and contents were damaged to the extent of \$5,000 or \$1,000.—Fully insured.

We copy the following account of the production of the farms and tracts in the Bear Creek oil district, from the Clarion Democrat:

Kelly Farm.—Mountain well, 14 barrels per day, Cribbs, 12; Armstrong, 2 wells 15.

Graham Landing Tract.—Jackson, 10; Ballantine, 20; Graham, 20. Pickwell, 9; Celeste, 6; Fullerton, 8; Blackhawk, 10; Maggle, 15; Gates, 5; Buck Eye, 12; Keystone, 20; Glencairn, 2 wells, 20; Gosser, No. 2, 10; Gosser, No. 1, 5; Hepe, 5.

Anobor's Farm.—Elizabeth, 20; Ivanhoe, 12; Jefferson, 8.

Crawford Tract.—Kern & Tillinghast, 4 wells; 90; Whale, 12; Armstrong, 2 wells, 20 McKinney, 12.

Pollock Farm.—D. S. Karns, 10; Fair-stance, 15; and two drilling.

Sbeasley Farm.—Two wells, 18.

Galley Farm.—Blair, 2; Brett, 10; Mellen, 10; Blair, 25; Galley, 2 well, 25; and 4 drilling.

These wells are located in Perry township, from Bear Creek Station to a point up the Clarion river one and one-half miles. It makes an aggregate of 508 barrels per day.

The Oil City Register has the following account of the striking of a new well on the Moran farm, near that city:

We learn that a new well was struck Friday night on the Moran farm, on the South side of the river, just below this city. The vein was struck about eleven o'clock, and immediately commenced throwing a stream of oil the full size of the hole, above the top of the derrick. The fires were put out and operations abandoned until this morning. One of the workmen states that rock is the same as found on the Milton farm, and is found at a depth of about 500 feet below the surface. The well is situated back on the hill and we would not be surprised if it opened up a large scope of territory.

COMMUNICATED.—If houses of infamy be again allowed in our midst, it will be an eternal disgrace to every man in Petroleum Centre.

A CITIZEN.

Sherman's March to the Sea, at the Opera House, to-morrow evening.

The British ship, City of Kingston, Dunn master, which sailed from Philadelphia January 17, for Hamburg, was wrecked in the German Ocean, and is a total loss.—Her cargo consisted of 9,500 bbls refined petroleum, of which 5,000 bbls were saved. Accounts from Lennig, Denmark, state that a number of the casks of this petroleum have been washed ashore in that neighborhood. They are marked with the names of well known petroleum dealers in Philadelphia and elsewhere.

To-morrow evening, General Judson Kilpatrick will deliver his great military lecture entitled, "Incidents and Battle Scenes of the Rebellion," at Sobel's Opera House. Speaking of this lecture the Troy Times says: The story of Sherman's march from Atlanta to the sea is probably the most interesting and inexhaustible of the many memorable episodes of the late war. When told by one of the chief actors in it, it becomes doubly interesting. Gen. Kilpatrick fights his battles over again with all the dash and vigor with which he led his brave squadrons in many a hard fought field. His dramatic as well as artistic powers of description are remarkable and bring the scenes he describes vividly before his hearers. His sketch of the battles of Lookout Mountain and Mission Ridge is one of the most comprehensible as well as spirit stirring that we have ever read or listened to. His lecture last evening was replete with picturesque description, perspicuous narration and amusing anecdotes.

The Columbia Cornet Band will be present and discourse some of their best music to-morrow evening.

It is easy to be nobody, and we will tell you how to do it. Go to the drinking saloon to spend your leisure time. You need not drink much now; just a little beer or some other drink. In the meantime play dominoes, checkers, or something else to kill time, so that you will be sure not to read any useful book. If you do read, let it be the dime novels of the day. Thus go on, keeping your stomach full and your head empty, and yourself playing time killing games, and in a few years you'll be nobody, unless, as is quite likely, you should turn out a drunkard or a professional gambler, either of which is worse than nobody.

A gentleman who sent for two dozen stereoscopic views of scenes in Chicago, was surprised to receive photographs of murders, robberies, and hangings, and a scene in a divorce court where the wife was testifying against her husband.

How often we hear "old folks" compare notes about the good old times, when they were young, and wonder what we're coming to:

The old folks sent the boys to bed;
But out of the window, over the shed,
They went to the ground for a little spree,
But it's just the same as it used to be.

The damsels old they fume, and fret;
They say they never saw such a set
Of girls as these—"they make us free";
But they're just like the girls that used to be.

The Pennsylvania Reserve Corps will celebrate the tenth anniversary of the organization, in Philadelphia, on Tuesday, May 7th. An oration will be delivered by Gen. Wellington H. Ent, of Columbia county. A banquet will be given in the afternoon, and a grand reunion ball in the evening. A cordial invitation is extended to members of the old division throughout the State to be present on the occasion, and delegations intending to participate in the celebration are requested to report in advance to Col. John H. Taggart, at Philadelphia.

Somebody advertises for agents to sell a work entitled "Hymenial Instructor." A bontemporary adds: "The best hymenial instructor we know of, is a young widow. What she don't know there is no use in learning."

An Indiana man, who traded off his wife peck of beans and a watch, was disgusted at finding the beans mouldy and the watch corroded. But he says the other man will find the wife worse than the beans and corroder than the watch.

Gen. Kilpatrick, at the Opera House, to-morrow evening.

Mr. Greeley says the reason there is a scarcity of maple sugar this spring is, that the farmers didn't more than half manure their sugar seeds when they planted them last fall. He says for every seed you plant you want a whole pile of manure, when the vines will be fairly weighed down with little scolloped cakes. Farmers never will learn anything if they keep on fooling away their time as they have the past year.

SAD AND FATAL ACCIDENT.—A little child three years old, was killed by the cars at Brady's Bend, on Saturday afternoon. It had crept from the house to the track, and when discovered by the engineer, the train could not be stopped. It was struck by the locomotive, and thrown from the track a distance of forty feet, and instantly killed.

A little girl who loves to pray, one night was very tired and sleepy, and was getting into her little bed without saying her prayers. But her mamma told her to kneel down first to pray. So she folded her little hands and said: "Please, God, remember what little Polly said last night, she's so tired to-night. Amen."

TO SCHOOL DIRECTORS.—We copy the following from the late School law for the information of School Directors who have not seen it. They will now know what the law requires:

It shall be the duty of the board of directors to publish an annual statement of the amount of money received and expended, and the amount due from collectors, and setting forth all the financial operations in one or more newspapers of the county in which they reside. If there is an amount of tax not collected, or any amount due to the district, it is to be stated as "amount of—yet due," at the foot of receipts, and so carried out; and if there is an amount of debt yet due by the district, it is to be stated as the "amount yet due for—," and so carried out at the foot of expenditures: in order, in both cases, to balance the account in accordance with the facts.—If there was a building tax and a house or houses erected during the year, the amount of the building tax, and of the portion of it expended in the year for this purpose, it is to be stated in the same way, with the balance on hand, or the debt for this purpose, if any, under proper heads "Receipts" and "Expenditures for Building," as in cases of ordinary school tax and expenditure.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. }
Columbia Farm, Jan. 28. }

MR. H. K. KENYON:

Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,

G. W. BOULTON, Sup't.
