PLEASANT AFFAIR.—Last evening Petroleum Centre Lodge No. 715, I. O. of O. F., of this place, were favored with a visit from Petrolia Lodge No. 680 of Rousseville, and the proceedings of the evening's session were of an exceedingly interesting nature. At the conclusion of the meeting in the hall, about 11 p. m., the entire party adjourned to the Central House, where an excellent collation was served up by Mr. Cross, the popular landlord of that hotel, after which an hour or two was passed in pleasant social enjoyment, when the Roussevillians left for their homes. They expressed themselves as highly pleased with the manner in which they had been entertained, and the hope was universal that many more such pleasant gatherings of the "brethren of the mystic links" might be witnessed. About 70 members of the two Lodges partook of mine host Cross' good cheer, and all united in pronouncing it good. The affair was a very pleasant one throughout and will long be remembered by all who participated.

The following parties received telegram from Franklin, this forenoon, to the effect that the Court had granted them license to sell liquor:

Rocheater House, hotel.
Oint. Robson, hotel.
A. S. Smith, restaurant.

Of all the joys vouchsafed to man,
In life's tempestuous whirl,
There's naught approaching heaven so near
As sleighing with a girl.

But in order to enjoy the company of your girl to the fullest extent, it is necessary to have a first-class rig, just such a one as our friend Smalley, the popular livery man, has in his stables at present. He has got the nebbiest cutters and the latest nags hereabouts, and he keeps them in splendid condition for driving. "More feed, old horse."

The best Gold Pens in use are those made by Fairbaird's, and for sale at Nicholson's Newsroom.

News from Rio Janeiro gives an account of the burning of the steamer *America*, by which 37 lives were lost. The reason on board the burning steamer are described as being harrowing in the extreme.

Communion service and preaching at the Presbyterian Church, to-morrow.

Sleighing parties are all the rage to-day. We notice our friends Harry Howe and A. Alden, in company with a merry party of ladies and gentlemen, out sleighing, this afternoon. Go it while the snow lasts, boys!

The Tax Board of Appeals have decided that Goldsmith Malt is entitled to the record of 2:17 at Milwaukee.

The first deposit has been made by Mace, which O'Neil is asked to cover to fight the \$5,000 suit and the cheapness of the oil.

OIL NEWS.—Phillips & Boyles well No. 8, McCray farm, has been abandoned.

Nearly all the wells on the Booker farm, Pithole, have been flooded out with water, and several have been abandoned. We have news of the drilling of two new wells at Cash-Up within the past two days. Fisher-Shirk well No. 2 is pumping thirty barrels per day, and Mace well No. 8 is yielding 25 barrels daily. Both of these wells lie beyond the McLaughlin well in the direction of the Fagundes oil belt.

Freatlee, Crawford & Barbour well No. 1 on the Kyle farm, Bully Hill, was finished day before yesterday, and proved to be dry. A well on the Strouman farm, Bully Hill owned by the same parties, was completed a day or two since, and up to yesterday had produced no oil to speak of. It was to have been torpedoed to-day.

Strong rumors are prevalent of the striking of several dry holes in the Petersburg oil district.

We learn just as we go to press that a frightful railroad accident occurred on the Allegheny Valley Railroad, near Scrubgrass Station, this afternoon. The up river passenger ran off the track and plunged down an embankment into the Allegheny River. A telegram just received, 4:00 p. m., says 13 persons were injured, and no one killed. Accident caused by collision between down passenger and up freight train near Scrubgrass. Another rumor has it that a man named King, of Franklin, was killed.

If it be true that hell hath no fury like a woman scorned, it follows that woman is more ungovernable than man. And is not that true in regard to woman in her low estate and woman in the intelligent walks of life? Oh all the devils incarnate in Paris in time of bloodshed women were the worst. That will not be disputed. And lately at the Capitol of Washington, we had a specimen of the ungovernable disposition of woman when the strong minded besieged the committee room, held the knob of the door, and behaved to themselves so unseemly that the Sergeant-at-Arms—Mr. French—was "simply discouraged," and had the "mob" been composed of men would have sent the Capitol Police through the crowd clubbing right and left until possession of the corridors and the doors of the committee room were given up to those who properly have possession. The scene was disgraceful and only a few repetitions will show the world that woman rights are in the wrong woman's hands.

A GOOD HOTEL.—We wish to call the notice of the traveling public to the fact that the Central Hotel, at Petroleum Centre, is one of the best kept, pleasant places of entertainment in the oil regions. We had the pleasure of stopping there a couple of days last week, and as we paid our bill like any other guest, this is not a puff in payment. Mr. G. J. Cross, the proprietor, is himself always on hand looking after the welfare and comfort of his guests, and well he knows how to do that. Any of our friends who go to the Centre, should stop at the Central Hotel. —New Castle Gazette and Democrat.

TEST WELL IN STRATHROY.—Mr. J. S. Loughhead is about sinking a test well in Strathroy, near the railroad bridge, with a view to discover the existence of oil or salt deposits thereabouts. Mr. M. Scott is putting up the rig, and Mr. H. Smiley, we believe, has the contract of drilling. The enterprise is assisted by the people of Strathroy, and Mr. Loughhead intends to go down 1500 feet, if necessary.—Petrolia, Ont. AAdvertiser

A Kansas paper's cow obituary says: "There is not a farm wagon in the country that she has not stolen something out of; not a gate in town that she has not opened; and the stones that have been thrown at her would make five miles of turnpike."

A young lady at Council Bluffs being informed by her "feller" that he intended to cease his attentions, coaxed him around the room, and as he sprung through the open window, told him, with a parting lick, that that would teach him to be more careful for the future, not to trifle with a gentle and loving heart.

A St. Joe, Mo., physician says heart disease is caused by the use of coal oil. The odorous gas which escapes in the injurious element, and is, of course, more liable to affect the cardiac organ when the light is turned down—way down, as foolish young people fancy it on Sunday nights.

NOTES OF THE DAY.

West Virginia has a "Pig's Ear Oil Co." The Atlanta Sun calls him Alexis Buffalo which.

The Chicago ruins still draw good houses. Bream has great difficulty in settling her coffee troubles.

Albany's fifteen breweries exude 250,000 barrels of beer a year.

They have advanced as far as a minstrel troupe in the Greeley colony.

St. Joe butchers are selling buffalo meat killed by Alexis. The sales are numerous.

Mr. Meeker says that the cotton gin will be among the other gins prohibited in Greeley.

Competing railway lines ordinarily exhibit very little freight—ornal feeling.—Boston Post.

Alexis has parted with another diamond, this time in favor of Kunkel, a Cincinnati plantist.

A Georgia prayer meeting was caltivated by one brethren shooting another in the shoulder.

The Headlight is a new paper at Moberly Mo., and already its local adversary calls it Lightthead.

A man in Washington had his head blown off by an explosion of gas the other day.—He was not a Congressman.

Two Giond's Falls sisters, having but one lover between them, drowned themselves in a dramatic but determined manner.

The acquittal of Mrs. Wharton, charged with poisoning to death Gen. Ketchum, will be acquiesced in by everybody who has given the case, as it was developed on the trial, thoughtful attention. The aristocratic circles of Baltimore, as well as its most influential press, have been arrayed against the poor woman from the day of her arrest, and the American, even has declared that no matter what the verdict may be, its opinion of the guilt of the accused would be unshaken. Mrs. Wharton is not yet out of jail, although released from the prison, for she is under bonds of \$10,000 to answer a charge of attempting to poison a young man named Van Ness.

The Northern Pacific Railroad is now virtually completed across the State of Minnesota, 235 miles, and a schedule of regular trains is being arranged for the completed section. Early in October contracts were let for the construction of the Dakota division, extending 200 miles westward from the crossing of the Red river to the crossing of the Missouri, in Central Dakota, which is to be finished by the first day of July, 1872. In the meantime, a section of sixty-five miles is under construction between the Columbia river and Puget Sound, in Washington Territory, where track-laying is progressing.

A married woman in Decatur, Ohio, the other day, pining for her husband's society, went with her three little children to the billiard room and took a seat by his side. "It's disgraceful," said he, looking daggers at her. "I know it," continued the injured wife, "and you have borne the disgrace so long, my dear, that I am determined henceforth to share it with you," and she took out her knitting work and settled down for the evening. He went home much earlier, and it was the last of him seen in that billiard room.

A chambermaid in Bangor, Me., while shaking a rug out of a second story window recently, lost her balance, turned a complete somersault, and fell to the ground. An observer was horror-stricken at the sight and supposed, of course, that the maid was killed; but to his utter astonishment, after a moment's rest, she jumped up, ran into the house, and resumed her work as if nothing had happened.

A new license law advocated by some politicians in Wisconsin is to grant license to both sellers and drinkers. Every man who drinks must pay ten dollars for a license before he can get a drink and in order to obtain this license a man must have bondsmen who will be held responsible for damage done by him while in the state of intoxication.

A Boston paper offers a decent reward for the bank cashier who has made a good thing of it in gambling in stocks with the money of his bank. If the person offering the reward will guarantee its payment, we think we can name one or two who have been successful speculators with other people's money.

NOTICE.

I would respectfully announce to my friends and patrons, that I have this day sold my entire lumber business, at this point, to my Brother, R. F. Sternburg, who will continue the business at the same old stand. I would also respectfully request that the same liberal patronage be extended to him, that has been extended to me heretofore. He has been with me for the last three years, and is in every respect competent to "run" the business.

All persons indebted to me must call and settle their accounts on or before the 10th day of February, or they will be left for collection.

Parties indebted to me will find it to their interest to call and settle with me individually. All persons having claims against me will please present them on or before February 1st.

I still retain my Franklin yard, at the V 1 ley Depot, and to those desiring lumber down the river, I shall be happy to furnish by the car or otherwise.
