Base Ball, has "broken out" this spring with unprecedented vigor. This may be the recursor of its early decline, or it may be that this national game is really to become a permanent institution. The danger is that the game will become a professional one merely. If it could maintain its ama feur condition it would be worthy cultivation, as is any other athletic sport. But let base ball puss into the bands of professionale, and it will raise up a class of picked aloes who will be made instruments in the these travelling frauds. The foolish s of gamblers, and will turn the sport into a regular systematic means of winning money, and, of course, will be attended with all the tricks of the black-leg trade.-Strong symptoms of black-legging are already apparent. We see crack clubs allowi g themselves to be white-washed, not because they are unable to count, but in order to lower their own reputation as players, that advantageous bets may be secured a some future time.

FIRE AT STORY FARM. -Alexander Scho field & Co's refinery, at the Columbia farm, caught fire this forencon and is still burn ing. About 300 barrels of oil were burned. which with the damage to the machinery, will make the total loss nearly \$3,000. The fire was occasioned by one of the employees mistaking the oil plug for the water plug and opening it allowing the oil to run on fire communicating from the furnace. This is the fourth or fith time these works baye been destroyed by fire.

The loud report which startled our citizens this afternoon, was occasioned by the explosion of some empty nitro-glycerine cans, on the Woods farm.

Lon. Youcher's advertising dodge to-day is the best thing of the season. Everybody has got tlakets for the circus at his saloon. and all want to try the quality of the lugar

RULOFF'S EXECUTION.

HUNG AT ELEVEN O'CLOCK AND THIRTY-SEVEN MINUTES.

Ruloff spent his last night upon earth in reading and writing until about one o'clock when he went to sleep. He slept about half the time until six o'clock. The balance of the time being occupied as has been much of his time in jail, in writing. Dar ing the night he wrote a letter to his broth er, he having given up all hopes of his brother's arrival in Binghampton before his death. At 11:37 the fatal signal was given; with the giving of the signal the iron weight in the bar went down and the body of Edward H. Ruloff in the jail yard went up. There was a rushing, rattling noise and suddenly a stout vigorous man was changed to a dangling heap of clothes .-With the falling of the weight Ruloff was jerked clear from the ground about two feet. That upward movement and the downward one which immediately followed it put an end to the life of Edward H. Ruloff, the greatest criminal of his day, and instead of confessing in the presence of his fellow men he went rashing into the presence of his God, murdered wife and child and his many other victims.

Of his going hence we can speak; of his reception there no tongue can tell.

After being brought into the court yard and the nouse adjusted, the death warran was read by Deputy Sheriff Osborn. Sher. iff Martin then said: "I am about to exeoute the sentence of the court; have you anything to say to the audience ?"

Ruloff answered-"Nothing, sir."

Sheriff Martin then said: "It is about wenty-six minutes sooner than I designed to have the execution take place; have you anything to say?"

Ruloff said-"Nothing."

Eberiff Martin then said: If it is not cour wish to say anything I will proceed.' Ruloff repeated -- "Nothing."

The white cap was then placed over his head, he being attended on each side by a Deputy Sheriff.

Some little delay occurring, he said as his last words-"I can't stand still."

After the drop fell be breathed convulsively for one minute; his right hand was jerked out of his pocket by the ascension and with great difficulty he put it back.

While hanging Drs. Chittenden and Burr were called as physicians.

At twenty minutes after drop fe!l he was pronounced dead. At 23 minutes he was lowered so that his feet nearly touched the ground and at 35 minutes he was lowered into bis coffin, a new, neat cherry one .-The body was then placed in the jull where it will remain till Friday, when it will be buried in the old cemetery by the aberiff unless his brother or friends come to claim it. The crowd in the city is immense.

It is said that the individual who goes up in a balloon," in connection with the New York Circus, was killed at some point in Oblo by falling from the car of the bal. loon when some distance up in the air.

Sheldenburger's menagerie, in all its gorgeous splendifferousness, arrived in town this forenoon, to the great, delight of the little ones. The street parade was good.

A new well back of Cherrytree village is nearly completed. The show for oil is said to be excellent.

The usual number of quacks, prize package venders, and travelling humbugs, that follow in the wake of circuses, are in town to-day. They who are wise will avoid purchase and get sold.

Our country cousins are all in town to. day, anxious to see the wonderful rhinoce ros, and dispensing shelr spare cash for pea nuts, molasses cakes, &c.

We learn from the Warren Ledger that Archie Little, formerly a conductor on the O. C. & A. R. R. held a birth-day reception on Monday evening, 8th last. A giorious time was bad by host and guests, the latter passing resolutions of great respect to the former. Archie is a popular man, and has hosts of friends who like to see his name

Tuesday morning, Bishop Kerfoot per formed the ceremonies of laying the corner-stone of a new chapel for St. Jomes' Episcopalian Mission School, to be known as Ascension chapel. The ceremonies were very interacting.

Ice Cream is to good demand there warm days. Beatty at the lower end of the street, and Thompson at the upper end, keep the market well supplied. Give them a cuil.

Of the Meadville oil well the Republican

The oil well is now running by gas with enough left to run all the engines in the city, so say the knowing ones. It is new

Livingstone, the African traveller, describes an ingenious method by which the Africans obtain water in the desert: The women tie a bunch of grass to a reed about two feet long, and insert it in a bole dug as deep as the arms will reach, then ram down the wet sand around it. Applying the mouth to the free end of the reed, they form a vacuum in the grass beceath, in which the water collects, and in a short time rises to the mouth. It will be perceived that this simple, but truly philosophical and effectual method might have been applied in many cases in different countries, where water was greatly needed to the saving of life. It seems wonderful that it should have been now first known to the world, and that it should have been habitually practiced in Africa probably for centuries. It seems worthy of being particularly noticed, that it may no longer be neglected from ignorance. It may be nighly important to travelers in our deserts and prairies, in some parts of which water it known to exist below the surface.

TIMELY DISCOVERY-A DOG IMPRISON-D WITHOUT FOOD FOR NINE DAYS .-About two weeks ago, a man drove a herd of cattle through the village of Plumer .-He had occasion to visit the Plumer House, to look at some harness. While inspecting the harness, accompanied by Mr. Washingtan Alden, the proprietor. his dog entered the room unobserved, and when they left, the door was locked, and the dog unwittingly imprisoned. Mr. Al. den, a few days ago, observed that the window sill had been considerably gnawed on the inside. He entered the room, and there found, to his astonishment, the missing dog, which had been without food or water for nine days. The poor animal was a pesfect skeleton, and of course, very weak. The greatest attention and kind. ness were bestowed upon bim, and he is now in a way of recovery. The delight and gratitude of the animal upon being released, knew no bounds. - Titusville Herald.

The facts of the above case are true in every respect. We may add that the dog has been returned to its master by Mr. Al-

The Lost City of Boston.

The Boston Advertiser of Tuesday says: "The following is a copy of a paper picked up on the shore at Shediac, on the southeast coast of New Brunswick, and telegraphed to this city yesterday:

"March 21, 1871 .- City of Boston .-Ship sinking; over half full now. Good-bye all. Look after my boy. (Signed) "Thomp-

"Be gone in two hours."

The original paper is in the hands of a Catholic priest at Shedisc, who sent the above dispatch to his brother, a member of the bar in this city. A copy was also sent to the agent of the Inman line. The name signed to the paper appeared in the list of passengers by the City of Boston. This ill-fated steamship, it will be remembered. sailed from Halifax in March, 1870, and was never heard from afterward.

A salmon weighing ten pounds was speared in Tionesta Creek a day or two

The Republican State Convention held at Harrisburg yesterday nominated Col. David Stanton, of Beaver, for Auditor General; R. B. Beath, of Schuylkill, for Surveyor Generia, both on the first ballot.

A severe thunder shower passed over Mrs. Frazier was struck by lightning and instantly killed Her husband who was standing by at the time was also severely shocked but will recover.

A Dramatic Association has been formed

Henri Drayton, who created such a fine impression on our musical critics when here with the Richings English Opera Company was stricken with paralysis in

Tom Allen, the pugilist, publishes a card denying that he has challengep Joe Coburn to fight him for five thousand, and Buldwin for one thousand dollars, as reported from

- Four incendiary fires occurred in Corry on Monday night. Some one is evidently bound to burn that fown down.

The Commercial Club of Titusville have issued invitations for a reception to take place May 25t b.

A dispatch from Trunkeyville says: The Davis well, on the Hickory Town island, is pomping thirty barrels per day, with twenty-nine feet of third sand rock.

Subscriptions for a bridge across the river at Warren have reached the neighborhood brewed at "The Little Brewery Around the down about 580 feet, and the indications the first time, that a bridge will soon be erected
