The success of the five million lean to the Atlantic and tireat Western Railroad Company is a cable item of special interest .-Atter an unfortunate bistory, and yet having demonstrated its importance in the railway system of the country, this road is like ly to take a rank once more of no mean character. Of the policy of the new managers nothing certain is known. Their character, experience and intelligence, however, justify us in indulging in considerable expectations-not quite so great perhaps as those which Sir Morton Peto underteck to inculcate.

Un Sunday afternoon and evening last, a series of very interesting meetings, were held at the Presbyterian and Methodies churches in this place, under the ausplees of the Young Men's Christian Association. Speaking of the reasons for the holding of the meeting, the Association Monthly says: From year to year an ever-growing number of our societies and of the churches and communities in their near neighborhood have observed the second Lord's-day in November as a season of special prayer for God's blessing on the Young Men's Christian Associations throughout the world -We earnestly urge our members everywhere to a devout observance of the day.

The meeting at the Presbyterian Church in the afternoon was largely attended, and

at the M. E. Church. The p addressed by Revs. Patton and Schofield, by prayer, singing and other exercises by different members of the Association The occasion will long be remembered by those in attendance.

The attention of lovers of "des pully lager bier," is called to the advertisemen of the Opera House Saloon, of which Mesers Swift & Voucher are the popular proprietors. Confession is evidence of repentance .-Some sinners confess to their priest; others to their wives; in either case it is an evidence of reform, and is commendable. Every time you ain, confess!-Pitusville Cour.

We spent Monday and Tuesday last, visit, ing the Petersburg oil field. Not having been there since July, we would scarcely have known the place. The whole country is dotted with derricks, from Kenting's Fur. nace, on Turkey Run, to the Allegheny River, and houses and towns are springing up, in all quarters, as if by magic. Plopeers are out in all directions, endeavoring to lease or purchase land. A number of wells are seen to be put down at various points in the lower end of Beaver township. all the way up to old Jefferson Furnace, and we noticed new derricks here and there, from Petersburg clear out to Salem. - Clar-

Among the incidents connected with the calamity of Chicago is that related by the Rev. Dr. The apson, who was in attendance upon the general convention of the Episcopal church at Baltimore. On the morning after the fire, Dr. Thompson arose and esked the convention to excuse his further pres ence at its sessions. Duty called him to Chicago. Not only his own church and parsonage in that city, but the residence of every member of his parish had been consumed by fire. History affords no other instance of a church and every member of a church rendered homeless in a sin gle night.

A Vermont paper says that among the latest to throw away Christianity and embrace Spiritualism was a certain Elder, who lives not a thousand miles from Waterford. Vermont. The Elder bad a daughter who struggled bard against the influence, but finally gave up and became a writing medium. Imagine her surprise on recovering from her trance to find written in brief "The Devil."
