RHEUMATISM NEURALGIA \$5000 WILL BE PAID.

Every person possessing any medicine able to show one-third as many living, permanent cures as Dr. Fitter's Vegetable Rheumatic Remedy, and further reward of \$100 for any case of Chronic or Indurated Rheumatism, Neuralgia, Rheumatic Ague, Sciatica and Rheumatism of the Kidneys it will not cure. The Rheumatic Syrup is used inwardly only, pleasant to the taste, and guaranteed free from injurious drugs. It is not a quick medicine, but the scientific prescription of Jos. P. Fitter, M. D., Professor of Toxicology and Chemistry graduate of the celebrated University of Pennsylvania, A. D. 1823 whose entire professional life has been devoted specially to this disease. This preparation under solemn oath is conscientiously believed to be the only positive, reliable, infallible specific ever discovered. The proof that no other specific exists is found in every community in persons afflicted for many years and still suffering. If physicians could cure it if a specific did exist, this would not be so—a fact that must be universally admitted. The oft deceived sufferer may wisely ask, what security or evidence has he that Dr. Fitter's Rheumatic Syrup will cure his case. The profits offered to sufferers against imposition is in legally signed contracts which will be forwarded without charge to any sufferer sending by letter a description of affliction; this guarantee will state the exact number of bottles warranted to cure, and in case of failure the money paid will be returned to the patient. No other remedy has ever been offered on such liberal and honorable terms. Medical articles, with certificates from prominent physicians, clergymen etc., who have been cured after all other treatments have failed, sent by letter gratis. Afflicted cordially invited to write for advice to the principal office, 29 South Fourth Street, Philadelphia, Pa. Dr. Fitter's Rheumatic Syrup is sold by druggists.

Jobbing patronage respectfully solicited. C. C. WICKER.

ROBERTS' PETROLEUM TORPEDOES

THE ROBERTS' PETROLEUM TORPEDO CO. Office at the RED PLANING MILL, Corner of Pine and Second Streets, (Near the Railroad), TITUSVILLE, PA.

Owing to the large and increasing demand for Roberts' Torpedoes, and the late decision of the Commissioner of Patents in refusing to Wm. Roberts a patent, and the decision of Judge P. C. Grier in sustaining the Roberts' patent they have LOWERED the price of their Torpedoes.

TWENTY PER CENT. so that every Operator can afford to try a Torpedo before abandoning a Well.

The following is the decision rendered by Judge Grier on the twenty-second (22) day of September, 1869, in the United States Circuit Court at Philadelphia. The case was argued three days by Charles M. Keller of New York, B. F. Lucas and S. A. Furness of Pittsburgh, for defendants, and George Harding of Philadelphia, and George H. Chesley of Pittsburgh, for plaintiff.

OPINION OF JUDGE GRIER

As I write with diffidence I can only state the conclusions to which my mind has come after a careful examination of this case.

The complainant has exhibited a patent dated 25th of April, 1868. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless. I need not repeat my remarks in the case of Goddard vs. Day (2 Wall, C. C. Rep. 229) but will adopt them as affording a rule of decision which applies clearly to the present case.

As the infringement of the patent is admitted the only question will be as to the validity of the complainant's patent of April 25, 1868.

It was after speculation had been reduced to practice, and after repeated experiments, that the complainant succeeded in over coming the popular and ignorant notions of the people on the subject, and persuading the public that his invention was valuable. He had established his great utility and value, and when his genius and patient perseverance, spite of sneers and scoffs, were completely successful, that Reed, who had before made experiments on the same subject, and was unsuccessful, and after purchasing one of the complainant's torpedoes, he applied on the 1st of November, 1867, for a patent for substantially the same, containing claims of devices and machine combined in complainant's patent; On the 16th of the same month the respondents formed themselves into a company for the purpose of procuring the complainant's invention, and supporting the expense of litigation, and thus defrauding him of the fruits. They have succeeded, even after the preliminary injunctions properly granted by the District Judge. Let a decree be entered for compensation for the actual injunctions, and a Master, appointed, make an account according to the payer of the bill.

NOTE.—The passage referred to by Judge Grier in his former decision, 3 Wallace, p. 229, adopted as applicable to this case was as follows: "It is usually the case that any valuable discovery is made, or any new machine or great utility is invented, that the attention of the public has been directed to that subject previously, and that numerous persons have been making researches and experiments. Philosophers and mechanics may in some measure anticipate in their speculations the possibility or probability of such discovery, and many experiments have been made, and many trials, coming very near, yet falling short of the desired result. They have produced nothing beneficial. The invention when perfected may be said to be the culminating point of many experiments, not only by the inventor, but by many others. He may have profited indirectly by the successful experiments and failures of others, but gives the merit to the inventor. It is the profit of the successful inventor. It is the speculation has been reduced to practice, and the invention has resulted in discovery, and when the discovery has been perfected by patient and successful experiments, when some new component of manufacture, or machine has been thus produced, which is useful to the public, that the party making the business application is entitled to a patent."

"And yet when genius and patient perseverance have at length succeeded, in spite of sneers and scoffs, some valuable invention or discovery, seldom is it followed by reward. Every possessor of the honor, who spends months, weeks, and a few dollars in the pursuit of his dream, every inventor who did or did not succeed, every experimenter who failed or who succeeded, every man who can invent an improvement or vary its form, claims a right to praise the original discovery, and need not summons Morse, or Branstetter, or Watt, worth to prove that this is the usual history of every great discovery or invention. The present case adds another chapter to the long and uniform history."—2 Wallace, C. C. Rep. p. 222.

CAUTION.

The public is cautioned against employing the regular, authorized Agents of the Oil Region, since the Roberts' Torpedo is a valuable discovery, and the use of such materials by other parties direct infringement of their rights. Any party infringing any of the ROBERTS' PATENTS will be dealt with according to law, and as setting with and knowingly in defiance of law and the decisions of the Courts. The Company have re-organized their business with a view to accommodate Oil Men in every part of the Oil Region. They have employed the most efficient Agents and Assistants that can be procured for the business. Each Torpedo is labelled with date of patent, together with the price of the Torpedo, and signed by an officer of the Company, every Operator wishing a Torpedo may know the price and whether it came from our office. Operators will confer a favor by reporting to our Office any negligence of Agents.
