RHEUMATISM NEURALGIA

\$5000 WILL BE PAID.

To any person producing any medicine able to show one-third as many living, permanent cures as Dr. Filer's Vegetable Rheumatic Remedy; and further reward of \$100 for any case of Chronic or Inflammatory Rheumatism, Neuralgia, Rheumatic Ague, Sciatica and Rheumatism of the Kidneys it will not cure. The Rheumatic Syrup is used inwardly only, pleasant to the taste, and guaranteed free from injurious drugs. It is not a quick medicine, but the scientific prescription of Dr. Filer, M. D., Professor of Toxicology and Chemistry, graduate of the celebrated University of Pennsylvania, A. D. 1838, whose entire professional life has been devoted specially to this disease. This prescription under solemn oath is conscientiously believed to be the only positive, reliable, infallible specific ever discovered. The proof that no other specific exists is found in every community in persons afflicted for many years and still suffering. If physicians could cure it, if a specific did exist, this would not be so—a fact that must be universally admitted. The oft deceived sufferer may wisely ask, what security or evidence has he that Dr. Filer's Rheumatic Syrup will cure his case? The protection offered to sufferers against imposition is in legally signed contract which will be forwarded without charge to any sufferer sending by letter a description of affliction; this guarantee will state the exact number of bottles warranted to cure, and in case of failure the money paid will be returned to the patient. No other remedy has ever been offered on such liberal and honorable terms. Medical advice, with certificates from prominent physicians, clergymen, etc., who have been cured after all other treatments have failed, sent by letter gratis. Afflicted cordially invited to write for advice to the principal office, 20 South Fourth Street, Philadelphia, Pa. Dr. Filer's Rheumatic Syrup is sold by druggists.

Jobbing patronage respectfully solicited.

C. C. WICKER

ROBERTS PETROLEUM TORPEDO

TORPEDOES.

THE ROBERTS PETROLEUM TORPEDO CO.

Office at the RED PLANING MILL

Cor. of Pine and Second Streets, (Near the Railroad), TITUSVILLE, PA.

Owing to the large and increasing demand for the Roberts' Torpedoes, and the late decision of the Commissioner of Patents in refusing to Wm. Reed a patent, and the decision of Judge J. C. Grier maintaining the Roberts' patent they have LOWERED the price of their Torpedoes

TWENTY PER CENT.

so that every Operator can afford to try a Torpedo before abandoning a Well.

The following is the decision rendered by Judge Grier on the twenty-second (22) day of September, 1869, in the United States Circuit Court at Philadelphia. The case was argued three days by Charles M. Keller of New York, B. F. Lucas and S. A. Parvance of Pittsburgh, for defendants, and George Harding of Philadelphia, and George M. Carley, of Pittsburgh, for plaintiff.

As I write with difficulty I can only state the conclusions to which my mind has come after a careful examination of this case.

The complainant has exhibited a patent dated 25th of April, 1855. This is prima facie evidence of a good title, and puts on the respondent the burden of proof that the patent is void or worthless.

I need not repeat my remarks in the case of Good-year vs. Day, (2 Wall. C. C. Reps. 229.) but will adopt them as affording a rule of decision with applicable clarity to the present case.

As the infringement of the patent is admitted, the only question will be as to the validity of complainant's patent of April 25, 1855.

"I was after speculation had been reduced to practice," and after repeated experiments, that the complainant succeeded in overcoming the prejudice and ignorance of the people on the subject, and re-issuing the patent, his invention was useful and new. He had established the greatest utility and value and "when his scheme and patent were known, in spite of sneers and scoffs, were completely successful, that friend, who had before made experiments on the same subject, and was unsuccessful, and after purchasing one or more complainant's torpedoes, he applied on the 1st of November, 1867, for a patent for substantially the same combination of devices and machine contained in complainant's patent. On the 15th of the same month the respondents formed themselves into a company or corporation called "The Reed Torpedo Company," for the purpose of putting the complainant's invention, and supporting the expenses of litigation, and thus defrauding him of the fruits. They have performed, even after the preliminary injunction very properly granted by the District Judge.

Let a decree be entered for complainant for a perpetual injunction; and a Master appointed to take an account according to the payer of the bill, as R. C. GRIER, Judge.

NOTE.—The passage referred to by Judge Grier in his former decision, 3 Wallace, p. 259, adopted as applicable to this case was as follows:

"It is usually the case, when any valuable discovery is made, of any new machine of great utility is invented, that the attention of the public is turned to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanics may have in some measure anticipated in their speculations the possibility or probability of such discovery or invention; many experiments have been successfully tried, coming very near, yet falling short of the desired result. They have produced nothing beneficial. The invention which perfected may truly be said to be the culminating point of many experiments, not only by the inventor, but by many others. It may have profited indirectly by the successful experiments and failures of others, but it gives them no right to claim a share of the benefit of the profit of the successful inventor. It is the result of his own genius and industry. His experiment has resulted in discovery, and when that discovery has been perfected by patient and continuous experiments, when some new compound, an improvement or machine has been thus produced which is useful to the public, that the party making it becomes a public benefactor and entitled to a patent which is useful to the public, that the party making it have at length succeeded, in spite of sneers and scoffs, some valuable invention or discovery, few seldom is it followed by reward! Envy and the rage of the hour, white speculators, swindlers, and pirates rob him of the profits. Every successful experimenter who did or did not come very near making a discovery now claims it. Every man who can invent an improvement or vary its form, claims a right to it as the original inventor. We need not name Morse, or Hanksford, or Wood worth to prove that this is the usual history of every great discovery or invention.

"The present case adds another chapter to the long and uniform history."—3 Wallace, C. C. Reps. p. 259

CAUTION.

The public is cautioned against employing any of the regular authorized Agents of the Company, since the Roberts' Patent cover the use of the Torpedoes and all explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights. Any party who is found infringing any of the ROBERTS' PATENTS will be dealt with according to law, and no action will be taken until the infringer is in default of law and the decision of the Courts.

The Company have re-organized their business with a view to accommodate Oil Men in every part of the Oil Region. They have employed the most efficient Agents and Assistants that can be procured for the business. Each Torpedo is labeled with the date of patents, together with the price of the Torpedo, and signed by an officer of the Company, so every Operator wishing a Torpedo may know its price and whether it came from our office.

Operators will confer a favor by reporting to this Office any negligence of Agents.

The following named persons have been appointed Agents and Assistant Agents for the Oil Region of Pennsylvania and West Virginia.

LIST OF AGENTS.

TITUSVILLE, CHURCH RUN AND VICTORY—STEPHEN COFF, Officer, Hamilton's Drug Store, address Titusville, Pa.; Assistant John Van Siver.
