[From the Aldine] Water Ballad.

S. T. COLERIDGE.

"Come hither, gently rowing,
Come, bear me quickly o'er
This stream so brightly flowing,
To yonder woodland shore.
But vain were my endeavor
To pay thee, courteous guide;
Row on, row on, for ever
I'd have thee by my side.

"Good boatman, prithee haste thee,
I seek my fatherland!"
"Say, when I there have placed thee,
Dare I demand thy hand?"
"A maiden's head can never
So hard a point decide;
Row on, row on, for ever
I'd have thee by my side."

The happy bridal over,
The wanderer ceased to roam,
For, seated by her lover,
The boat became her home;
And still they sang together,
As steering o'er the tide,
"Row on through wind and weather,
For ever by my side."

DOUBLE TRACK.—Work has been commenced at Harborcreek, to build a double track joining the one between this city and that place, to Westfield, Chautauque Co., N. Y. The distance to be built is twenty-one miles, for which Mr. Dawson, an experienced builder, has the contract. There is such an immense amount of traffic on the Lake Shore & Michigan Southern R. R., that double tracks are an imperative necessity and the Company have already a large portion of their line double tracked. It is one of the best managed and best paying railroads in the country.—[Erie Dispatch.

"CAN'T DO WITHOUT IT"—This is what the stage and horse car companies, livery stable keepers, members of the turf, and all grooms and trainers say of the Mustang Liniment. They "can't do without it."—And why? Because it infallibly produces the external swellings, &c., which, under various names, impair the usefulness and value of the king of quadrupeds, and also because, for sprains, strains, galls and other injuries to which horse flesh is liable, it is the most trustworthy preparation in the market. Yet these recommendations comprise only a portion of its claims to public confidence. During a period of more than sixteen years, it has been recognized as a specific for many of the most agonizing disorders which afflict the human family—such as rheumatism, gonorrhea, lumbago, tic d'oreux, sore throat, earache, toothache; and likewise as a peerless application for cuts, bruises, burns, and scalds.

Women telegraphers in Baden do not seem to meet public expectation. Carefully selected young women were, a few days since, placed in charge of the offices under that Government, and it was not long before unaccountable delays began to be observed in the transmission of messages. It has just been discovered that the operators have made it their regular practice to defer any petty dispatches about matters of State or business until they had finished sending each other glowing accounts of parties and crosses and delicious bits of gossip. The result is that the powers that be have ruthlessly dismissed the fair offenders and reinstated the old employees.

News from the vessels of the seal fleet indicate that the catch is a failure this season. The bulk of the "catch" usually goes direct to Europe, and the loss of thirty or forty thousand barrels of oil will be severely felt and will probably create an active demand from the United States to supply the demand, which will affect the values of low priced oil. The light stock of nearly all kinds of cheap oils would also stimulate an upward movement should an export movement set in. Seal oil is the principal rival of whale oil, and hence the dealers in the latter article look for an activity in the market.

Considerable excitement exists among the sportsmen of the country, over the report that the famous English race horse Sterling, said to be the fastest horse in the world, is at last to be shipped for this country, and entered for the Monmouth cup at Long Branch this season. His competitor will be Mr. Harper's Longfellow. The heat is to be two miles and a half, and will probably be run on the Long Branch course.

Mrs. Ellen Sargent, a mill operative, committed suicide at Newport, N. H., on Wednesday night, by taking morphine. She left the following note: "Father forgive me and forget that you ever had a daughter. [Signed.] ELLA. Text for my funeral: 'Judge not that ye be no judged.'"

THE OIL MARKETS. BY P. & A. TEL. LINE.

ANNOUNCEMENTS.

COUNTY COMMISSIONER.
ED. REYNOLDS.—Please announce H. B. HIXON, of Cornplanter Township, as a candidate for County Commissioner, subject to the usages of the Republican party at the primary election. MANY VOTERS.

PROTHONOTARY.
Mr. Emron.—Please announce the name of SAMUEL REYNOLDS, of Petroleum Centre, as a candidate for the Office of Prothonotary of Venango County, at the ensuing Republican primary election. We believe Mr. R. would fill the office with entire satisfaction to all. Many Voters.

J. J. HAIGHT, of Pleasantville, Pa., late Capt. of Company "B," 11th Penn'a Vet. Vol. Infantry, will be a candidate for the office of Prothonotary, of Venango county, subject to the usages of the Republican party, at the primary election.

F. W. HASTINGS, of Franklin, is a candidate for the office of Prothonotary of Venango County, subject to the decision of the Republican party, at primary election.

REGISTER AND RECORDER.
CORNER PLANET, March 23d, 1872.
EMRON DAILY RECORD.—You will please announce that JAMES W. SHAW will be a candidate for re-nomination for the office of Register and Recorder at the ensuing Republican Primary Election.

Mr. Shaw was a private in the Army of the Union and lost his right arm in our own State at the battle of Gettysburg. He is competent, prompt and obliging, and has given entire satisfaction to the business public as an officer. Therefore having been disabled in the service of our country, but being well qualified for the position, and having the confidence of the business public and community at large as an officer, his re-nomination will be urged at our Primary Election on the day of next VENANGO COUNTY.

Another Valuable Invention.

CATE'S BACK SUCCTION PREVENTOR FOR OIL WELLS, patented August 15, 1871, which entirely prevents the ingress of air in oil wells, while the tubing is being drawn. It is a well known fact to oil operators, that upon wells where Gas Pumps are used it is necessary to preserve as nearly a perfect vacuum as possible, and that no air should be let into the well, at any time, when it can possibly be avoided; consequently, whenever the tubing is drawn from a well it is the cause of great injury to it, as the stuffing box, being then necessarily opened, the air immediately rushes back between the tubing and casing, into the well going into the oil rock and gas veins, and consequently causing the oil and gas to rush back to a great distance. So much so, that it almost always takes several days a ter pumping is resumed for a well to be brought back to its former condition, and oftentimes it takes several weeks; and quite frequently wells have been almost completely ruined by the air being thus let in while drawing tubing.

The BACK SUCCTION PREVENTOR is attached to the stuffing box and works in such a way that it completely shuts up the space between the stuffing box and tubing so effectually that not a particle of air can get through at any time while the tubing is being drawn and replaced. It supplies a want long felt, and is, without question, one of the most valuable inventions of the day, to the engaged in the oil business. No well should be without it, as it often times saves ten times its cost by once using. It is manufactured at the FOUNDRY AND MACHINE SHOP OF ANDREWS & CO., TIDIQUETE, PA., and for sale by Hardware Dealers. Tididoute, Pa., March 28, 1872.—law 8m
