Gold at 1 p. m. 114

### Cash Up and Pitbole.

Cash Up is very quiet at present its glory  
having departed for parts unknown. One  
well, owned by Wallace & Chase, lately put  
down, is doing twenty barrels daily. On  
the Krantzer lease, Phillips Bros. have sold  
their interest to Boyles Bros. & Leslie  
Bros. The Twill wells are doing about 20  
barrels. The famous McLaughlin well, the  
wonder of the entire region at the time it  
was struck, and which yielded as high as  
1,200 barrels daily, is at present pumping  
18 to 25 barrels daily. The entire number  
of wells pumping in the Cash Up district is  
forty-six, and the total daily production by  
actual gauge is 175 barrels. No new develop-  
ments.

Pitbole has considerable life yet. Mur-  
phy & Norton have their hardware store  
and machine shop all under one roof on  
Holmes street, and are doing a good busi-  
ness. Mine host Bradley has got the Dan  
forth House in good shape and gives good  
entertainment. Justice Keenan is dealing  
out justice as of old, and the police as usual  
are on the alert. The fire that crossed the  
Rooker farm, burnt a tank of oil and a  
couple of rigs for Phillips Bros. On the  
Webster tract different parties are busily  
engaged in putting up rigs and boring for  
oil. Near the Catholic Church building,  
on the Morey farm, Fenton, Haskell & Co.,  
have three wells doing 90 barrels daily. N.  
Parkinson's wells are doing 40 barrels. Kelly,  
Beebe & Co., are testing a well which has  
a fine show. Tadder, Rhoades, Day, and  
others, are drilling. The summer season  
promises to be a little more lively than  
usual in that locality.

The following notice was posted up on  
Saturday in the rooms of the Oil City Oil  
Exchange:

"Business suspended between the hours  
of 2 and 5 o'clock, as all members wish to  
attend the 'Horse Opera.'"

"Which the same" meant, we suppose,  
that they wanted to go to the Circus.

"Gentle Spring rains are falling fast,"  
to-day, causing nature to present a beauti-  
fully fresh and green appearance.

### CHARITY.

This virtue can have no better illustration  
than that given by our Saviour, who, when  
the woman caught in adultery was brought  
to him condemned her not, but bid her sin  
no more.

Her wailing excellence is that it thinketh  
no evil. It is ever ready to do a good turn,  
to afford relief, and to encourage to a better  
life and a more worthy discharge of duty.

Quiet and self denying it is never meddling,  
some or officious. Sham and Cant are abhorred.  
Its admonitions and chidings are  
gentle and kind to all.

Were this virtue the rule and not the ex-  
ception among mankind, and if, like  
the violet, it were seen on every side of our  
daily walks, instead of the exotic that it is,  
then our world would be a garden more  
beautiful than the Eden that the poetry of  
the past has painted, and as much more  
happy as it is more populous and intelli-  
gent.

The following resolutions were passed at  
a meeting of Liberty Lodge No. 7, A. O.  
of U. W., of Petroleum Centre, and would  
have appeared before but were mislaid:

Whereas, It has pleased the Master Work-  
man, whose "mysterious ways are past our  
comprehension," but who "doeth all things  
well," to remove from our midst our beloved  
brother, W. D. BOULTON, of Columbia  
Farm; therefore—

Resolved, That in his death this Order  
has lost an active member and one who was  
ever ready to extend a helping hand to a  
brother; community has lost a true Chris-  
tian man, while his relatives and friends  
mourn for one whose many good traits of  
character won the love and respect of all.

Resolved, That the usual badges of mourn-  
ing be worn by this Lodge; that this pre-  
amble and resolutions be inscribed on the  
minutes, and a copy forwarded to our de-  
ceased brother's relatives.

Resolved, That these resolutions be pub-  
lished in the DAILY RECORD,

A. KLECKNER,

JNO. WADDELL,

JAS. H. MERRILL,

Committee.

A large number of "the boys" attended  
Old John Robinson's Circus, at Oil City, on  
Saturday evening. The performance is  
said to have been excellent. Oil City ben-  
zine proved too much for some of those who  
attended, consequently there was lively  
times "coming up on the train." Several  
of the Rousseville men wanted to fight, and  
on one instance one of them was accommo-  
dated with a bloody nose and a cowhead  
over his eye. Early yesterday morning  
pitiful sights were witnessed—the victims  
with wet towels wrapped around their heads,  
engaged in cursing the day they attended  
the circus at Oil City.

**NEW WELL AT FRANKLIN.**—We heard a  
new well was struck on the Galloway tract,  
at Franklin, on Saturday last, which started  
up at the rate of 124 barrels per day of  
lubricating oil. It is owned by A. G. Eg-  
bert and E. Taft, of Franklin.

Oil has been struck at Osage Mission,  
Kansas, at a depth of ninety feet, and a  
company organized with a capital of \$150,-  
000 to prosecute the oil business.

Among the list of patents granted for the  
week ending May 14, 1872, and each bear-  
ing that date, is one to our townsman, Mr.  
H. Freeman, for a Safety Derrick Lamp.

The graves of the dead heroes of the late  
war will be decorated in different sections of  
the State on decoration day, May 30th.

### NOTES OF THE DAY.

The Mormons of Salt Lake oppose all  
sorts of liquor laws, and grumble much at  
Uncle Sam's exactions on whiskey.

Encouraging reports have been received  
at San Francisco, of silver mines in Beaver  
county, in the southern portion of Utah.

A very amusing book might be made of  
the letters attributed to Mr. Greeley which  
are floating through the press—if it included  
the genuine ones.

The Coliseum building, at Boston, will,  
it is expected, be finished at least two weeks  
before the date fixed for the Peace Jubilee.

Cincinnati is said to be the most densely  
populated city in the United States, having  
36,000 people to the square mile, while  
New York has but 23,000.

Nebraska temperance men are throwing  
cold water on the Legislature because a peti-  
tion about a liquor law was referred to the  
committee on highways and ferries.

A Kansas crack marksman was lately ac-  
quitted on a charge of assault with intent  
to kill by showing in the back yard that if he  
had fired at a man intending to kill him, he  
would surely have done it.

The other day a man named Jones shot  
a man named Clyde, upon the grounds, we  
believe, that the latter was his father-in-  
law. As Mr. Clyde was only the stepfather  
of Madame Jones, the act has the appear-  
ance of unjustifiable homicide.

### SINGULAR AFFECTIONS OF THE GIRAFFE.

—The Turf, Field and Farm says: "The  
giraffe in Barnum's menagerie shows won-  
derful affection for its keeper. It will al-  
low no other to handle it, and it grows  
nervous and uneasy whenever the young  
man is away from its side. The keeper  
even has to sleep in the cage with the  
giraffe. It is a handson's cage, and in one  
end of it the young man has his bunk.—  
When the giraffe is lying down, its head  
nestles close to the face of its keeper, and  
thus the two slumber lovingly side by side.  
The young man has had charge of this ani-  
mal only since it landed in this country—  
some six weeks ago. It is a male, three  
years old, and as the female which started  
with it was lost in the voyage across the  
Atlantic, the affection once reserved for the  
dead mate seems to have been transferred to  
the man who first received and carried it  
on the vessel's arrival in New York. The  
giraffe must naturally be of an affectionate  
disposition, or it would scarcely have be-  
come so fond of a human being in so short a  
time after leaving its native wilds."

The New York Tribune publishes the fol-  
lowing remedy for diphtheria, which accord-  
ing to the testimony of a number of promi-  
nent physicians, is an almost certain cure:  
Swab the back of the mouth and throat  
thoroughly with a wash made of table salt,  
two drachms; black pepper, golden seal,  
nitrate of potash, alum, one drachm each.  
Mix and pulverize, put into a tea-cup,  
which half fill up with boiling water, stir  
well and then fill up with good vinegar.  
Use every half hour, one, two and four  
hours, as recovery progresses. The patient  
may swallow a little each time. Apply an  
ounce each of spirits of turpentine, sweet  
oil and aqua ammonia; mixed, to the whole  
of the throat and to the breast bone, every  
four hours, keeping flannel to the part.

Horace Greeley has withdrawn from the  
Tribune so far as conducting or supervising  
its editorial columns.

A number of ruined cities, many of them  
never visited by Europeans before, and  
quite unknown even by name, have lately  
been discovered in Moab. They, generally  
contain ruins of great temples and also of  
Christian churches.

A gentleman wants to back John Deery  
at billiards against Goldthwaite, Foster,  
Gardner, Daly, Joseph and Cyrille Dion,  
690 points three ball caroms, for \$250  
a side on each game, play or pay, and  
all to be played in New York City.

A fishing expedition recently discovered  
a hut built by the Dutch explorers in Nova  
Zembla, in 1596, and a great variety of ob-  
jects of interest, among other things books  
which, after nearly three hundred years are  
in good preservation. The collection is  
to be placed in the museum at Amsterdam.

Jupiter, the monarch of the solar system,  
now reigns supreme in the western sky dur-  
ing the evening. He can be found in the  
constellation Gemini, a little to the south-  
west of the two brightest stars of that cluster,  
Castor and Pollux. The planet Mars,  
whose ruddy light has so long decked the  
western heavens, is now lost to view, as he  
sets with the sun.

The Mace-O-Baldwin light is finally fixed  
or August 15th. Mace goes to California  
to train. O'Baldwin trains at Pittsburgh.

A Cincinnati paper describes the pattern  
of a Dolly Varden as "red floss rhinoceros-  
suiting up to a black satin morose."

Visitors to a Springfield school found  
thirteen pupils in their seats and nine mud-  
turtles crawling around the room.

Boston is in a state of terrible discor-  
d preparatory to the Grand Jubilee, which it  
is to be hoped will be the occasion of com-  
plete harmony if such a thing is mentally  
or morally possible in the midst of so  
many thousand performers. Just now, one  
writing from the city cries out in horror:

"Tell me, ye raw east winds,

That in this region roar,

Do ye know some spot

Where people sing no more?

Some quiet little place,

Some village in the West,

Where, free from notes and little sticks,

A body might find rest!"

A constant dropping will wear a rock.—  
Keep dropping your advertisements on the  
public, and they will soon melt it like rock  
salt. Quitting advertising in dull times is  
like tearing out a dam because the water is  
low. Either plan will prevent good times  
from ever coming.

Walther, the engineer who was so serious-  
ly injured in the A. V. R. R., accident  
near Scrubgrass last winter, has entirely re-  
covered and is now running his engine, the  
one that carried him over the bank, draw-  
ing the Kittanning accommodation.

Boston proposes to establish a narrow  
gauge railway to Revere and Lynn beaches,  
a few miles from the city.

### SOBEL & AUERHAIM—DRY GOODS, &C.

# 1872. NEW GOODS! 1872. NEW GOODS.

Important to our Patrons and the public at large!

## SOBEL & AUERHAIM,
