

W. G. ALLISON & SON'S

Philadelphia, Manufacturers of superior OIL WELL CASING. AND TUBING! With plain and patent Coupling.

Our TUBING and CASING are manufactured with great care, expressly for the use of oil producers, being tested at the works before shipment with a pressure of 1,500 lbs. to the square inch. NOTICE—Each length and socket is stamped with our trade mark. None other is genuine. The danger heretofore experienced in having Tubing break at the Coupling is obviated by using Allison & Son's Tubing with patent Coupling.

RHEUMATISM NEURALGIA \$5000 WILL BE PAID.

To say the least, medicine is made to show one-third of many living, permanent cures as Dr. Fitter's Vegetable Rheumatic Remedy; and further reward of \$100 for any case of Chronic or Inflammatory Rheumatism, Neuralgia, Rheumatic Arteritis, Sciatica and Rheumatism of the Kidneys it will not cure. The Rheumatic Syrup is used inwardly only, pleasant to the taste, and guaranteed free from injurious drugs. It is not a quick medicine, but the scientific prescription of Dr. Fitter, M. D., Professor of Toxicology and Chemistry, graduate of the celebrated University of Pennsylvania, A. D. 1853, whose entire professional life has been devoted to this disease. This preparation under solemn oath is conscientiously believed to be the only positive, reliable, infallible specific ever discovered. The proof that no other specific exists is found in every community in persons afflicted for many years and still suffering. If physicians could cure it if a specific did exist, this would not be so—a fact that must be universally admitted. The one who has suffered many times, ask, what security or evidence has he that Dr. Fitter's Rheumatic Syrup will cure his case. The protection offered to sufferers against imposition is in legally signed contract which will be forwarded without charge to any sufferer sending by letter a description of affliction; this guarantee will state the exact number of bottles warranted to cure, and in case of failure the money paid will be returned to the patient. No other remedy has ever been offered on such liberal and honorable terms. Medical advice, with certificates from prominent physicians, clergymen etc., who have been cured a ter all other treatments have failed, sent by letter gratis. Afflicted cordially invited to write for advice to the principal office, 29 South Fourth Street, Philadelphia, Pa. Dr. Fitter's Rheumatic Syrup is sold by druggists.

Jobbing patronage respectfully solicited. C. C. WICKER.

ROBERTS' PATENT TORPEDO

TORPEDOES.

THE ROBERTS

PETROLEUM TORPEDO CO.

Office at the

RED PLANING MILL,

Cor. of Pine and Second Streets,

(Near the Railroad),

TITUSVILLE, PA.

Owing to the large and increasing demand for the Roberts' Torpedoes, and the late decision of the Commissioner of Patents in refusing to Wm. Ross a patent, and the decision of Judge P. C. Greig sustaining the Roberts' patent they have LOW PRICES the price of their Torpedoes

TWENTY PER CENT.

so that every Operator can afford to try a Torpedo, before abandoning a Well.

The following is the decision rendered by Judge Greig on the twenty-second (22d) day of September, 1891, in the United States Circuit Court at Philadelphia. The case was argued three days by Charles M. Keller of New York, B. F. Lucas and S. A. Farnsworth of Pittsburgh, for defendants, and George Harding of Philadelphia, and George H. Christy of Pittsburgh, for plaintiff.

OPINION OF JUDGE GRIEG

As I write with difficulty I can only state the conclusions to which my mind has come after a careful examination of this case.

The complainant has exhibited a patent dated 20th of April, 1886. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless.

I need not repeat my remarks in the case of Good-year vs. Day (2 Wall, C. C. Rep. 229), but I now adopt them as affording a rule of decision which applies clearly to the present case.

As the infringement of the patent is admitted, the only question will be as to the validity of complainant's patent of April 20, 1886.

"I was after speculation had been reduced to practice, and after repeated experiments, the complainant succeeded in overcoming the prejudice and ignorance of the people on the subject, and persuading the public that his invention was useful, and that he had established its great utility and value."

"It is usually the case, when any valuable discovery is made, or any new machine of great utility is invented, that the attention of the public has been attracted to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanics may have to some measure anticipated in their speculations the possibility or probability of such discovery or invention; many experiments have been successfully tried, and many failures have occurred, yet falling short of the desired result. They have produced nothing beneficial. The invention which perfected many experiments, not only by the inventor, but by many others, is usually the result of a long and arduous career. It is usually the result of a long and arduous career. It is usually the result of a long and arduous career."

"The present case adds another chapter to the long and uniform history."—2 Wallace, C. C. Rep. p. 229

NOTE—The passage referred to by Judge Greig in his former decision, 3 Wallace, p. 229, applied as applicable to this case was as follows:

"It is usually the case, when any valuable discovery is made, or any new machine of great utility is invented, that the attention of the public has been attracted to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanics may have to some measure anticipated in their speculations the possibility or probability of such discovery or invention; many experiments have been successfully tried, and many failures have occurred, yet falling short of the desired result. They have produced nothing beneficial. The invention which perfected many experiments, not only by the inventor, but by many others, is usually the result of a long and arduous career. It is usually the result of a long and arduous career. It is usually the result of a long and arduous career."
