D. PATTON, Pastor.

Gold at 1 p. m. 111 3/4

There was a crowded house in attendance at Sobel's Opera House, last evening, at the opening lecture of the Young Men's Christian Association course, delivered by Petroleum V. Nasby. The lecturer gave a lucid and clear description of Indian manners and customs. Gave a description of the visit of "Skineoyb" the Comanches brave, who visited the United States for the purpose of becoming acquainted with the manners and customs of the white man, in order that he might go back to his tribe and seek to elevate them to that degree of civilization attained by the whites, but finding instead that the evil practices of the latter were fully up to the Indian, with the exception that the red man's sins were in a rather more "crude" form. The lecture was listened to throughout with marked attention by the large audience, frequently interrupted with applause as the speaker advanced some salient point against the follies and foibles indulged in by the young of both sexes in this age. On the whole the lecture gave universal satisfaction to all in attendance, and the hope is freely expressed that the Y. M. C. A. will engage the services of Petroleum V. to deliver another lecture before the course is over.

Considering the bad state of the weather which was extremely disagreeable, the first lecture of the course may be considered a complete success, and the gentlemen composing the Young Men's Christian Association are certainly deserving the thanks of the public for their earnest efforts to get up a series of entertainments at once interesting and beneficial to all.

About half-past eleven this forenoon a fire occurred at the McDowell well, Rynd Farm, which resulted in the terrible and probably fatal burning of one man, and the serious burning of three others. It appears the workmen were engaged in drawing tubing from the well, and the four men burned were sitting near the oil tank, which was nearly full of oil at the time, watching the operation, when, it is supposed, a spark from the smoke stack of the engine set fire to the oil, causing an explosion and burning the men as above. The derrick, engine house and rig was completely destroyed. The physician gives no hopes of the recovery of one of the men. We did not learn the names of the unfortunate men.

Mease & Armstrong have gone into the brewing business, not that of distilling spirituous liquors, but have pressed out a few barrels of the nicest sweet older ever drank on Oil Creek. Try it.

The Queen of the Belgians has disputed a dressmaker's bill for \$15,000, on the ground of exorbitant charges.

The King of Dahomey attended a grand feast the other day, wearing a quantity of druggists' labels as decorations.

The Scientific Mother Goose.

FOR THE CHEMICAL CHILD.

Sing a song of acids,
Base and alkali
Four and twenty gases
Baked into a pie;
When the pie was opened,
Wonderful to say,
Oxygen and nitrogen
Both flew away!

FOR THE ASTRONOMICAL INFANT.

By-baby bunting,
Father's gone star hunting;
Mother's at the telescope,
To read the baby's horoscope.

By-baby bunoid,
Father's found an asteroid;
Mother makes, by calculation,
The angle of its inclination.

FOR THE YOUNG GEOLOGIST.

Trilobite, graptolite,
Nautilus pie,
Seas were calcareous,
Oceans were dry,
Eocene, miocene,
Pliocene, tuff,
Lias and trias,
And that is enough.

A Serious Loss.

The wreck of the Arctic whaling fleet, with the destruction of many lives and the loss of an immense quantity of whale oil, reported two or three days ago, is the great sensation in commercial circles at present. It appears that deep water is not so favorable for whale fishing as shallow water, from the fact that the place of the re-appearance of the whale after he is stuck is uncertain in the former, while in the latter, he is pretty sure to rise after driving at, or near, the spot where he was harpooned. This fact partially explains the adventurous cruise of the whaling fleet so far north as the Bebring Sea. The account says the Esquimaux warned the daring fishermen that they would be caught in the ice, but if Yankees heeded Esquimaux, their whaling voyages would cease entirely. So the fleet pressed on, and was caught as the natives predicted. Thirty-three vessels were crushed and abandoned. It is said the loss to the town of New Bedford, Massachusetts, is not less than \$1,000,000, most of the sailors having there. The oil market is, of course, affected by the disasters the price having advanced from sixty cents to one dollar per gallon.

At Buffalo, last Sunday evening, the Express says a most singular phenomenon was observed. As viewed from a certain point the sun appears to sink into the waters of the lake, and presents a beautiful sight on all ordinary occasions, but at the time referred to, just at the moment when the sun appeared to be floating as it were a ball of fire on the surface of the lake, it suddenly assumed a conical shape, as if of molten iron and the sides had run down, the whole form evidently magnified to twice its regular size. Directly in the center of this body of fire was plainly visible the form of a ship as if sailing in and a part of the sun. The like of this was never before seen in this locality.

Tender-hearted Mr. Malcom of Houston poisoned his two little sons and himself for fear he might die and leave his children to the world's cold charity.

Cleveland Councilmen have an interesting way of commencing their five-hour barrages with "I don't wish to take up the time of this Council, but—"

In a rural Connecticut town the doctor occupies the pulpit on Sundays, seeing no reason why he should not unite doctrine with doctrine. [Boston Post.]

About two-thirds of the metal of the Chicago Court-House bell has been cut off with cold chisels and converted into reliefs by the venerated inhabitants of that city.

Henry Wolfe, a Kentuckian, recently completed his one hundred and eight years without having known a sick day; and then, not to mar so clean a bill of health, cut his throat.

Mr. D. D. Home, the spiritualist, has been married to the youngest daughter of his Excellency the late Gen. Basil de Gloumeitoe, Counsellor of State to the Emperor of Russia.

A few friends will go and bury us, affection will rear a stone and plant a few flowers over our grave, in a brief period the little hillock will be smothered down, and the stone will fall and neither friend nor stranger will be concerned to ask which one of the forgotten millions of the earth was buried there. Every vestige that we ever lived upon the earth will have vanished away. All the little memorial of our remembrance—the lock of hair encased in gold, or the portrait that hung in our dwellings, will cease to have the slightest interest to any living.

Local matters are scarce to-day

NOTES OF THE DAY.

A Louisville girl swallowed a mosquito.
Connecticut girls claim the equestrian championship.

The Grand Juke is getting to be a grand joke. [Boston Post.]

San Francisco loses three millions and a half by the Chicago fire.

The groom weighed 327 and the bride 92 pounds, at an Indiana wedding.

Milwaukee has one saloon to every one hundred and twenty inhabitants.

Bismarck is said to keep his spirits up with a bottle and a half of brandy per diem.

A grown-up Iowa let his eighty-eight year-old father flog him the other day, for fun.

The "milk cure" has been prescribed for the Empress Carlotta. She takes a milk-bath every day.

The mystery of the "frozen well" at Brandon, Vermont, in which water remains frozen during the hot months of the summer, has never satisfactorily explained. It was supposed that the freezing was due to the dissolution of some material in the water, or to electricity; but it is found, by chemical analysis, that the water holds nothing in solution which would account for its temperature, and the electric needle fails to show any current of electricity. One opinion is, that the ice in summer is caused by the freezing of the gravel, bed during the previous winters, and that the cold gets fastened in, in some incomprehensible manner, and the ice just stays through the summer.

Society and Fashion.

A new style of trimming street dresses is with large buckles of jet or mother of pearl, which are placed in the center of large bows up the front and back of the skirt and waist and on the sleeves.

A bride who was married this week wore a dress of white velvet, with three point lace flounces, a point lace veil fastened with a tiara of diamonds, and diamond necklace and pendant earrings.

The fashionable dress for gentlemen at a day wedding is the English suit of dark rock coat, lavender pants, black or white vest, blue necktie and lavender gloves, for evening weddings black dress coat and pantaloons, black or white vest and black necktie.

Ladies dress more this year for the opera and concerts than for many succeeding years. A black silk skirt is the foundation of most of the toilettes, and the hair elegantly dressed, handsome jewelry and stylish opera cloak make up a very pretty and pleasing picture.

The relief fund of Chicago is daily drawn upon for the subsistence of sixty-three thousand persons.

Soma New Haven shops besprinkled the streets with gravestones from an adjacent cemetery the other day.

We would call the attention of our readers to the advertisement of Messrs. Shugert & Starr, the well known Merchant Tailors of Titusville, which appears in to-day's paper. These gentlemen have long been engaged in the clothing business in the oil region, and are well known as fair and honorable dealers. Their business is principally confined to merchant tailoring, and they employ upwards of thirty hands in this branch of the trade alone. In addition they keep on hand a complete assortment of ready made clothing, hats, caps, and gents' finishing goods. Those of our citizens visiting Titusville, will find it to their advantage to give Messrs. Shugert & Starr a call.

A new well was recently completed near the old Sherman well, on the flats, above Pioneer, which is yielding between four and five barrels per day.

FRESH VACCINE VIRUS!

An awful rush to get vaccinated with fresh Virus, at Griffin Bros. Drug Store, Washington Street, Petroleum Centre.—Without "your money or a pound of flesh." Free of charge and no questions asked.—Bring on the little folks. nov. 11-12.
