The Titusvillians are agitating the question of building water works, and a company has been formed for that purpose.

It is understood that the passenger trains on the Union and Titusville railroad will begin their regular trips on the 1st of May.

A man named John Farrell, who has been ill with consumption for some time past, expired yesterday afternoon.

Obituary.—It is with feelings of sorrow we are called upon to announce the death of our townsman, Mr. Henry S. Phinney, which occurred at his residence in Wild Cat Hollow, at fifteen minutes before 5 o'clock yesterday afternoon, after an illness of two weeks.

His life was gentle, And the elements so mixed in him That Nature might stand forth And say to all the world, 'this was a man.'

At the time of his death Mr. Phinney was aged 37 years. He leaves a wife and four children to mourn his loss.

Funeral services were held at the house at 2 p. m., this afternoon, and the remains will be taken to New York City on the 3:38 train, it being deceased's last request to be buried in Greenwood Cemetery.

The following dispatch was received from Mr. Lynford Lardner, Secretary of the Commercial Club of Titusville, of which Mr. Phinney was a member:

Titusville, Pa., April 28. Mr. S. A. Woods:—When will Mr. H. S. Phinney's funeral take place. As many members as possible will be down to show the last mark of respect to the memory of the first member we have lost, and one whom all respected and honored.

Dispatches from Aspinwall report that a wonderful discovery has been made of coal mines and oil wells, thirty miles from Aspinwall.

The Petroleum Centre limp is the latest fashion among gentlemen.—Corry Republicans.

Quite a number of the representatives of Corry have recently 'limped' out of town after spending all their wherewithal for 'benzine,' and did not even have the consolation of 'bacon' to help them along.

Wednesday was the anniversary of the surrender of Gen. Joe Johnson and the end of the rebellion.

Mr. Daniel Marshall, of Pittsburgh, was robbed at the Oil City depot, on Thursday afternoon last by a pickpocket.

A little daughter of J. B. Jones, of Reno, was burned to death on Monday last, by its clothes catching fire from a fire which the other children had built in the field, of dry grass and weeds.

The Oil City Register learns that a first-class morning daily paper is soon to be established at Titusville. A poor investment if such is the case.

The Seneca base ball club of Oil City has been reorganized for the coming season.

A New Town.—The Neely and Munsinger farms, two miles from this city, and opposite Two Mile Run, are being laid out as a town under the name of 'Prentice.'

The Venango Citizen pitches into the Titusville Courier in regard to statements relating to the McBridge-Wagner divorce case made in the latter named paper of which the following is a specimen:

'The contest became a general one, in which the residents of Oil City represented warmly the interests of the defendant, while Franklin with great gallantry rushed hotly to the support of their abused teacher. We had hoped that with the verdict of the jury the case would be ended. But not so. The war between these two embryo cities still continues, with but little promise of abatement. It is scarcely safe for a Frankinite to be seen in Oil City, or the reverse. Both are tenacious of the rights of their representatives in this suit, and display much feeling, if not much good sense.'

The Citizen waxed warm on the subject and strongly defends the Frankinites against the imputation. The story is about on a par with the 'Sodom and Gomorrah smoky shanty' slander published in that sheet in regard to Petroleum Centre.—Right is right, and will prevail in the long run.

At White Pigeon, Ind., lived a man named John Cook, who had a wife who would lay abed mornings the worst way. The other morning John called his wife and told her the birds were singing praises, and asked her would she get up, but she 'passed.' She said she would see him in Congress first. This so aggravated John that he seized a two-bladed revolver and blew his brains out all over a seven dollar counterpane which she was under. She rolled over and looked at the quality of the brains, sighed at the amount of soap it would take to wash the counterpane, and went to sleep again. John says she beats all the women for rest he ever saw.

The Mayor of Allegheny will spend the dog days at Long Branch with Dunkirk Winans.—Herald.

The Mayor is of the same political faith as the Herald men, and is not in love with the idea of being classed with a man that sold himself and principles for the 'filthy lucre.'

The 'Devil' of a newspaper in Vallejo, Cal., recently stepped into a dry goods store to negotiate for a cap. Not having the pecuniary consideration about his clothes, he told the trader to charge it to him. Trader entered the account upon his books to Satan, and the other day when the bill was presented (which read 'Satan, Dr., to O. P. Van Schueck, for one cap, \$1.00') 'Dev.' remarked: 'You charged it to Satan, did you? Well just go to hell and collect it.'

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The oldest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL Co. Columbia Farm, Jan. 28. Mr. H. K. KENYON: Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours, G. W. BURLTON, Supt. J. P. BARCROFT, Manager For further particulars address H. K. KENYON, Petroleum Centre. P. O. box 547. jan31.
