Boston Jubilee Notes.

The Boston Commercial Bulletin says: "We are enabled to give, in advance of our contemporaries, some important features of the great programme now in course of preparation. The information is exclusively our own; and if events do not confirm its correctness, it will be owing to the fact that the Committee of Arrangements don't see it in the light that we do, or, perhaps, because of our enterprise in discovering these details before themselves. The musical instruments thus far decided upon as admissible make a necessarily incomplete list. China, Alaska, and Abyssinia are yet to be heard from. We can, however, say that—The Anvil and Accordeon will play a joyous tune, With Bugle, Bagpipe, Bango, Bones and belowing Bassoon; When Clarionet and shrill Cornet and Concertina wail, And distant Drum and Dulcimer in discord swell the gale; Aolian Harps take up the strain, Electric Cannons boom, And Flute and Fife and Flageolet and furious Fiddle fume. The Gongs and Guitars squeak, The Harps and Hautboys blow, The gentle Jewsharps shriek, And the Kettle-drums play solo, The Lute and Lyre sail in, And the musical Mandolin. Naked and Naked and Nebiloth swell the din. The Organ and Organ and the Ophicleide accord—Piano, Pibroch, Psaltry will pipe a pentachord; The Quintette Club will quaver strong, Rebeck and Reed will lift a song, Spinet and Saxhorn will keep the strain along. While trombone, Tom tom, Tamborine and Trumpet swell the throng.

Wales, Fuzgo, Hawaii, Kaffaria, And the back Provinces Come in here.

FOUNDED ON A ROCK!—The disappointed adventurers who have from time to time attempted to un their worthless potions against Drakes Plantation Bitters, vow that they cannot understand what foundation there is for its amazing popularity. The explanation is simple enough. The reputation of the world renowned tonic is founded upon a rock, the Rock of Experience. All its ingredients are pure and wholesome. How, then, could tricksters and cheats expect to rival it with compounds of cheap drugs and refuse liquor, or with liquorless trash in a state of acetous fermentation? Of course the charlatans have come to grief. Their little game has failed. Their contempt for the sagacity of the community has been fitly punished. Meanwhile Plantation Bitters seems to be in a fair way of eventually superseding every other medicinal preparation included in the class to which it belongs. In every State and Territory of the Union it is, to-day, the accepted specific for nervous debility, dyspepsia, fever and ague, rheumatism, and all ailments involving a deficiency of vital power.

The fire department of Oil City is again completed.

ANNOUNCEMENTS.

COUNTY COMMISSIONER.
FD. RECORD.—Please announce H. B. HIXON, of Cornpluter Township, as a candidate for County Commissioner, subject to the usages of the Republican party at the primary election.
MANY VOTERS.

PROTHONOTARY.
Mr. EDITOR.—Please announce the name of SAMUEL REYNOLDS, of Petroleum Centre, as a candidate for the office of Prothonotary of Venango County, at the ensuing Republican primary election. We believe Mr. R. would fill the office with entire satisfaction to all.
Many Voters.

J. J. HAIGHT, of Pleasantville, Pa., late Capt. of Company "B," 11th Penn'a Vet. Vol. Infantry, will be a candidate for the office of Prothonotary, of Venango county, subject to the usages of the Republican party, at the primary election.

F. W. HASTINGS, of Franklin, is a candidate for the office of Prothonotary of Venango County, subject to the decision of the Republican party, at primary election.

REGISTER AND RECORDER.

CORNPLUTER, March 29th, 1872.
EDITOR DAILY RECORD.—You will please announce that JAMES W. SHAW will be a candidate for re-nomination for the office of Register and Recorder at the ensuing Republican Primary Election.

Mr. Shaw was a private in the Army of the Union and lost his right arm in our own State at the battle of Gettysburg. He is competent, prompt and obliging, and has a vast entire satisfaction to the business public as an officer. Therefore having been disabled in the service of our country, but being well qualified for the position, and having the confidence of the business public and community at large, as an officer, his re-nomination will be urged at our Primary Election on the 5th of May next.

Another Valuable Invention.

CATE'S BACK-SUCTION PREVENTOR FOR OIL WELLS, patented August 15, 1871, which entirely prevents the ingress of air in oil wells, while the tubing is being drawn. It is a well known fact to oil operators, that upon wells where Gas Pumps are used it is necessary to preserve as nearly a perfect vacuum as possible, and that no air should be let into the well, at any time, when it can possibly be avoided; consequently, whenever the tubing is drawn from a well it is the cause of great injury to it, as the stuffing box, being then necessarily opened, the air immediately rushes back between the tubing and casing, into the well going into the oil rock and gas veins, and consequently causing the oil and gas to rush back to a great distance. So much so, that it almost always takes several days after pumping is resumed for a well to be brought back to its former condition, and oftentimes it takes several weeks; and quite frequently wells have been almost completely ruined by the air being thus let in while drawing tubing.

The BACK-SUCTION PREVENTOR is attached to the stuffing box and works in such a way that it completely shuts up the space between the stuffing box and tubing so effectually that not a particle of air can get through at any time while the tubing is being drawn and replaced. It supplies a want long felt, and is, without question, one of the most valuable inventions of the day, to those engaged in the oil business. No well should be without it, as it often saves ten times its cost by once using. It is manufactured at the FOUNDRY AND MACHINE SHOP OF ANDREWS & CO., TILDEN, PA., and for sale by Hardware Dealers.
