#### Noteworthy Facts.

We learn from some statistics before n that the first census of Chicago, in 1837, gave her 4,170 inhabitants. In 1850, she had 29,968; 1860, 110,973; and in 1870, 299,370. Only New York, Brooklyn, Philadelphia and St. Louis, bad more. More than thirty distinct lines of railway entered there, with nearly (we bundred trains : passing over them daily It has long been the greatest interior grain market of the nation and has surpassed the famous ports of the Black Sea and of Egypt in this respect. It was our greatest lumber, beef, pork-packing and whiskey market. The original grade, of the city was found too low, and, though at an immense outlay, whole squares, covered with brick blocks, were raised from three to seven feet. The supply of water was inadequate and poor, therefore, a tunnel was run out two miles under the lake to secure an abundance of good water. Another great tunnel was dug under the river to accommodate carriages. These are only a few of many facts we might present showing the growth and enterprise of an interior city, standing on what was virtually a weste less than forty years ago. In view of them, the most incredulous cannot doubt that the recovery will be rapid from the late tremendous blow.

Yesterday a some occurred on Washing ton street, which clearly vindice tion of woman's rights, and proves man to be exceedingly "small potatoes," especially in this case. A married lady residing in the neighborhood of Pioneer, whose uame we withhold as she is a lady of respectability and highly cultured, bas a husband who is only the small fraction of a man in nearly every respect. Yesterday the individual in question got drunk, came to Petroleum Contre and fell in with a dark-skinned maiden -an Africas eleter of American parentage and to his shame became exceedingly confidential with the aforesaid sister. The abus ed wife heard of it and came down from Pioneer, yesterday afternoon, caugut ber lord to company with the "wench," collared him and dragged him up to Justice Reynolds office, where the matter was subsequently entitled up between the parties. Public opinion was with the abused wife, and threats of a coat of tar and feathers and a free ride on a rail were expressed by the byatenders. It was fortunate for him that he "lit ont" as soon as possible after being release i, as he probably would have received his just deserts had be not done so.

A contemporary suggests that there should he added to the faculty of some of our American colleges, a professorship of "commot-

Last week two "blow-ups" took place at Tidloute, one on the New York and Allegheny tract, where the engineer was considerably burt on the side of the bead, and the boiler shattered to atoms; the other on the Tidioute & Warren tract. In the latter case the engineer escaped unburt, and but little damage was done to the boiler, only the cylinder-head being blown ont, the flues, &c All that saved the utter demolition of the whole concern was the ignorance of the engineer. When he saw that something was wi-ng, the first effort of his was to try to run water into the red bot boiler, but did not know how to do it. This engineer was engaged the e vening previous, on his own recommendation. His ignorance caused a partial excepsion, but saved a total werek. He was discharged after the accident, by Captain Robert Taggart, Superintendent. Strange that men will trifle with their own lives, and lives of others, in such a manner. There should be some way of testing the capacity of imminent engineers in the oil regions, before putting instraments of death in their hauds. - Erie Dispatch.

PERSONAL -Mr. Frank K. Nicholson proprietor of the P. O Newscoom, returned home to-day, after an absence of two week during which time be has been in Baltimore rusticating. During his absence he has com. bined business with pleasure, and laid in a new stock of goods, due notice of which will be given. Frank is looking well-just as if the trip agreed with him.

A fire at Emlenton, yesterday, destroyed \$15,000 worth of property, including Mor. an's hotel, bardware and dry goods store, Krease's livery stable, Babat's drug store, and several dwelling houses.

SOCIAL PARTY AT PLUMER .- On Thurs day evening, Nov. 2d, mine boat Clark, the popular landlord of the Spencer House, at Plumer, is to give a grand social bop in Prather's Hall. Clark always did have the reputation of getting up a nice social party, and those who take delight in "tripping the light fantastic foe," can rest assured this party will not be one whit behind those al ready given by him.

Our townsman, Mr. J. W. Beatty, bas in vented a new toy for children which is de cidedly novel and cannot fall of affording great amusement to the little ones. The toy consists of a miniature derrick, buil wheel, sampson post, engine house, and rig complete. Inside the engine house is placed a species of clock-work, which, when would up starts the pitman crank and walking beam in motion, and it has all the appearance of a drilling well. Inside the derrick a miniature man "drills away" as if intent on striking a bundred barre i well. Mr. B. has filed a caveat in the patent office at Washington and intends eventually taking out a patent.

The attention of pleasure-lovers is calle. to the advertisement of the Wallace Sister Comedy Troupe, who are to give three en tertaluments at Sobel's Opera House, com mencing October 30ts. It is well known hereaboute that Manager Dobson always has a first-class company, which is a sufficient guarantee of crowded bouses. Misson Jeft nie, Minnie and Maud will appear in new aprelaities, and the entire company in new burlesques, songs, dances, &c.

AUTUMN .- The sere and yellow leaf tells of the visits of boary frosts and chilling autumual winds. Soon the trees will be strip. ped of their foliage, as leaf by leaf it falls to the ground. But then there are the ripened and gathered crops of the field and the fruits of the orchard in barn and cellar, to make the winter fireside cheery with comfort and pleaty. Our people have been blessed with a year of abundance, and may all be happy in the enjoyment thereof. And in the enjoyment of such pleasure let us remember the poor, who have not much to be thankful for, and give liberally in their aid.

Road commissioner Hixon requests us to state that he has no control over the piece of road between this place and Kane City, mention of which we made a day or two since as being in a dispidated condition. He says the road alluded to is a private en terprise, and therefore be has no authority to make the necessary repairs, or use the public funds for that purpose. Se we sup pose the Kane City people will have to continue their profanity or else repair the road at their own expense.

The Emaucipation Proclamation. [From the Picayone ] A lady was reading to ber servants an ac

count of the Chicago fire. The incident of the burning of the emancipation proclamstion, which cost that city \$25,000 for its Historical Society, arrested the attention of old colored woman, a slave all her life, who viewed the proclamation much as the Israelites did the ark of the covenant.

"What dat," she said, "burned up?"

"Yes, aunty, burned up." "Den what gwine come of us again?"

"I don't know; may be you'll be slaves as before."

"Den die chile gwine to die right now." And throwing up her bands in dismay, she left the presence of mistress, visiting dire imprecations on the head of the man "what sot out dat fire."

It is melacholy to reflee that while Governer Baldwin, of Michigan, was writing his proclamation asking the people of his State to respond to the call for relief of the sufferers in Chicago, a vast portion of his own State was being devasted by the fire furies; whole villages were destroyed many lives lost, and bundreds rendered shelterless. -The borrors of some of the scenes in Michigan almost rival in intensity those that have been described as having occurred in Chicago.
