No. 6—Direct to Pittsburgh without change.
Monday, Nov. 28, 1870.

Gold at 1 p. m., 110 1/2

In the case of the Commonwealth vs. James Melville, charged with shooting a man named Clark, with intent to kill, the prisoner was found guilty. The shooting it will be remembered occurred in this place, immediately after the late fire, in the billiard room under Akin's Hall. The case occupied the court at Franklin day before yesterday.

In the case of the negro Thomas charged with committing a rape on the person of a little girl two and a half years old, the jury brought in a verdict of guilty in manner and form as indicted. This case occurred at Oil City, and the details are too disgusting and horrible for publication. The brute will probably receive his just deserts in the form of a ten years residence at Allegheny.

The Roberts Petroleum Torpedo Co. who were found guilty of maintaining a nuisance in the shape of a nitro-glycerine factory, have filed an application for a new trial.

Considerable complaint exists among the citizens of Boyd farm at the danger arising from certain parties indulging in firing guns for practice. Men at work on the wells on the opposite side of Oil Creek, have been startled several times recently at the close proximity of rifle balls whistling past their ears. The parties are known, and should desist from this dangerous practice. Unless they do the law will be appealed to to decide the matter.

The weather to-day is exceedingly gloomy. Rain, rain, rain. However, "April showers bring May flowers."

Mrs. Fair, the murderer of Crittenden, at San Francisco, will be sentenced May 29th.

The town is billed for Sherry's New York Theatre.

A large number of our citizens were in attendance at the Opera in Titusville, last evening. It was a grand affair.

The Mule that stood on a Steamboat Deck.
NOT BY HRET HARTE.

The mule stood on the steamboat deck.
The land he would not tread;
They pulled the halter round his neck,
And cracked him o'er the head.

Yet firm and steadfast there he stood,
As though formed for to rule;
A critter of heroic blood,
Was that there cussed mule.

They cursed and swore—he would not go,
Until he felt inclined;
And though they showered blow on blow,
He wouldn't change his mind.

The deck hands to the shore then cried,
"This mule's bound for to stay,"
And still upon the critter's hide
They lammed and lammed away.

His master from the shore replied—
"The boat's about to sail,
And every other means you've tried,
Suppose you twist his tail!"

"It's likely that will make him land,"
The deck man brave though pale
Approached him with outstretched hand,
To twist that there mule's tail.

Then came a sudden kick behind!
The man—oh! where was he?
Ask of the softly blowing wind,
The fishes in the sea!

For a moment there was not a sound
As that mule winked his eye,
As though to ask of those around,
"Now how is that for high?"

"Cut that there mule's throat right away,"
The captain did command
But the noblest critter killed that day
Was the fearless, deck hand.

Oil City is rapidly becoming the paradise of the oil region for sneak thieves, pick-pockets, &c. Yesterday afternoon, while leaving the cars at that place, our townsman Mr. Jas. S. McCray, had a diamond breast pin valued at \$500 abstracted from his shirt bosom, by one of the light-fingered gentry. The thief escaped with his plunder.

Day before yesterday, Mr. Williams, who lives on the Wood Farm, near Petroleum Centre, had his pocket picked at the depot in that place, losing his portmonie containing \$10 and valuable papers. The thieves escaped.

Mr. Henry Fisher of Tidouite, lost his pocket-book containing \$175 in greenbacks; one \$50 5-20 bond with all the coupons attached; a diamond pin valued at \$150, and other papers, through the same agency.—His property was partially recovered.

We hear of several other parties being robbed. The authorities of that city should use stringent means to bring to justice the scoundrels who infest the place at present.

Rockwell & Custer's patent Scrubbing Brush is meeting with immense success, going off like hot cakes. It is by far the best improvement of the kind ever invented.—So great has been the demand that they have been unable to manufacture them fast enough to supply their patrons. When used the brush leaves a floor as clean and bright as a new penny. Housekeepers will save time, labor and money, by using this brush.

A large delegation of prominent citizens of Titusville were in attendance at the funeral services of Henry S. Pinny, yesterday afternoon. Rev. Henry Purdon, of Titusville, officiated.

LECTURE.—On Tuesday evening next, Mrs. Sara B. Chase, M. D., will deliver a lecture in the M. E. Church, on Physical Culture and Matters Generally Pertaining to Health. The lecture will be free. It is the intention of Mrs. Chase to organize a class in this place, and give a series of lectures. This lady comes highly recommended, and our citizens should extend to her a liberal patronage.

The passenger trains on the O. C. & A. R. R. now run on the opposite side of the creek after they leave Rouseville, thereby avoiding the dangerous passage by the old route between Rouseville and Oil City. The station at McCintockville is removed to the opposite side of the creek, the old platform having been removed to the new track.

Extensive preparations are being made by the colored citizens of Meadsville, for the celebration of the adoption of the Fifteenth Amendment, to take place on the 19th of May.

Union Mills is no longer Union Mills. It is hereafter to be known as Union City, the Postmaster General having changed the name of the Post Office to that metropolitan cognomen.

There is trouble in regard to the right of possession of the Conner farm, near Rouseville. The matter will end in a lawsuit.

Nilsson sang at Richmond, Va., a few nights since, and her manager had heard that a certain editor there was the most accomplished musical critic in the known world. It was reported that no one knew more about music in all its branches than that editor, so he was furnished with two private boxes. The next day the whole troupe bought copies of his paper. Before daylight the whole edition had been bought up, to find the notice of the concert. Turning to the amusement column, the following greeted them; "Nilsson's dress was tight about the hips." Strakosch has bought a double-barreled carving-knife.

A Poughkeepsie farmer wrote to Mr. Greeley to find out if the cotton-wood tree could be grown in this climate. Horace said he had planted, two years in succession, half an acre of cotton-battings but he hadn't raised timber enough to build a hen orchard. He thinks it can't be grown unless it wants to grow itself.

An Indiana schoolmaster lifted a boy by the ear. That reminded the boy of something he had in his pocket. It was a knife, which, being of no use in his pocket, he stuck it into the schoolmaster's left side. The schoolmaster's heart was so much affected by this cutting reminder that he at once gave ear to that boy, and has never lifted a y little boys since.

Servant girls in Wyoming command \$7 a week and the suffrage.

Under the Congress of the old thirteen Confederate colonies, in 1775, the Postoffice Department consisted of a Postmaster General and a deputy, who had the superintendence of fifty postoffices and a few hundred mile of post routes. The United States Postoffice Department now embraces nine distinct bureaus, employs three hundred clerks, and directs the workings of more than 13,000 mail routes, extending over 224,000 miles. In addition, an Auditor of the Treasury with nine chiefs of division and one hundred and fifty clerks inspect and settle the accounts of 7,300 mail contractors and 20,000 post-masters.

There have been several schemes for opening a canal between the Mississippi and Lake Ponchartraine, thus shortening the passage to Mobile and the ocean. The Bonne Carre crevasse, above New Orleans, has done the work in a few hours which has been talked over ineffectually for months.

A white pelican of large size and singular form, was shot near Springfield, Ohio, last week. Its beak was enormous, being over twelve inches long, and to its lower edge was attached a pouch capable of containing several quarts of water. It is a web-footed water fowl, and has its home almost exclusively in the warm climate along the lakes. Its plumage was rich and of the most glossy white. On the tips of the wings were a few dark feathers, and the tail was spotted with some of the same color.

In the Superior Court, at Litchfield, yesterday, the jury in the case of Joel Perkins, charged with murder and incest, brought in a verdict of guilty of murder in the second degree, which sends him to State prison for life.

A few iron nails placed in a vase with flowers will keep the water sweet and the flowers fresh. This arises from the sulphur eliminated from the plants combined with the iron.

The machine shop of Mr. Jas. Smith has been removed from Plumer to Franklin.

A man, name unknown attempted to jump off the train running between Parkers and Franklin, on the Allegheny Valley Railroad, day before yesterday, but fell between the cars and was killed.

The Executive Committee of the Y. M. C. A., of Pennsylvania, will meet in Erie, May 4th and 5th.

The new bogus five cent nickels, of which there are a large number in circulation, can be detected by an inspection of the motto "In God we Trust," which is much larger on the counterfeit than on the genuine. The yellow color of the counterfeit, caused by the presence of zinc, is also easily noticeable.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.
Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Gen. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. }
Columbia Farm, Jan. 28. }
Mr. H. K. KENYON:
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.
Respectfully yours,
G. W. BOULTON, Sup't.
J. P. BARCROFT, Manager

For further particulars address H. K. KENYON, Petroleum Centre. P. O. box 547. jan31.

Messrs Booth & Sargent keep a full assortment of everything in the musical line of everything in the musical line and persons desiring anything in that line will do well by calling on them. all-1w.
