New WELL.—A new well was struck on
the Denley farm, Bear Creek, on Sunday
last, which started up at the rate of 75 bar-
rels per day, and has kept it up ever since.
The well is owned by Messrs. James W.
Hogan, T. Hogan, W. T. Hogan and Wm.
Duffey, all old residents of Petroleum Cen-
tre. It is located near the large flowing
well recently struck and owned by Messrs.
S. A. Woods, Frank Ripley and others. The
owners of the new well have a fifteen acre
lease on the Denley farm, and have another
well down about 500 feet. We congratulate
them on their good fortune, as they are de-
serving of it.

There is music still that lingers,
As by magic's fairy fingers,
Round the memory of the olden and the
golden days of yore,
When we had no care or trouble,
Of the world's eternal bubble,
In childhood's sunny days that have gone
and come no more.

While those happy days can never return
still in a measure we can "live them over
again," and can list to the music sweet and
trip the light fantastic toe, at the Oil Ex-
change Hotel, tomorrow evening. Mr. S.
Johnson, the landlord, has made every nec-
essary preparation for having an old-fash-
ioned good time, and we would advise our
clients to attend.

The Common Council of Cleveland are
stirring up the dealers in petroleum oils,
and the startling fact has been discovered
that nearly all the kerosene oils sold in that
city are below the fire test, and liable to
explode at any time. The city officials are
bound to have the law enforced which re-
quires the fire test to be not below 110 Fah-
renheit. The movement is a good one.

The Warren & Venango Railroad survey-
ors have recommenced surveying on the
Egbert farm and further down the Creek.

Lou Vesuser has recently repainted and
otherwise "fixed up" that favorite resort,
making it a pleasant place to pass an even-
ing.

This is one of those cold disagreeable
days that cause people to hug a good coat,
fire pretty close. It is also a bad day for
local items, and a good day for hot whiskies
Who'll have another one.

The new well on the Pearson farm, owned
by the Western Pennsylvania Oil Company,
does not show up very well, having pumped
no oil whatever so far. A torpedo was to
have been exploded in the well to-day, in
hope of "reading the boom" of Mother
Earth to that extent that she would produce
oil in paying quantities.

Capt. Jinks of the Horse Marines is in
town to-day.

If people will drink whiskey, they should
procure some of T. S. & Co.'s old Ken-
tucky Whiskey, to be procured at Owen
Goffey's Liquor Store. Try it.

The lecture to be given by Hon. Wm.
Powers, on Tuesday evening next, promises
to be the most interesting one of the Y. M.
C. A. course.

Solidifying Petroleum.

If the extract appended from a French
Journal be correct, a revolution in the mode
of Petroleum transportation will take place.
We fail to see how it can be effected, yet
are not disposed to doubt the possibility of
anything in this wonderful age:

The Journal de l'Eclairage au Gaz has
an article referring to the new process for
solidifying petroleum and to the parts.
According to the representations made in
the Journal, the oil, after undergoing this
treatment, is subject to none but the most
perfect evaporation, and therefore, com-
pletely considered, the method has an impor-
tant value. Even in case of fire, there need
be no apprehension of the terrible effects of
the liquid flames spreading themselves on
all sides in extinguishable conflagration—
Solidified by the new process, the mass of
petroleum burns without liquidifying. The
petroleum is submitted to a novel process
which reduces the substance to its primitive
state, without any loss or deterioration of its
lighting qualities, or without augmenting
the price. The operation involves, of course,
a certain amount of cost, but this is com-
pensated by the perfect preservation of the
petroleum, its convenient transportation
and other advantages!

DEW DROPS.

Economy.—Jewel of life, whoever secures
it, lays the corner stone to thrift.

Truth.—very scarce, not much in demand
found in the dictionary.

Virtue.—a sound principle founded on
the rock of economy.—extravagance will un-
dermine it, though planted beneath earth's
centre.

Greatness.—accumulate it, no matter
how. The more you get the larger you
grow.

Integrity.—lots of people have it—in a
corner.

Love.—a curious feeling, or desire to ab-
stract something from your neighbors or
from his household.

Hope.—a good thing to talk about,
but never known to furnish a square
meal.

drinking a wine glass full of the tea three
times a day," and also that the clover tops

THE POET.

"Sweet" did you say that my verse was?
O could I but bring to your ear
The soundless songs that entrance me,
Which only my soul can hear.—

Songs learned when my soul was begin-
ning.

Before it was fettered in me,
And could bear the universe singing
Its endless symphony.

I hear those harmonies ever,
And whenever I strive to sing,
My soul is sad with the failure
To make my melodies ring.

As they rang when it bathed in the
brightness

That streamed on it from the Throne
Where thought of itself is music,
And effort and fruit are one.

Chicago arrests in doing strange and un-

crime of receiving a bribe to influence his
vote on a contract. It is claimed there are

who should be put through the same exper-

not treated like a common convicted thief.
He has a clean cell, good bed, gets his meals

"high old time" with Rhine wine and cigars

NOTICE.

I would respectfully announce to my
friends and patrons, that I have this day
sold my entire lumber business, at this point,
to my Brother, R. F. Sternburg, who will
continue the business at the same old stand.
I would also respectfully request that the
same liberal patronage be extended to him,
that has been extended to me heretofore.
He has been with me for the last three
years, and is in every respect competent to
"run" the business.

All persons indebted to me must call
and settle their accounts on or before the
10th day of February, or they will be left
for collection.

Parties indebted to me will find it to their
interest to call and settle with me individu-
ally. All persons having claims against me
will please present them on or before Feb-
