Gold at 1 p. m., 110 1/2

Boiler incrustation has been a profitable theme for inventors to practice upon, and preventives, in the shape of complicated machinery, electricity, and various powders and liquids, have been extensively sold throughout the country. We notice that a very simple mode of preventing boiler incrustations is in general use at the Darmstadt Gas-Works. The engine has worked night and day since 1854 almost without interruption, and the formation of calcareous deposits has been entirely prevented by the use of crude pyroligneous acid, combined with tar; it is either introduced into the boiler or mixed with the feed water. Since this mixture has been in use, they have never had to use a hammer to remove scale. Each year during the summer, when less gas is required, the boiler is opened and perhaps a couple of handfuls of loose sediment taken from the bottom. The quantity employed is very small—just enough to red-dens litmus paper; consequently the iron is not attacked, as indeed is apparent from the fact that the boiler has been but twice under repair.

PERSONAL.—We notice the genial and smiling face of our friend, Rev. J. T. Oxtoby, formerly of this place, but now residing in North East, in town to-day. He looks as if the Lake Shore climate agreed with him. His visits to this place are as welcome to his old parishioners and friends as the flowers of May. He is to preach in the Presbyterian Church at Titusville, tomorrow (Sunday) forenoon and evening.

The Park Hotel and one or two dwelling houses were destroyed by fire, at Corry, yesterday morning. Loss about \$1,000.

A new rig is going up on the Button lease, Central Petroleum farm.

Mease & Armstrong are about to open a new grocery and fruit store.

The membership of the "Do Nothing Society" of this place is on the increase.

The Venango Spectator says:

A number of our most prominent oil men have organized an oil exchange. The room on Doe street, formerly occupied by Plumer's hardware store, will be used for headquarters. The Pacific and Atlantic Telegraph office is in the same room. Reports of the oil market and general news pertaining to the business will be received daily for the benefit of the members of the association.

Fisher, Norris & Co., the well known machinists of this place, continue to turn out large numbers of their solid steel jars and oil well tools. Their tools have established reputation all over the oil region and in other places.

The bills of the Great New York Circus were put up yesterday. The entertainment promises to be a first-class one.

The O. C. & A. R. R. Company continue to make needed improvements about the station in this place. They appreciate the wants of their patrons by so doing.

We are indebted to Hon. Griffith, member of Congress from this district, and Hon. McJunkin, member of the State Legislature from this county, for valuable public documents. They will please accept our thanks.

A besotted individual on his road home last evening was exceedingly happy, singing at the top of his voice "Rolling Home in the Morning, Boys." His foot slipped about that time and he fell with a crash to the ground. He did not move off to the "rolling" tune, but limped away as fast as his inebriated condition would allow him.

A correspondent of the Erie Republican has the following malicious thrust at Corry. A vigilance committee will probably wait upon him if he ever stays there over night:

"Corry we found to be—Corry. It is sui generis. A city of stumps and railroad crossings. Its productions seem mainly to be confined to tough Bologna sausages, hard boiled eggs, and almost indigestible pie, if the specimens at the restaurant near the depot are any criterion. From a number of notices posted by a Mr. Sheriff, who appears to be in the auction business, we concluded that line of trade was decidedly popular."

A man was arrested in Buffalo last week for stealing a barrel of salt. When arraigned in the court he pleaded destitution. "You couldn't eat salt," said the judge. "Oh, yes I could, with the meat I intended to steal." This reply cost him six months. The judge had no appreciation of delicate humor.

Mrs. Abby Sage Richardson has accepted an appointment to lecture in Titusville next winter.

A man, stopping his paper, wrote to the editor: "I think folks ought to spend their munny for paypur, mi dada didn't and everybody said he was the intelligentest man in the country, and had the smartest family of bolze that ever dugged taters."

A new well was struck at Ulica, six miles above Franklin, on French Creek, day before yesterday, which is said to be yielding about eight barrels per day. We did not learn the names of the owners.

A young colored girl in Rostraver township, Westmoreland county, filled a lighted lamp with carbon oil. She went "where the woodbine twineth."

Dan Rice is preparing to make his farewell tour of the oil regions.

When water is six cents a glass in Pinebe City, Colorado, and whisky four it isn't difficult to decide which liquid has the most customers.

In describing a new organ, a rural editor says: "The swell died away in a delicious suffocation, like one singing a sweet song under the bedclothes."

"Doc" Swift has recently repainted and repaired his billiard ball, in the Opera House building. It presents a fine appearance at present, and is just the place to drop in and enjoy a social game of billiards.

Over one hundred and fifty delegates were present at the recent semi annual convention of the I. O. of G. T., at Meadville. Among those present we notice the name of Miss Allie Artman, of Petroleum Centre. The next session will be held at Tidoute in June. The proceedings were marked with great unanimity, and the cause of Temperance in the various districts was reported as being in an exceedingly flourishing condition.

Doc Hollander, published in Michigan, justly remarks that: "Het blad twintig jaren lang onze bevolking goddien en zonnig gezellig alle gebeurtenis."

The weather is quite cheerless to-day.

The Fair-Crittenden affair, which is causing so much excitement on the Pacific coast, is another warning to people who will commit their love-passions to paper. Such things are bound to get out, and this San Francisco matter is by no means the last we shall ever hear of. Frail woman is proverbial, but frail man is real, and constantly stalking before us. The dead Crittenden is not the only man who has deserted his wife for common street women.

The temperance men of Newark, New Jersey, are making a determined effort to reduce the number of licensed drinking saloons in that city, and one effect of their action has been the adoption of a resolution by the Excise Board that no petition for a license will be entertained unless the residences of the freeholders signing the certificate accompanying the same were stated.

A rather rough joke was played on a lobbyist to the New Jersey Legislature last week. One of his friends prepared two paper horns, fastened them under his coat collar, and thus he paraded to and fro, to the immense delight of the spectators. He was a little inclined to be angry, however, when somebody carried the joke still further by asking him if he hadn't taken a horn too many for so early in the day.

Wisconsin is looming up now as the great iron producing State of the Union. Four ranges of hills, each twenty miles long running parallel to the Menomonee river, have been found to contain immense quantities of almost solid iron, and are estimated to contain ten times more of that metal than all the Lake Superior ranges combined.

Keep doing, always doing—remembering that wishing, dreaming, intending, murmuring, talking, sighing and repining are all idle employments.

Rev. J. T. Proctor, pastor of the Episcopal church at Corry, has received a call from the church at Oil City, and accepts it.

EAST SANDY OIL FIELD.—Canning well No. 2, on the East Sandy and Pouring Rock Oil Company's tract, commenced pumping last Wednesday, and is yielding 25 barrels per day. Bronson well, on same tract, is ready for testing. Vandergriff & Foreman also about ready for testing.

Canning well No. 4, on Montgomery Oil Company's tract, commenced pumping on last Friday, and is yielding 30 barrels per day.—Citizen.

A once reputable German poet, scholar, and philosopher, for many years the associate and friend of distinguished men both in this country and in Europe, is now serving as a porter in one of the suburban hotels near Detroit. His fondness for liquor brought him to his present condition. He ran through a fortune in about eleven years.

Whiskey is your greatest enemy. "But," says Mr. Jones, "don't the Bible say, Mr. Preacher, that we are to love our enemies?" "Oh, yes, Jones, but it don't say we are to swallow them."

H. C. Turner was hunting in the woods near Venice, Ill., when the tornado that devastated East St. Louis came upon him. A tree was blown down and fell upon him, holding him a close prisoner for three days, when he was released by a man who happened to pass that way.

50 barrels of Russet Apples at Fisher's at \$4 per barrel. ap20-1w.

Col. H. B. LOOMIS, is the General Agent for Messrs. Booth & Sargent's Music Store of Titusville, and parties desiring instruments of any kind will save 25 per cent by ordering from him. Orders left with Mr. GEO. W. HASKELL, Petroleum Centre, will be promptly attended to by Col. Loomis.

Measures taken, and Clothing made to order, at A. ALDEN'S, Jamestown Clothing Store.

#### Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The latest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. } Columbia Farm, Jan. 28. }  
MR. H. K. KENYON: Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use. Respectfully yours, G. W. BOULTON, Sup't. J. P. BARCROFT, Manager. For further particulars address H. K. KENYON, Petroleum Centre, P. O. box 547. jan31.

Messrs Booth & Sargent keep a full assortment of everything in the musical line of everything in the musical line and persons desiring anything in that line will do well by calling on them. a17-1w.
