The proof is offered to sufferers against imposition is a legally signed contract which will be forwarded without charge to any sufferer sending by letter a description of affliction; this guarantee will state the exact number of bottles warranted to cure, and in case of failure the money paid will be returned to the patient. ROBERTS' PETROLEUM TORPEDO CO. TORPEDOES. THE ROBERTS' PETROLEUM TORPEDO CO. Office at the RED PLANING MILL, Cor. of Pine and Second Streets, (Near the Railroad), TITUSVILLE, PA.

Owing to the large and increasing demand for the Roberts' Torpedoes and the late decision of the Commissioner of Patents in referring to Wm. H. Reed a patent, and the decision of Judge U. C. Grier sustaining the Roberts' patent they have LOWERED the price of their Torpedoes. FIFTY PER CENT. so that every Operator can afford to try a Torpedo before abandoning a Well. The following is the decision rendered by Judge Grier on the 22nd day of September, 1870, in the United States Circuit Court at Philadelphia. The case was argued three days by Charles H. Keller of New York, B. F. Lucas and S. A. Furvise of Pittsburgh, for defendants, and George H. Hanning of Philadelphia, and George H. Christy of Pittsburgh, for plaintiff.

OPINION OF JUDGE GRIER. As I write with difficulty I can only state the conclusions to which my mind has come after a careful examination of this case. The complainant has exhibited a patent dated 25th of April, 1868. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless. I have not reported any remarks in the case of Good year vs. Day (2 Wall. C. C. Rep. 232), but now adopt them as affording a rule of decision which applies clearly to the present case. As the infringement of the patent is admitted, the only question will be as to the validity of the complainant's patent of April 25, 1868. It was after speculation had been reduced to practice, and after repeated experiments, that the complainant succeeded in constructing the torpedo and igniting the people on the subject, and persuading the public that his invention was a well-acted one. He had established his great utility and value, and when his genius and patient perseverance, in spite of sneers and scoffs, were completely exhausted, that Lord, who had before made experiments on the same subject, and was unsuccessful, and after hatching one or more complainant's torpedoes, he applied on the 1st of November, 1867, for a patent for substantially the same combination of parts and machine contained in the complainant's patent. On the 15th of the same month the respondents formed the same into a company, or corporation called "The Reed Torpedo Company," for the purpose of putting the complainant's invention, and supporting the expense of litigation, and thus defrauding him of the fruits. They have perceived, even after this preliminary injunction was properly granted by the District Judge, that a decree be entered for complainant for a perpetual injunction; and a Master, appointed to take an account according to the prayer of the bill. R. C. GRIER, Judge.

NOTE—The passage referred to by Judge Grier in his former decision on 3 Wallace, p. 259 adopted as applicable to this case was as follows: "It is usually the case, when any valuable discovery is made, or any new machine or process is invented, that the invention of great utility has been carried to this subject previously, and that many persons have been making researches and experiments. Philosophers and mechanicians may have conceived the possibility or probability of such discovery or invention, and many experiments have been successfully tried, coming very near, yet falling short of the desired result. They have produced nothing better than the invention which, in spite of sneers and scoffs, some valuable inventor has discovered, how seldom it is followed by reward! Every nation has its honor, while speculators, swindlers, and parasites rob him of the profits. Every unsuccessful experimenter who did or did not come very near making a discovery now claims it. Every one who can invent an improvement or vary its form, claims a right to prize the original discovery. We need not summon Morse, or Bissell, or Wood worth to prove that this is the usual history of every great discovery or invention. "The present case adds another chapter to this long and uniform history."—2 Wallace, C. C. Rep. page p. 292.

CAUTION. The public is cautioned against employing any but the regular, authorized Agents of the Company, since the Roberts' Patent covers the use of the Torpedo and all explosive materials for oil wells, and the use of such materials for other parties is a direct infringement of their rights. Any parties infringing any of the ROBERTS' PATENTS, will be held without delay to law, and as acting willfully and knowingly in defiance of law and the decisions of the Courts. The Company have recognized their business with a view to accommodate Oil Men in every part of the Oil Region. They have employed the most efficient Agents and Assistants that can be procured for the business. Each Torpedo is labeled with date of patent, together with the price of the Torpedo, and signed by an officer of the Company, so every Operator wishing a Torpedo may know its price and whether it came from our office. Operators will confer a favor by reporting to this office any negligence of Agents. The following named persons have been appointed Agents and Assistant Agents for the Oil Region of Pennsylvania and West Virginia.
