# RHEUMATISM NEURALGIA

## $5000 WILL BE PAID.

To any person providing any invention under to show one-third as many living permanent cures as Dr. Fitler's Vegetable Rheumatic Remedy; and further reward of $100 for any case of Chronic or Inflammatory Rheumatism, Neuralgia Rheumatic Ague Sciatica and Rheumatism of the Kidneys it will not cure. The Rheumatic Syrup is used in wardly only, pleasant to the taste, and guaranteed free from injurious drugs. It is not a quack medicine, but the scientific prescription of Jos P. Fitler, M. D., Professor of Toxicology and Chemistry graduate of the celebrated University of Pennsylvania, A. D., 1833 whose entire professional life has been devoted specially to this disease. This preparation under solemn oath is conscientiously believed to be the only positive, reliable, infallible specific ever discovered. The proof that no other specific exists is found in every community in persons afflicted for many years and still suffering. If physicians could cure if a specific did exist, this would not be so—a fact that must be universally admitted. The oft deceived sufferer may wisely ask, what security or evidence has he that Dr. Fitler's Rheumatic Syrup will cure his case. The protection offered to sufferers against imposition is in legally signed contract which will be forwarded without charge to any sufferer sending by letter a description of affliction; this guarantee will state the exact number of bottles warranted to cure and in case of failure the money paid will be returned to the patient. No other remedy has ever been offered on such liberal and honorable terms. Medical advice, with certificates from prominent physicians, clergymen etc., who have been cured after all other treatments have failed, sent by letter gratis. Afflicted cordially invited to write for advice to the principal office, 29 South Fourth Street, Philadelphia, Pa. Dr. Fitler's Rheumatic Syrup is sold by druggists.

# TORPEDOES.

**THE ROBERTS PETROLEUM TORPEDO CO.**

**Office at the**

**RED PLANING MILL**

**Corner of Pine and Second Streets, (Near the Railroad,)**

**TITUSVILLE, PA.**

Owing to the large and increasing demand for the Roberts Torpedoes, and the late decision of the Commissioner of Patents in refusing to Wm. Reed a patent, and the decision of Judge J. C. Grier sustaining the Roberts' patent, they have LOWERED the price of their Torpedoes

TWENTY PER CENT.

so that every Operator can afford to try a Torpedo before abandoning a Well.

The following is the decision rendered by Judge Grier on the twenty-second (22) day of September, 1869, in the United States Circuit Court at Philadelphia. The case was argued three days by Charles M. Keller of New York, S. F. Lucas and S. A. Purviance of Pittsburgh, for defendants, and George Harding of Philadelphia, and George H. Christy, of Pittsburgh, for plaintiff.

**OPINION OF JUDGE GRIER.**

As I write with difficulty I can only state the conclusions to which my mind has come after a careful examination of this case.

The complainant has exhibited a patent dated 25th of April, 1865. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless.

I need not repeat my remarks in the case of Goodyear vs. Day (2 Wall, C. C. Rep. 283,) but now adopt them as affording a rule of decision which applies closely to the present case.

As the infringement of the patent is admitted, the only question will be as to the validity of complainants patent of April 25, 1865.

It was after speculation had been reduced to practice, and after repeated experiments that the complainant succeeded in overcoming the prejudice and ignorance of the people on the subject and establishing the principle of his invention as useful to the arts established its great utility and value, and when his genius and patient perseverance, in spite of sneers and scoffs, were completely successful that Reed, who had before made experiments on the same subject, and was unsuccessful, and after hearing one or more complainant's witnesses, on a petition filed on the 1st of November, 1867, for a patent substantially the same combinations of devices as the machine contained in complainant's patent; On the 15th of the same month the respondents formed themselves into a company or corporation called "The Reed Torpedo Company," for the purpose of pirating the complainant's invention, and supporting the expenses of litigation, and thus defraud him of the fruits. They have persevered, even after the preliminary injunction very properly granted by this learned Judge.

Let a decree be entered for complainant for a perpetual injunction and Master, appointed to take an account according to the prayer of the bill.

R. C. GRIER, Judge.

NOTE.—The passage referred to by Judge Grier is from Hotchkiss vs. Greenwood, 4 Wallace, p. 299, adopted as applicable to this case, was as follows:

"It is usually the case, when any valuable discovery is made, or any new machine of great utility is invented, that the attention of the public has been turned to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanicians may have some measure anticipated in their speculations the possibility or probability of such discovery or invention; many experiments have been successfully made, coming very near, yet failing short of the desired result. They have produced nothing beneficial. The invention which perfected may truly be said to be the culminating point of many experiments, not only by the inventor, but by many others. The world may have profited indirectly by the unsuccessful experiments and failures of others, but it gives them no right to claim a share of the honor of the success of the successful inventor. It is when the invention has been reduced to practice, when experiment has resulted in discovery, and when that discovery has been perfected by patient and continued experiments when some new compound, art manufacture, or machine has been thus produced which is useful to the public, that the party making it becomes a public benefactor and entitled to a patent.

"And yet when genius and patient perseverance have thus succeeded, in spite of errors and scoffs, some valuable invention or discovery, how seldom is it followed by reward! Envy robs him of the honor, while speculators, swindlers, and pirates rob him of the profits. Every unsuccessful experimenter who did or did not come very near making a discovery now claims it. Everyone who can invent an improvement or vary its form, claims a right to pirate the original discovery. We do not [illegible] worse, or Rhinehards, or Woodworth to prove that this is the usual history of every great discovery or invention.

"The present case adds another chapter to this long and uniform history."—2 Wallace, 4 C. C. Reports p. 282

---

## CAUTION.

The public is cautioned against employing any of the regularly authorized Agents of the Company, since the Roberts Patent cover the use of the Torpedo and all explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights. Any parties infringing any of the ROBERTS PATENTS will be dealt with according to law, and as acting willfully and knowingly in defiance of law and the decisions of the Courts.

The Company have re-organized their business with a view to accommodate Oil Men in every part of the Oil Region. They have employed the most efficient Agents and Assistants that can be procured for the business. Each Torpedo is labeled with date of patents, together with the price of the Torpedo, and signed by an officer of the Company, so every Operator wishing a Torpedo may know its price and whether it came from our office.

Operators will confer a favor by reporting to this Office any negligence of Agents.

The following named persons have been appointed Agents and Assistant Agents for the Oil Region of Pennsylvania and West Virginia.
