A large number of new buildings are at present going up in this place, on the burnt district and elsewhere. We notice that Mr. H. B. Davis, the well known proprietor of the Petroleum Centre House, which was destroyed during the late fire, is about to put up a new hotel on the sire of the old one. The new building is located on the corner of Washington and Second streets, and in size will be 40x82 feet, two stories high. About half of the ground floor is to he fitted up as a store room, and will be occupied by Messis. Skimmerborn & Ten Eyck, who intend starting a large flour and feed store as soon as the room is finished.-At present the business prospects of Petroleum Centre are good, and our business men report the various branches of trade as being in a healthy condition, and have the utmost confidence that it will remain so for an Indefinite period.

Naw WELL.-For some weeks past the Maple Shade Oil Company, owners of the Hyde & Egbert farm, bave had workmen employed in sinking a new well on the lower end of their property, a short distance from this place. This well was completed on Friday last, and testing commenced on Saturday, Up to yesterday the water had been only partially exhausted, and the well was producing fifteen barrels per day. As soon as the water is thoroughly exhausted an increase of production is looked for .-Considerable importance is attached to the striking of this well, as it demonstrates the fact that oil exists in paying quantities on that farm yet, alt hough many labored under the impression that the surface water had ran in and flooded the territory.

Maj J. H. McLaughlin, of Titusville, has sgain been challenged to wreatle Mr. L. N Durrance, of Chicago, for \$1,000 a side, best tures in five, or best two in three, \$700 against \$1,000. The match to take place in Detrice or Colorgo, two weeks from sign- and wouldn't believe it was he till be show tax articus.

MARMOTH NEW YOUR CIRCUS AND MENcounts.-The agents have visited us and made arrangements to exhibit this sinpendons establishment twice the Stn. day of May-aftergoon and evening. From what we see in our exchanges we pronounce this one of the largest arenic and sensational entertainments on the road this season. -Organized expressly for the Eastern country and British Provinces it is perfect and recherche in all its appointments.

The chief outside attraction is to be grand gratuitions balloon ascension for the edification of all who wish to see it, and to those who wish to make a journey through cloud-land, a free ride and a golden opportunity. A den of wild animals, and a firstclass arenic exhibition will constitute the inside attractions, and all who visit it cannot fail to be pleased. Turn out everybody -and don't forget the date-Monday, May Sth.

A DARING ROBBERT AT PARSER'S .-There was considerable excitement at l'arker's Landing on Sunday last, says the Independent. Mr. A. M. Borland had occasion to cross the Allegheny at that place. He got into a skiff with three men, who agreed to take him over the river. After pulling into the stream the skiff was turned up the river, toward a boat lying about one third of the way across. Mr. Borland insisted on being taken directly across, but the men never answered a word, and continued to pull directly for the boat, on reaching which they got out and insisted on Borland following them. Not dreaming of their purpose, or of danger, he did so. He no sconer stepped on board than he was seized and about \$70 taken from his vest bocket. The parties then took the skiff and rowed away, leaving Borland seated on the boat. He was afterward taken off by the regular ferryman. Warrants were issued immediately and two of the parties were taken into custody. The officers were on the track of the third, with the prospect of arresting him.

By reference to the communication published elsewhere it will be seen, that the Township School Directors have awarded the contract for building the new school house in this place to our townsmen, Messrs. Wilson, Hook and others. A school house has long been needed in this place, and we incline to the belief that our citizens will rejoice even at this late day that one is to be built. From the well known reputation of the gentlemen baying the contract our citizens may rest assured that the work will be executed in a first-class manner. We shall publish the dimensions of the new school house in a day or two.

AN APPLICIED CLEUPATRA. According to the testimony of Dr. Lyford, Mrs. Fair. when she shot Crittenden, must have been in a terribly bad way. That learned authority says he found her amenic, in addition to which she had retrocedent gout, metatasis, dismensrrbæs, catamenicals and insomania! We are likewise given to under stand that she also had idiosyncrasies! Great Heavens! No wonder the poor wcman went out of her mind and broke things. It is cheerful to know that Dr. Lyford is only thirty-two; by the time he is sixty or seventy be may possibly learn to talk like a man of sense-Oakland (California) news.

An explosion of nitro-glycerine occurred at the Hoosac Tunnel, Springfield, Mass, on Saturday last, killing four men, F. S. Mason, Superintendent; William Donn, Thomas Ricraft and Robert Roberts. Wm. F. Churchill escaped with a broken read "A cut and dried apple."

Mrs Fair, of San Francisco, who is holding a murder matince in court there, lestilled that her second or third hasband, she couldn't remember exactly which, used to amuse himself by shooting at the headboard of the bed while she was in it, frightening her awfully. Of course that was unpicasant, but that was no reason why Crittenden should have had his head bored.

It is rumored that a new morning daily paper is to be started at Oil City.

Peach trees in the surrounding farm yards are in bloom.

A new well was struck on Pine Creek. near Enterprise, on Friday, which is yielding about 25 barrels per day. The lessees are J. J. McCasland, H. C. White & Co. So says the Titusville Courier.

A session of Court commences at Franklin to-day. Ru nor has it that the unticensed liquor dealers generally will be summoned to answer before the Court,

Another new hundred barrel well is reported on Church Run.

Milwaukee has got a Turkish butb. An editorthers was run through and on going home his wife bunted him out of the house, of her als relieved pass.

HERE IS AN IOWA POSTOFFICE STORY .-"Dan Lacy was postmaster, and a person asked the price of postage stamps. . Three cents, says Dan, blondly. But could you not let me have them cheaper if I took four or five of them?' queries the customer. 'We cannot now,' replied the accommodating Dan; 'we could have done so until lately, but now the government punches hole around each stamp for the convenience o the people, which so increases the cost that we cannot afford to make any discount. The satisfied customer cheerfully paid three cents."

Ruffians in Chicago have pecular tastes. A party of them last week went to the deadhouse of the County Hospital and stole the body of a young girl which had been placed there. This they took to a saloon, threw it in at the back door, and then ran away. It is hard to imagine any human being so utterly degraded that to bis besetted faculties a barbarous deed like this seems like a rare jest; but with the ability to rise, man has a corresponding power of sinking himself. -He may be a little lower than the angels; he may also be a good deal lower than even such brutes as the jackat and hyena. The race is like Jeremiah's figs-the good good enough, and the bad bad in-

SERIOUS ACCIDENT. -On Friday last, a boiler maker whose name we did not learn. from Titusville, was sent to repair one of Capt. Woif's large boilers on the Clark Farm He got into the boiler, with a derrick lamp; unfortunately the boiler was full of gas. which had got in at the "man hole," and coming in contact with the lamp, produced a loud explosion. The force of the explosion flattened the lamp, the derrick roof was blown off, and the man badly burned --East Brady Independent.

PETROLEUM CENTRE, April 24th, '71. EDITOR RECOKD :-- Please announce that the contract for building the new School House in this place has been awarded to Geo. W. Wilson, Bernard Hook, H Millerschamp, and D. Raymond, jointly, for the sum of Forty-nine hundred dollars, (\$4. 900 00), to be completed on or before Oct. 1st. 1871.

I. S. Gibson, Sec'v.

A Wyoming paper gives a cheerful paragraph concerning a half breed, who is to be hanged at Cheyenne to-day. It says he is quite an artist, and further, that he has made a creditable portrait of himself, suspended from the gallows, the court room. the judge was pronounced the sentence and the jury who found bim guilty, of murder. In his picture he gives the lady members of the jury a borrid appearance."

The Seneca Base Bail Cinb of Oil City, have perfected an organization for the season by electing the following officers: President, Wm. Hasson; Secretary, E. A. Kelly; Tressurer, Isane Ash; Directors, C. W. Owston, Frank Tack and A. E. Hutch-

"Do write, and fear not," is what the girls say to their correspondents.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Weils.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the vell are in a great measure cleared of para fine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascert ined by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operatore that this improvement is of great rathe, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yer to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having tranght that it is the long continued such that it is the long continued s tianght that it is the long continued suc-tion that has the power to keep up and in-crease the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the madagers of the Columbia Farm:
OFFICE COLUMBIA OIL CO.

Columbia Farm, Jan. 28. MR. H. K. KENYON:

Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,
G. W. BOULTON, Sup't.
