Drilling Jars

We would respectfully announce to our customers and the public generally that we keep constantly on hand

Cast Steel Drilling Jars!

Which for Strength and Durability excel any Steel Jar heretofore in use.

The Advantages we Claim

Over Lead Jars are that, being ALL STEEL, they are stronger than Jars composed partly of Iron; that presenting a Steel surface to the rock, they are protected from wear on the outside, and will keep their shape longer.

We also keep on hand

Cast Iron Working Barrels.

The bonds are free from United States Tax; the Principal and Interest are payable in Gold—no principal at the end of Thirty years, and the interest semi-annually at the rate of SIX PER CENT.

They are used in the following amounts: \$100,000, \$1,000, \$5,000 and \$20,000

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thompson, President of the Pennsylvania Central Railroad Company.

These bonds will, at all times, be convertible, at the option of the holder, into First Mortgage Bonds of the same amount, at their lowest cash price.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first-class security. Persons holding United States Bonds, by converting them into Northern Pacific Bonds, increase their yield from one third, and will have a perfectly reliable investment.
