THE OIL MARKETS.

OFFICE OF
PETROLEUM - CENTER DAILY RECORD May 30 1871.

The market continues firm, with little or no change in prices. Sales of 1,000 bbls in amail lots at \$5.10. We quote at \$5.10a Soda Water. 5.15 to \$5.25. This being a holiday we are without outside markets.

The 'Diamond Drill," a new invention, s attracting considerable attention. It is intended for drilling in mines and quarries, and for general blasting purposes on railroads, canals, etc. The first application of diamonds to practical rock drilling was made in 1863, by a civil engineer of Paris, and was first tried during the construction of the Mont Cenis tunnel, where it perfora'ed granite, quartz, and the very bard calcerous dolomite with great case. The "bit" or boring head is a bollow steel thimble about four inches in length, having three At Lower Figures Than any Other House in the rows of diamonds, in their natural rough state, firmly imbedded therein, so that the edges of those in ore row project from its face, while the edges of those in the other two rows project from the outer and inner peripheries respectively. The diamonds of the first mentioned row cut the path of the drill in its forward progress, while those upon the outer and inner periphery of the tool enlarge the cavity around the same, and admit the free ingress and egress of water, which is forcibly ejected into the hole, through the interior of the drill, by which the stone is both moistened and softened, and the borings carried away as fast as produced. The greatest depth that has 1st Mortgage Land Grant Gold Bonds been drilled with the machine was seven hundred and fifty feet, though it is claimed Northern Pacific R. R. Co. that it will drill to a depth of one thousand These bonds are secured, first, by a First Mottgate on the Rahrond itself, its roding stock, and all equipments; second, by a First Mottgage on lisentire Land Grant, being more than Twenty Two Thomsand Acres of Land to each mile of doad.

The Bonds are free from United States Tax; the Frincipal and Insert see payable in icold—the Frincipal and Insert see anyable in cold—the Frincipal and Insert see the Frincipal and Insert see the Frincipal and Insert see the Frincipal at the end of Thirty years, and the Inserts Semi-annually, at the rate of SEVEN AND THIREE-TENTHS PER CENT, per Junion. They are issued in denominations of \$100, \$500, \$1000, \$5,000 and \$10,000.

The Trustees under the Morigage are Messrs Jay Cooks, of Philad liphia, and J. Edgar Thompson, Fresident of the Fennsylvania Central Rahrond Company. feet as easily as ten. At a recent test in Detroit the quickest drilling was through a stone a loot in thickness in two and a half minutes. The cost of the machine is about \$3,000, that of the "drill" or "bil" being merely nominat.

An Arkaneas paper gives the outlines of tragedy thus: A few wears ago a minister in Sebastian county, Atkansas, was compelled publicly to rebuke a man for miscon-Cooke, of Philed siphia, and J. Reger Thompson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Fonds will at all times before maturity, he receivable AT TEN PER CENT, PREMIUM (or 1, 0), in exchange for the Company's lands at their lowest cash price.

In addition to their absolute safety, these Bends yield an income larger, we believe, than any other first-class security. Persons holding United States 5-20's can, by converting them into Northern Pacifics, increase their yearly income one chird, and still have a perfectly reliable investment.

HOW TO GET THEM—Your nearest Bank or Banker will supply these Bonds is any desired amount, and of any need deformination. Persons wishing to exchange stocks or other 'ends for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKET.

ABLE SECURIT ES.

Those living in localities remote from Banks, may send money, or other books directly to us by express, and we will send back Northern Pacific Bonds at our own risk and without cost to the travestor. For further information, pamphi is, maps, etc., call on or address the undersigned, or any of the Banke or Bankers employed to soil this loan.

James T. Bradt & Co. Hart, Caughtey & Co., May sonic Savings Bank, Western Savings Bank, S. McLean & Co., Bankers, General Agents, Pittsburgh, 7s. duct in church. The young man soon after went to Texas, where he remained until a few weeks ago, when he returned to Sebasthe minister engaged in preaching. After the minister came down from the pulpit, the man stepped up to him and inquired if he was the same one who had rebuked him on the former occasion. On receiving an affirm stive answer, he drew a derringer and shot the minister in two places, killing bim in-

He who toys with time trifles with a frozen serpent, which afterwards turns upon the hand that indulged the sport, and inflicts a deadly wound.

Mr. Frank West, agent of the Broadway Minstrel Combination, from the Globe Theatre, 728 Broadway, paid us a visit to-day, add informs us that this excellent company will give one of their recherobe entertainments at the Opera House on Tuceday

A little daughter of Mr. James Silverthorn, of Conneaut township, Erie county, about nine years of age, was lately drowned in Conneaut Creek. Her father was at work near the creek, and the little girl, while playing, it is supposed, slipped off the bank. She was not missed for a few minthe market.

It will wish out oil, paint, coach or machine groase, or anything that can be removed, without the least injury to garments. And it is excellent for the skin, having a healing effect on the skin. For washing prints, sliks, laces, flannels, blankets, and woolens generally, and for cleaning floors, carpets, sliver or plated ware, painted or other work, there is nothing equal to it. And to consumers it is the cheapest 80AP manufactured.

By using it, you get rid of the aunoyance of hot water in summer, and of steam in the house (ao productive of colds) in winter.
