ROBERTS PETROLEUM TORPEDO C

TORPEDOES

THE ROBERTS PETROLEUM TORPEDO CO.

Office at the RED PLANING MILL

Cor er of Pine and Second Streets, (Near the Railroad,)

TITUSVILLE, PA.

Owing to the large and increasing demand for the Roberta' Torpedoes, and the late declaton of the Commissioner of Patents in refusing to Win. Reed a patent, and the decision of Judge R. Q. Grier en-taining the Roberta' patent they have LOWERED the price of their Torpedoes

TWENTE PER CENT.

so that every Operator can afford so try a Terpedo before abandoning a Well.

before abandoning a Well.

The following is the decision randered by Judge
Grier on the twenty-second (22) day of September,
1889, in the United States Circuit Court at Philadephia. The case was angued three days by Charles
M. Keller of New York, B. F. Lucas and S. A. Purviance of Pittaburgh, for defendants, and George
Harding of Philadelphia, and George H. Christy, c.
Pittaburgh, for plantiff.

OPINION OF JUDGE GRIER

OPINION OF JUDGE GRIER

As I write with difficulty I can only state the conclusions to which my mind has come after a carafacaa mination of this case.

The complainant has exhibited a patent dated 25th of April, 1805. This is prima facts evidence or a good wide, and puts on the respondents the borden of proof that the patent is void or worthless.

I need not repeat my remarks in the case of Goodyent was Day (2 Wall, Q. U. Rept. 120.) but new adopt them as affording a rule of decision which applies clearly to the present case.

As the infringement of the patent is admitted, the only question will be as to the validity of complainants patent of April 85,1858.

I was after speculation had been reduced to practice. and after repeated experiments, that the complainant succeeded in over coming the problem of the propose of the subject and ignorance of the people on the subject and after he had established its great it nily and value and "when his genius and patient perswerment, in spite o, sneers and scoffs," were countedly as caseful, that Keed, who had before in de experiments on the same subject, and was unsuccessful, and after burchasing one or more complainants to pace to the subject of November, 186, for a patent for substantially the same combinations of device and machine con alue in remplant of the respondents formed themse lives into a complain, ant's patent; On the 18th of the zame month the respondents formed themse twe into a complain, and true deficial him of the fruits. They have perserved, even after the prelimary inquestion very properly granted by the Astrice Judge.

Let a degree be entered for complaints to take an account accordingly to the payer, of thebill.

R. C. Giftlick, Judge.

an account accordingly to the payer, of the bill.

NOTE.—The passage referred to by Judge Grier in his former decision, 2 Wallace, p. 299, adopted as applicable to this case was as follows:

"It is usually the case, when any valuable discovery is made, or may new machine of great utility is invented, that the attention of the subid, has best turned to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanicians may have used to be the making researches and experiments have been successfully tried, coming very bear, yet falling short, of the desired result. They have produced nothing beneficial. The invention when perfected may have made to be the culminating point, of mans experiments, not only by the inventor, but by many oftens, if the may have profused infinitely by the user caseful experiments and, failures of others, but figures them no right to claim a share of the heur of the profit of the successful-inventor. It is were speculation has been reduced to practice, when experiments has resulted in discovery, and when the perfect of the profit of the successful-inventor. It is were speculation has been reduced to practice, when experiments has resulted in discovery, and when the perfect of the profit of the successful-inventor is a smanufacture, or machine has been than profoses which is useful to the public, that the purity mising becomes a public bettericity and entitled to a patent. "And yet when genins, and apatient perference which is useful to the species of the profits. Every unsuccessful and the house, which is useful to the speciment of sweet of the order of the house, which is useful to the summan of the profits. Every unsuccessful and the house, which is useful to the summan of the profits. Every unsuccessful and the house, which is unceeded, in spite of sneet and experimenter who did or did not come virgues and the summan flower of the order of the count of the profits. Every unsuccessful and the house, which is useful to the count of t

CAUTION The public is suctioned spanist employing any ut the regularly authorized Agents of the Company, since the Roberts Patent-cover the use of the Torpedo and all explosive materials for oil wells, and the use of such materials by other periods a direct infringement of their rights. Any parties in fringing any of the ROBERTS PATENTS will be dealt with according to law, and as acting milliby and knowingly in defiance of law and the desirons of the Courts.

The Company have re-organized their belows with a view to accommodate Oil Men is every set of the Oil Region. They have employed its and officient Agents and Assistants that can be precedented in the Courts. The Company have the control of the Oil Region. They have employed its and efficient Agents and Assistants that can be precedented by the Courts.

of the Oil Region. They have employed under singlein Agents and Assistants that can be present foil he believes. Lach Torpedo is labeled with data at satents, segether with the price of the region pedo, and signed by an officer of the Company, severy Operator wishing a Torpedo may kine in price and whether it came from our office. Operators will confer a favor by reporting to the Office any negligence of Agents.

The following named persons have been appoint a Agents and Assistant Agents for the Oil agent of Yennsylvania and West Virginia.
