RHEUMATISM NEURALGIA

$5000 WILL BE PAID.

[illegible] able to show more than as many living, permanent cures as Dr. Fitler's Vegetable Rheumatic Remedy; and further reward of $100 for any case of Chronic or Inflammatory Rheumatism, Neuralgia Rheumatic Ague Sciatica and Rheumatism of the kidneys it will not cure. The Rheumatic Syrup is used in wardly only, pleasant to the taste, and guaranteed free from injurious drugs. It is not a quack medicine, but the scientific prescription of Jos P. Fitler M. D., Professor of Toxicology and Chemistry graduate of the celebrated University of Pennsylvania, A. D., 1853 whose entire professional life has been devoted specially to this disease. This preparation under solemn oath is conscientiously believed to be the only positive, reliable, infallible specific ever discovered. The proof that no other specific exists is found in every community in persons afflicted for many years and still suffering. If physicians could cure it if a specific did exist, this would not be so—a fact that must be universally admitted. The afflicted sufferer may wisely ask, what security or evidence has he that Dr. Fitler's Rheumatic Syrup will cure his case. The protection offered to sufferers against imposition is in legally signed contract which will be forwarded without charge to any sufferer sending by letter a description of affliction; this guarantee will state the exact number of bottles warranted to cure and in case of failure the money paid will be returned to the patient. No other remedy has ever been offered on such liberal and honorable terms. Medical advice with certificates from prominent physicians, clergymen etc. who have been cured after all other treatments have failed, sent by letter gratis. Afflicted cordially invited to write for advice to the principal office, 29 South Fourth Street, Philadelphia, Pa. Dr. Fitler's Rheumatic Syrup is sold by druggists.

TWENTY PER CENT.

so that every Operator can afford to fire a torpedo before abandoning a Well.

The following is the specification referred to by Judge Grier in the twenty-second case [illegible] 1870, in the United States Circuit Court at Pittsburgh. The case was argued by [illegible] for complainants, and by [illegible] for defendants. The Court was occupied a day or [illegible] Mr. Keller of New York, for complainants, and [illegible] Wallace of Pittsburgh, for defendants. [illegible] Harding of Philadelphia, and George H. [illegible] Pittsburgh, for plaintiff.

OPINION OF JUDGE GRIER.

As I write with the entire [illegible] and only share in the conclusions to which my learned associates have arrived after a careful examination of the case.

The complainant has established a patent dated 25th of April, 1865. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless.

I need not repeat my remarks in the case of [illegible] vs. Day (2 Wall. C. C. Rep. 329,) but we adopt them as affording a rule of decision which applies clearly to the present case.

As the infringements of the patent is admitted, the only question will be as to the validity of the complainant's patent of April 25, 1865.

I was after speculation had been reduced to practice, and after repeated experiments by the complainant succeeded in overcoming the principles and ignorance of the people on the subject of persuading the public that his invention was useful after he had established the [illegible] and when his genius and patient perseverance, in spite of sneers, [illegible] ridicule, were crowned with success, that flood, who had before failed in experiments on the same subject, and was himself among the number, and after purchasing one or more of complainant's patents, [illegible] for a patent for substantially the same [illegible] one of devices and machine complained of in complainant's patent. On the 10th of the same month the respondents formed the association into a company or corporation called "the Petroleum Torpedo Co." for the purpose of putting the [illegible] vention, and supporting the expense of litigation and [illegible] defraud him of the fruits. They have [illegible] served, even after the preliminary injunction was properly granted by the [illegible] Judge.

Let a decree be entered for [illegible] perpetual injunction, and a Master appointed to take an account according to the prayer of the bill.

R. C. GRIER, Judge

NOTE.—The passage referred to by Judge Grier in his former decision, 3 Wallace, p. 220, adopted as applicable to this case was as follows:

"It is usually the case, when any valuable discovery is made, or any new machine of great utility is invented, that the attention of the public has been turned to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanicians may [illegible] some to secure anticipated in their speculations the possibility or probability of such discovery or invention; many experiments have been successfully tried, coming very near, yet failing short of the desired result. They have produced nothing beneficial. The invention which perfected may [illegible] said to be the culminating point of many experiments, not only by the inventor, but by many others. One may have profited indirectly by the unsuccessful experiments and failures of others, but it gives them no right to claim a share or title to the profit of the successful inventor. It is when speculation has been reduced to practice, when experiment has resulted in discovery, and when the discovery has been perfected by patient and costly [illegible] experiments, when either new compound, or manufacture, or machine has been [illegible] which is useful to the public, that the party making it becomes a public benefactor and entitled to a patent.

"And yet when genius and patient perseverance have at length succeeded, in spite of sneers and scoffs, in [illegible] valuable invention or discovery, he seldom is followed by reward. Envy robs him of the honor, while speculators, swindlers, and pirates rob him of the profits. Every unsuccessful experimenter who did or did not come very near making a discovery now claims it. Everyone who can invent an improvement or very little more claims a right to phrase the original discovery. It need not [illegible] Morse, or Blanchard, or Woodworth to prove that this is the usual history of every great discovery or invention.

"The present case adds another chapter to this long and uniform history."—2 Wallace, U. S. Reports p. 292

CAUTION.

The public is cautioned against employing any but the regularly authorized Agents of the Company, since the Roberts Patent covers the use of the Torpedo and all explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights. Any parties employing any of the ROBERTS PATENTS will be dealt with according to law, and as serving wilfully and knowingly in defiance of law and the decision of the Courts.

The Company have re-organized their business with a view to accommodate Oil Men in every part of the Oil Region. They have employed the most efficient Agents and Assistants that can be procured for the business. Each Torpedo is labelled with date of patents, together with the price of the Torpedo, and signed by an officer of the Company, so every Operator wishing a Torpedo may know the price and where it can be from our office.

The Agents will confer a favor by reporting to this Office any negligence of Agents.

The following named persons have been appointed Agents and Assistant Agents for the Oil Region of Pennsylvania and West Virginia.
