ROBBERY .- A few days ago a robbery was committed at Cherrytree, as is alleged by one Mullen, who immediately disappeared. A warrant was issued by Justice Beveridge, of Rouseville, for his arrest, and placed in the hands of Constable Fetterer, for service. Mr. F. was in town, night before last, and proceeded to those places of pleasure where Cherrytree sports most do congregate, in search of Mullen, and new comes the romantic portion of the story .-Constable F. was not dressed very well, and s spon entering a "free and easy" at the upper end of the street, encountered an indiidual who undertook to "take him is for a fi st." The game proceeded for a few mon eats, until officer F. accidentally discover ad that the would be sharper was the very m to be wanted, and it was but the wo moment to "clap the irone on his wrists." When Mullen found his "jig was up," to sabmitted quietly, and was removed to Rouseville on the next train. It will probably be some time before he will have a chance to "pick up a sucker" again, and is will not be officer Fetterer elther.

Pleasure lovers will remember that the great actor, Edwin Adams, appears at the the Academy of Music, Oil City, this even-

Oil Inspection Bill Defented.

A telegram from Harrisburg says the Inspection Bill is defeated, which is considered as another plank draws from under the tottering South Improvement Company.

We feel sure our liberal minded people will not forget the Donation Party tendered to Rev. Schofield, pastor of the M. E. Society, at the Central House, to morrow evening. Among the novelties will be a prize cake. Refreshments will be served up during the evening. Let the members and triends of that society show their appreciation of the efforts of their paster to do good by donating liberally of their plenty in his

A jilted lever in Mobile, Alabama, stole the presents be had given the fickle fair one while she was being married to his successful rival. He la in jeil.

By the following, which we copy from the Cleveland Herald, it will will be seen that that city is reaping a just reward for the part her citizens have taken in the wicked monopoly that sought to ruin this region. We pity the poor laborers, and only wish the punishment had fallen on Rockateller, Waring, and others of that lik:

Judging from a New York dispatch it would seem the railroad companies had withdrawn from the geat oil combination. Uniform rates been bave established for the transportation of oil, and no advantages, either in reduced rates drawbacks, or in any other way, are to be given to any shipper or combination of shippers. That peint having been reached, and the monopoly of the oil trade effectually prevented, it is to be hoped some way will soon be found for a settlement of the existing difficulties and the termination of a quarrel that has embarramed an important branch of trade. caused already the loss of hundreds of thousands of dollers, thrown thousands of persons out of employment in the winter, and caused suffering and distress in bundreds of families. The stoppage of the refineries here and at other points has caused serious loss among the producers, but the heaviest losses have fallen on the re-Saing points themselves, where the branches of industry connected with the oil business were suddenly paralyzed, and bun dreds of families dependent on daily wages for their daily bread found themselves, without warning, face to face with want. We have beard pitiable tales of distress in this city, caused by the sudden and almost simultaneous stoppage of the refineries, and the worst, we fear, is yet to some, as on the first of April some refineries yet running will extinguish their fires-

If there is any way in which this quarrel can be adjusted to the satisfaction of all parties, and some employment found for the men thrown on their resources, and who are now without any, we hope it will be adopted without delay. Every 'day adds to the difficulty of settlement and increases the distress that cannot much longer be suffered to exist without danger.

Tta world-renowned actor, Edwin Adams, as Enoch Arden, at the Academy of Music, Oll City, March 28th. Special train will return from Oil City after the perform,

At the unfortunate Red River military expedition, toward the close of the war, a cavelry soldier about twenty years old in the vigor of bealth, was thrust clear through his body by a broad-sword in the band of a mounted enemy. The sword entered just in front of the short ribs of the right side and came out opposite, close to the spine; and what was most remarkable, he declared be did not feel its entrance, but when the fellow drew it out it gave bim some pain. He was considered mortally wounded. But neither bleeding nor-dying, as the surgeons expected, be was transported to a hospital in New Orleans, where in a few months be was perfectly well. A question came up in the circle of surgeons how he escaped so miraculously. Scientifically considered, the bowels must have been out through in several places, and arterful twigs, incerated by dozene. The latest theory was this, viz. that neither intestines nor blood-vessets were wounded. For a wonder, the sharp blade sild through between the tubular colls without injuring anything but integuments, front and rear, and piercing the lumber muscles. When these bealed the patient was as good as new. That fest repeated ten millions of times might not que ceed again.

Police. - Dennis Baine, got drunk yestime of insulting respectable ladies at the upper end of the street. After indulging in this tun for a time, officer McHugh ap peared on the scene and undertook to arrest Dennis, who resisted and "went for" Me. at a lively rate. After some trouble the belligerent Dennis was conveyed to the lockup This morning be was brought before Justice Reynolds, and upon paying the costs and agreeing to "vamose the ranch" for good, was discharged.

Kitty Lamb, a fair but frail female, proved anything but Lamb-like in disposition. -Yesterday morning she proceeded to the house of one Victoria Williams, and taking forcible possession of the same, proceeded to demolish sundry window panes and articles of bousehold furniture. She was arrested and after a bearing before Justice Reynolds, was bound over in the sum of \$200 to appear at Franklin. The gentle Lamb felled to "put up" the required se ourity and was taken down.

Two old vage, "whose trembling footsteps had borne them to our doors," rested their weary bones on the soft side of a plank at the lock-up, last night. This morning they proceeded on their winding way.

trade with the West Indies, in exporting in New York last fall, and delayed by the lumber and importing sugar and molasses.

It is a source of gratification that the oil men work so barmoniously and determinedly together, against their common enemythe Southern Improvement Company .-When the monopolists attacked the coal, or lumber, or any other interest, the men engaged en such business never were ah e to combine, but were compelled to succumb to. whatever might be required by the soulles corporations. Not so with the oil men .-Wito an energy and spirit unprecedented they rose up in masse, and grappled with th - hydraheaded monster, and already have dealt their enemy powerful blows, and are determined to keep up the battle till the life is out of the corrupt corporation that attempted to destroy the oil business.

A well owned Henry Wachter and others, on the South side of the Clarion, opposite the Grass Fints, has been completed and tarted up at about 100 barrels per day. It is thought its production after the accumulated supply is exhausted, will not sink below a daily yield of 50 barrels.

A well owned Wade, Camp, Peterson Dickey, and others, on the Keating farm, west side of Turkey Run, has been completed. It yielded oil when first commencing to pump at the rate of 65 barrels per day It is thought it will remain a 20 or 25 barrel well .- Oilman's Journal

EXCITEMENT IN OILDOM. - The sympathics of the mass of the people are with the oil producers. The Raftman's Jeurnal, published at Clearfield, in speaking of the present excitement says:

The South Side Improvement Company, a corporation created by the present or a recent Legislature, and, therefore, likely to involve some clever scheme to enrich its cor- | favors with either of toe above houses porators, is creating an immense excitement in the oil regions. Its objects are stated to be "the ruin of producers of petroleum, to enferce a reduction in prices, and so enrich its members," who are mostly capitalists and railway officials. The petro leum-interest is one of the largest and most important in l'empsylvania, and it is to be regretted that the Legislature instead of protecting bas-put it in the power of unscrupulou men. The oil men, however, appear to be confident of an ultimate triumph over the monopolists.

Work at Biyson Run has begun in earnest Eight wagons, last week, took up from Phil lipsturg, the engine and all the materials for putting down a well for James & Crane The rig is up and cittling will soon commence. The first well is on land of J. P. Jones, about one mile up Blyson Run, from where that stream empties into the Clarion river. -[Tidioute Commercial.

A son of Brigtam Young, is responce to a Gentile equiry, admitted that the young Mormon women undoubtedly objected to the fractional busband system; but, be said. "they have to marry somebody, and if they choose a married muo, they save themselves the pang which they would afterwards exterday, and indulged in the pleasant pas- perience if they took a single man, and he married again." There is enough or feminine buman nature in that brief way of putting it to supply the text for a volume of analysis and philosophical reflection. It must be eye, so much nicer to make another woman wild with jeslousy and bumilistion than for any dear creature to experience the process herself.

NOTES OF THE DAY.

In Iowa, a syrup obtained fron black walout trees is said to be much better than maple syrup.

There are about ten thousand school teach ers in the State of Massachusetts, of whom nearly four-fifths are females.

The wife of a policeman, at Lewiston, Maine, died recently on the anniversary of ber birth and of ber marriage.

The town of Alton, N. H., at Its late meeting, passed a vote exempting from taxation for a term of five years any establish, ment that may be erected and put in opera tion in that town for the manufacture . shoes, and also the capital employed. there-

The children of a Sunday School is Virginia City, Nevada, have only just received Buth, Maine, has a large and growing their Christmas presents, purchased for them enow bleckade.

How Things are Working Congress Heard From.

The opposition to monopoly swindlers, inaugurated by the people of the Oil Region is bearing good truits.

The Congressional Committee on Commerce have taken the Southern Improvement Company in hand, and will shake up the monopoly lively. In addition as will be seen by the following disputch, a bill has already been introduced into the Houre of Representives, by Mr. McCreary, of Iowa, to provide for uniform rates of cherges for freights and passengers by ratiroad companies, and to prevent unjust discrimations on commerce. The following dispatch from J. H. Marston, E-q., a member of the committee from the Oil Region to confer with the committee on Commerce, is a cheering sign indeed.

WASHINGTON, D. C., March 25. To WM. M. WILLIAMS, Esq.

We had a satisfactory interview with the Committee on Commerce to-day. Bill to provide for uniform rates of charges for freights and passengers by railroad companies, and to prevent unjust discrimination on commerce, was offered by Mr. McCreary, of J. H. MARSTON.

The world-renowned actor, Edwin Adams, as Enoch Arden, at the Academy of Music, Oil City, March 28th. Special train will return from Oil City after the perform-

Another Valnable Invention.

CATE'S BACK-SUCTION PREVENTOR FOR OIL WELLS, patented August 15, 1871, which entirely prevents the ingress of air in oil wells, while the tabing is being drawn. It is a well known fact to oli operators, that upon wells where Gas Pumps tre used it is necessary to preserve as nearly a perfect vacuum as possible, and that no air should be lot into the well, at any time, when it can possibly be avoided; consequently, whenever the tubing is drawn form a well it is the cause of great injury to it, as the stuffing box, being then necessarily opened, the air immediately rushes back between the tubing and casing, into the well going into the oil rock and gas veins, and cot sequently causin, the oil and gas to rush back to a great distance. So much so, that it almost always takes several days ater pumping is resumed for a well to be brought back to its former condition, and oftentimes it takes several weeks; and quite frequently wells have been almost completely ruined by the air being thus let in while drawing tubing

The BACK SUCTION PHEVENTOR is attached to the staffing box and works in such a way that it completely shuts up the space between the stuffing box and tubing so effectually that not a perticle of aircan get through at any time while the tubing is being drawn and replaced. It supplies a want long felt, and is, without question, one of the most valcable inventious of the day, to those eng ged in the oli business. No well should be without it, as it often times saves ten times its cost by once using.

It is manufactured at the FOUNDRY AND MACHINE SHOP of ANDREWS & CO. TIDI-OUTE, PA., and for sa e by Hardware Dealers. Tidioute, Pa., March 18, 1872 -taw 3m.

CATES' BACK SUCTION PRE-VENTOR.

"Imiumpu, Feb. 8, 1872

TRIUMPN, Feb. 3, 1872.

Masses. Andrews & Co.—Gentlenen:—Having used one of CATES' BAUK SULTION PRE ENTOHS, I can confidently recommend the same to all who have occasion to use the same, as the best Preventor of Hack Suction on Oil Wells. Our well was so small that it haraly paid to ron it. After putting on one of CA-ES' BAUK SULTION PRE VENTURS the production was increased to a good paying well. Becore we put the Back Saction Preventor on the well, we invariably had to pump the well two weeks before we could restore it to its former production after drawing tubing. It his is entirely obviated by the use of the Preventer.

HART, PERKINS & Co.

TRIUMPH, Jan. 3d, 1872.

MESSERS. ANDREWS & CO.—HENDING thoroughly fested the utility of CATES BACK SUCTION PHEVENTOR, we consider them one of the most useful inventions ever made for oil wells, and we think we are expalsh of judgi g of them, having three on our wells. We can now daw t bing, and when they are replaced the wells produce the same as before drawing, thus showing that the Preventer effectually prevents all ingress of air.

Yours respectfully,

Bacon & Higher.

MESSARS ANDREWS & CO.—GENTS:—This is of certify that I have used one of CATEN BACK SECTION "REVENTORS, on the Lee & Hi hland Lease. Economite Hill, and would not do without it at any price, as it will do all and more than it is recommended to do. nd I can cheerfully recommend I to all Oil Operators who have any Back Suction Wells.

Yours, &c., Jour Myrns.
