The Ninth District.

Pursuant to the requirements of Section
Second of the Producers Union, the pro-
ducers of the 9th district met at the Rynd
Farm yesterday, and proceeded to business
by calling Mr. J. C. Powers to the chair,
and electing Mr. Charles Dow, Secretary.

Mr. Painter offered the following resolu-
tion, which was unanimously adopted:

Resolved—That the district be divided
into five sub-districts, and that each sub-
district elect its own committee, none
but producers being allowed to vote.

The district was then subdivided as fol-
lows:

No. 1, Blood and Tarr farms.

No. 2, Rynd farm, Weiske and Hays
rmas.

No. 3, Brown, McAlwee, Metropolitan,
Lake and Sutley farms, and all intervening,
and minor adjacent tracts.

4th, Black, Dempsey, Mellory and
Harper.

5th, all producing territory above the
Dempsey line, and not included.

The following committees were elect-
ed:

First District—H. Byrom.

Second—Mr. Walmer.

Third—Capt. A. G. Oliver.

Fourth—Mr. Barret.

Fifth—William Saunders.

The meeting then adjourned.

Titusville.

The municipal election which came off
yesterday, resulted in the choice of Dr.
W. B. Roberts as Mayor by a majority of
176. Dr. Roberts is an active, enterprising
man, and was the choice of those who
favor public improvements, and are for a
railroad to Buffalo. We congratulate him
on his triumphant election, and think that
Titusville has done right in electing him.

Nathaniel Ferguson, of Detroit, a colored
sailor, built a fire with kerosene oil, in con-
sequence of which he "slipped his cable
and went aloft." Next!

The offices of the General Manager of the
O. C. & A. R. R. have been removed from
Corry to this City. The offices of Superin-
tendent and Treasurer adjourned at Corry

SHUTTING DOWN ON SUNDAY!

KANE CITY, March 16, 1872.

We understand from very good authority,
that Mr. Marston, of the firm of Marston &
Shreve, proprietors of the Big Tank Farm,
near Kane City, was very anxious to get
signers to the pledge agreeing to shut down
wells on Sunday. Now we don't consider
it any of our business who shuts down on
Sunday, but would like to ask Mr. M. why
he is so anxious to get other people to shut
down and at the same time run all the wells
under his control on the Big Tank Farm on
the Sabbath. "Oh! consistency thou art"
where?

ONE WHO BELIEVES IN A MAN PRACTIC- ING WHAT HE PREACHES.

Barnum is soon to start out a new Show,
a combination of Museum, Menagerie, Car-
avan, Hippodrome, Polytechnic Institute
and International Zoological Garden.—
Among other things he has a Sea Lion, and
three Fijian cannibals. He promises to
bring his great show to Petroleum Centre
this Spring or early in the Summer. He
has invested one million in this enterprise.

The Oilman's Journal says a gang of
thieves is operating in the Parker District,
and hopes they will be arrested. It says
further:

There suspicious characters travel at times
as representatives of different branches of
business—hoping thereby to gain an en-
trance to business houses and private fam-
ilies, when they can view the surroundings
and obtain a knowledge of the contents.—
Some persons representing themselves as
agents for foreign printing establishments
may belong to this class. It might be well
for our citizens to scrutinize such characters
closely.

The Southern Improvement Company
have beyond all doubt perfected their plans,
and are already commencing to work. We
can only say at present, that this monopoly
have so arranged, that they have a check
upon every barrel of oil shipped, and that
on every barrel they, by virtue of their con-
tracts with the railroads, are receiving a
drawback per centage. Also, that the
Southern Improvement Company, and not
the railroads, have established the present
rate of freights. The above we have good
reason to believe, and hope to furnish full
particulars at an early date.—[Oil City
Register.]

Let our oil producers be on the watch for
the first movement in the game. We can
and will succeed in checkmating the mon-
opoly. Do not cease in the good work or
all will be lost.

REMOVED.—Mr. C. Williams has moved
from his residence on Rynd farm, to the
John Brown farm, where he intends to run
a first class boarding house. Mr. W. is a
straight forward honorable gentleman, and
we heartily wish him success. May he keep
the PAINTERS well supplied with ham and
eggs lest they become ferocious.

PERSONAL.—Lieut. W. C. Piammer,
editor of the Titusville Daily Courier, was
torn. The "old man" is looking full as
well as he did when acting as Burgess of
Pithole, or later when acting as editor of
the Record, in fact he is flourishing like
unto a green bay tree, and the Titusville
election has not disturbed the equanimity
of his periphery of his convalescent bi-
section. Come again, Warren, the lath
string is always out.

The Erie Dispatch states that work on
the Pennsylvania Petroleum Railroad has
commenced in that city.

Query—Why don't the Tidoute Daily
Journal come to this office. Have you for-
gotten us, Major?

SCARLET FEVER.—The scarlet fever—a
disease that parents dread more than almost
any other that children can be afflicted with
—is raging to a fearful extent in several
counties of the State, and has again appear-
ed in this vicinity. An eminent physician
claims to rob scarlet fever of many of its
terrors by prescribing for the patient warm
lemonade with a little mucilage, as often as
desired, and the application of warmth to
the stomach. He directs that a cloth be
wringed out of hot water and laid on the
stomach, renewing it as often as it cools.
With this treatment, he guarantees that
not one out of a hundred cases will prove
fatal.

Swindlers tried to seduce a Western man
on a railroad train into betting that he
could not open a patent padlock which they
carried about. He took the bet and opened
the lock with a sledge hammer.

A fellow in Illinois has been engaged in
the lucrative business of filling empty Hos-
tetter bitter bottles with an economical ad-
mixture of mean whiskey and Wabash
water.

The Western editors are all in love with
Mrs. Moulton—her singing—and express
their admiration in prose and poetry by the
stickful.

The following is the text of the Free Pipe
bill before the amendment was affixed to it:
SEC. 1. Be it enacted, &c., That the
provisions of an act relating to corporations
for mechanical, manufacturing, mining and
quarrying purposes, approved the eight-
eenth day of July, one thousand eight hun-
dred and sixty-three, and the supplements
thereto be, and the same are hereby extend-
ed to the transportation and storage of pet-
roleum in the counties of Venango, War-
ren, Forest, Armstrong, Clarion, Butler,
Crawford and Erie, and that any company
organized for such purposes under the pro-
visions of said act shall have the right to
transport, store, insure and ship petroleum,
and for that purpose to lay down, construct
and maintain pipes, tubing, tanks, cisterns
and such other machinery, devices or ar-
rangements as may be necessary, and to en-
ter upon, use and occupy such lands as may
be requisite for the purpose of the company,
and for rights of entry upon rights of way,
and the use of materials necessary to the
construction, maintenance and operation of
said lines of pipes and fixtures as aforesaid.
They shall be entitled to all the rights and
privileges and be subject to all the limita-
tions and restrictions of railroad companies,
approved February nineteenth, one thou-
sand eight hundred and forty-nine, and the
supplements thereto; provided, however,
that nothing herein contained shall be con-
structed to authorize the construction of
any railroad.

SEC. 2 That any company organized un-
der the provisions of this act may at any
time change the location of the whole or
any part of their pipes, or construct a
branch or branches from any point or points
on the main line to any point or place
within the counties aforesaid, but before
doing so a majority of the directors of said
company shall make or cause to be made a
certificate in writing setting forth the
proposed change, particularly setting forth
the routes and termini, have the same ac-
knowledged before a notary public and re-
corded in the same manner as shall be pre-
vided in the original articles of the associa-
tion.

HONOR HIM.

Capt. C. W. Owston, of the firm of Ow-
ston & Sowers, oil brokers of this city, was
offered the position of buyer for the South-
ern Improvement Company, at a salary of
\$5,00 for the first three months, commenc-
ing April 1st. Mr. Owston emphatically
declined the tempting offer. All honor to
Mr. Owston, and may every dealer prove as
staunch and true to our interests.—Oil City
Register.

The dam of the famous trotting horse
Goltsmith Maid is doing duty in a milk
wagon, near Port Jervis, New York, while
her daughter is queen of the turf in Ameri-
ca.]

It will be seen by dispatches published
elsewhere that the New York refiners have
declined to act with the South Improvement
Company and that Buffalo has determined
in favor of the proposed road to the oil
regions.

Powerful as the South Improvement Com-
pany is, it has now to contend with an or-
ganization that (leaving railroad companies
aside) has more capital, as much ability
and as determined a will as it can possibly
have.

There is no child's play in this contest.—
[Pittsburgh Chronicle, 11th.]

An eccentric Parisian capitalist, recently
deceased by throwing himself out of a
fourth story window, has left his entire
property to the first person who shall at-
tempt self-destruction unsuccessfully.

A new style opera cloak is of white cloth,
completely covered with embroidery in gold
or silver braid, or both combined. The ef-
fect by daylight is dazzling; and it might be
added that when the bill is brought in to
papa the effect is stunning.

H. G. writes to a Berks county man thus;
I "hear that in your vicinity you raise a
small fruit called pretzels; which are said
to be good when cooked. Please send me a
few seeds; and I will set them out in the
spring."

The robins, blue-birds, meadow-larks and
other feathered visitors from the South, who
were merry in their songs of greeting, on the
28th, evidently had overlooked the fact that
this is leap year, and February able to put
in one more day, about the worst day, to,
of the season.

A Boston girl is so accent-minded that
she kisses any of her male acquaintances
she may happen to meet, under the im-
pression that the aforesaid are the dearest
female intimates. The practice is rendered
all the more unaccountable from the fact
that the mistake seldom or never occurs ex-
cept when the recipient of the affectionate
salutation is young and good looking.

There are now a hundred and thirty per-
sons serving out sentences of imprisonment
to Massachusetts for horse-selling.

TOMMY DOD'S STORY.—In crossing the
plains in 1852, Tommy Dod was gobbled up
by the Goshoot Indians, and some months
remained a captive among them. He says
among other plunder obtained by the In-
dians when they took his train, was a hand
organ which an adventurous Italian was
bringing out to California. They piled
bacon around the old Italian and fried him
in it, but the organ they carried away with
them, as the sounds it gave out when the
crank was turned delighted their murdering
hearts. For it is true, as Congreve says in
the opening lines to his tragedy of the
"Morning Glory," that
Music hath charms to soothe the savage
brest,

To soften rocks, or bend the knotten oak.

The organ was a big thing among the
Indians after they had reached their village.
The chief had a man to sit in front of it,
but and grind it every night. It was set to
play "Yankee Doodle," and "Yankee
Doodle," it played every night, week in and
week out, without "variation." One night
in fooling with the "machine" the Indian
grinder shifted the stop, and when he re-
sumed the crank, out came "Pop Goes the
Weasel." The old chief listened a moment,
and supposing the machine was spoiled,
seized his tomabawk, leaped from the door
of his hut, and with a fierce yell, brained
the discoverer of the new tune upon the
spot.—[Virginia Enterprise.]

It will interest those who have pug noses,
"growing pigger and pigger every day,"
to learn that a machine has been invented
which will give them the finest Roman
form.

It's unkind in people who live in the Sun-
ny South to be sending to their Northern
friends orange blossoms in letters. It's not
only unkind but exasperating to those who
receive them.

While some localities boast of spring bar-
bingers, such as robins, blue-birds, and
grasshoppers, Quincy brags of a cowslip
last week. The cow slipped of the wharf
into the water.

If any one has been in doubt as to wheth-
er cider would intoxicate, he can now lay
such doubt aside, as the Legislature of
Maine has decided the question by an
amendment to the prohibitory law, which
includes all cider and wine among intoxica-
ting drinks.

Local Notices.
