Gen. Kilpatrick arrived this noon. Go and hear him to-night.

**THE GEOLOGICAL SURVEY**—A letter from Harrisburgh to the Corry Republican says:

"The House has passed something like a thousand private bills that lie in the Senate untouched. But whenever they reach a bill that is of public importance, and in which the people are interested at large, they are pretty sure to indulge in the amusement of knocking it in the head. Such has been the fate of the bill providing for a geological survey of the State. The importance, and I might say necessity, of a thorough geological survey of the State is beyond question. Our vast mineral resources—the great elements of our natural wealth—need an investigation in a scientific way that will properly place their importance and extent—now not fully known to ourselves—before the world in a proper form. It is a matter in which the entire State has an interest, and ought to have been passed in some shape to accomplish the desired object without a dissenting voice. But the bill has gone the way that all other measures of importance have traveled during the present session, and will be heard of no more."

Notwithstanding the importance of a measure of this kind to the mining interests of the State, and especially to the oil region, that august body the State Legislature, have seen fit to utterly ignore the bill and consequently it is laid on the shelf for the present session at least, if not for all time. In our humble opinion it does not speak well for that body to allow a measure of so great importance to the people and to the State at large, to go by without condescending to notice it, at the same time being engaged in bickering over local bills of no importance to any one. This is also the opinion of the oil operators in this section of the oil region.

**TERRIBLE BOILER EXPLOSION—ONE MAN KILLED.**—About four o'clock yesterday afternoon, the boiler in use at the new drilling well on the Collom lease, Woods farm, exploded with terrific force, tearing the engine to fragments, and instantly killing Mr. John Consider, the engineer in charge. The boiler was thrown over 350 feet by the force of the explosion, striking three times before it finally landed. The workmen were engaged in sand-pumping at the time, and Mr. C. had been notified that steam was running up fast in the boiler, and from the appearance of the body is supposed to have been looking into the fire-box under the boiler. The body was thrown nearly 75 feet, and the back of the head crushed in, which was the cause of his death, as no other bruises or scalds were discovered on any portion of the body. An examination shows that the boiler gave way on the right hand side, directly over the fire-box, and it went out a little to the left of the derrick, instead of going straight through, as is usually the case when the crown sheet gives way. The boiler is known as a Washington, manufactured at Newburg, N. Y., and is said to have been unusually well made. The cause of the explosion was undoubtedly a too high pressure of steam. Well informed parties are of the opinion that the pressure was at least 140 pounds to the square inch. The usual amount carried is 60 lbs. and not over 80 lbs. Had the boiler went through the derrick the driller would also have been killed, as he was standing directly in a line with it.

Mr. Consider had been on the Creek for nearly six years, and was always regarded as a thorough and competent workman. During his long residence in the oil region, by his genial and friendly disposition, he had formed a large circle of acquaintances who will sincerely mourn his death. He was 26 years old and unmarried.

The remains were taken in charge by his brother and brother-in-law, and left on the morning train for Cochranton, about six miles from Meadville, Crawford county, his former residence, where they will be buried.

It is probable that the darkest hour in the life of a woman is when she wakes on the morning after the loss of her honor, and feels how empty is the future, and how pitiful is the price of her infamy. The past, with its possibilities of honest life, self-respect, and the esteem of others, is gone forever. Nothing is left but mere living on the wages of shame, which stick to the fingers and burn them like boiling pitch. A leper, when he first discovers the fatal whitening of his skin, is not more lonely. Into this moral prison-house Orange S. Winans entered on Saturday. He may try to brazen out his foul misfortune, but he cannot conceal from himself his sense of the permanent worthlessness of the life he has stained and polluted. In all the almshouses and penitentiaries of the State there exists to-day no creature so needing, but beyond the pity of charitable hearts.

The above is from the New York Tribune of the 17th inst. Orange S. Winans is a member of the New York Assembly from Dunkirk and sold his party out on the Tax Levy Bill for \$100,000.

**PETROLEUM ITEMS.**—A new well was struck on the Dempsey farm, Cherrytree Run, on Saturday last, which is yielding 8 barrels per day. Owned by Kara & Jones.

Well No. 2, Wallace lease, Metropolitan tract, Cherrytree Run, was finished and commenced testing about ten days ago. Is now yielding 8 barrels per day of green oil. Owned by John Wallace, of Rynd Farm. Well No. 1, same lease, is being drilled deeper.

All the wells on the Button lease, Central Petroleum Co.'s farm, are temporarily shut down, on account of the fluxa in the large boiler being out of repair.

Another well on Church Run was completed yesterday, or rather drilling was stopped when 12 feet in the sand, by a spurt of oil and gas that stopped progress downward. Oil was thrown higher than the derrick, and it was estimated that twenty barrels of it were discharged. Tubing will be put in as soon as possible, and the flow of oil controlled. The well is on the McGuire farm, and is owned by Messrs. Byran and Pitcher.—Courier.

This is probably the well that certain parties were industriously engaged, last evening, in reporting as yielding at the rate of 1,000 barrels per day.

The Thompson & Cady well produced, for the twenty-four hours ending last night at six o'clock, one hundred and twenty-five barrels of oil, exclusive of water.—Herald this morning.

This shows a considerable falling off from the first report, which had the well flowing as high as 300 barrels per day.

Notice.—I hereby notify the patrons of my school that I have concluded not to commence the term until the 1st day of May. Mrs. A. C. EBY, Teacher.

**"DEAR FATHER, LOOK UP!"**  
Dear father, look up,  
Restrain the hiccup;  
And tell me what ails thine forehead;  
It's all black and blue,  
Oh, what could she do  
To cause a contusion so horrid?  
"Your mother, Jane Ann,  
A newspaper man  
Admired, till I warned her she'd catch it;  
Like Washington, I  
Cannot tell a lie—  
I did it with my little hatchet.

The Grand Jury of Crawford county, have returned a bill of indictment against Benninghoff Sr., and his two sons, for compounding a felony. After the old man was robbed, he offered a reward of \$5,000 for each man tried and convicted of implication in the robbery, and fourteen per cent. of the money recovered. Two of the parties were arrested and tried, and about \$20,000 of the money was recovered. It is alleged that Benninghoff fed two lawyers to defend the two thieves, to have them acquitted, and save the reward, but they were convicted nevertheless. He has refused to settle with the detectives, and two of them have brought suit against him and his sons for compounding a felony. The trial was postponed till next term of court.

The Erie canal will be open for navigation on Monday next—three weeks earlier than last year.

O. M. Messer has received the largest lot of Flowers of all kinds ever received in Petroleum Centre, consisting of Geraniums, Roses, English and German Vines, &c., also a large selection of vines for hanging baskets. Call and see them. It.

**Gen. Kilpatrick, at the Opera House, this evening.**

Our citizens should bear in mind that Gen. Kilpatrick lectures at Sobel's Opera House, this evening. Subject—"Battle Scenes and Incidents of the Rebellion."

The village of North East, Erie Co., has two banks in operation, and another organized.

New Castle is to have a street railway. That's why for a town of six thousand inhabitants.

The attorneys for the defence in the Mc-Bride-Wagner breach of promise case have filed an application for a new trial.

Sherry is on his way to visit the Oil Region.

**PATENTS.**—United States patents were issued last week, as follows:

To O. M. Reynolds and D. T. Kitchell, of Oil City, for gas heater.

To W. W. Dewey, of Tidioute, for attachment for oil well tubing.

Dr. Cobb, of Portland, Me., Principal of Wilton Academy, has eloped with one of his pupils, a girl of seventeen, named Dow, leaving a wife and several children. From the way the girl's father rammed down the charge in his shotgun before he started in pursuit of the runaways, it would be a bad investment for an insurance company to insure Cobb's life at any price.

Somebody says of Miss Victoria Woodhull: She has no chance of being elected President, as the old "wood-hulls" have all been superseded by iron clads.

Miss Lillian S. Edgerton lectures at the Parshall Opera House, Titusville, this evening.

The big well on Church Run is said to be yielding 200 barrels per day by competent judges, and is claimed to be the largest well in the oil region at present.

A Boston female teaching school at Forsyth, Ga., thrashed an old colored pupil eighty years old, because he couldn't get his lesson with his book bottom side up. The poor old man was humiliated, because he had grand-children in that school who looked on and applauded.

Messrs Booth & Sargent keep a full assortment of everything in the musical line of everything in the musical line and persons desiring anything in that line will do well by calling on them. a17-1w.

**BIRDS.**—The best singing and cheapest Canary Birds in the oil regions are to be had at nov7-1f. J. W. BEATTY'S.

Measures taken, and Clothing made to order, at A. ALDEN'S, Jamestown Clothing Store.

**Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.**

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonials from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. }  
Columbia Farm, Jan. 28. }

Mr. H. K. KENYON:  
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,  
G. W. BOULTON, Supt.  
J. P. BACROFT, Manager

For further particulars address H. K. KENYON, Petroleum Centre, P. O. box 547. Jan 31.
