We notice several detectives from abroad
in town to-day, accompanied by the chief
of police of Franklin. Rumor has it that
a safe was "cracked" in Franklin, night be-
fore last, and a considerable amount of
money abstracted. The detectives, how-
ever, were reticent with regard to the affair
and no particulars could be learned.

Thomas Malloy and Dutch Henry, two
distinguished citizens who have been res-
taining in Franklin for the past thirty days,
returned to town yesterday. They celebra-
ted their return in the good old way by im-
bibing vast quantities of liquor, in conse-
quence of which Thomas rested his weary
bones in the lock up.

Carver and Dixey's Minstrels performed
to a full house, at Sobel's Hall, last night,
giving a first class entertainment in every
respect. The quartette sang several new
and beautiful pieces of song music. The
burlesque entitled "Glimore's Jubilee," in
which the wonderful Eugene impersonated
the prima donna; Frank Moran as Glimore,
and Unsworth in his Bassoon Solo, was
well executed and elicited much merriment,
as also did Unsworth's stump speech. On
the whole the troupe is one of the best that
ever visited this region, and they can al-
ways rest assured of a hearty welcome from
amusement lovers hereabouts.

We are requested by Justice Reynolds
and Constable McHugh, to warn all persons
not to sell or give away ardent or malt
spirits, under penalty of prosecution to the
full extent of the law, to the following per-
sons:

Thomas Malloy, Dutch Henry, Kuhn.

The authorities are determined to put a
stop to the selling of liquor to men of known
intemperate habits, in which they are right

FIRE.—An engine house at one of the
wells on the Niagara Farm, was destroyed
by fire, yesterday forenoon. The loss is not
heavy, and falls on Boyles & Leslie, owners
of that farm.

Sale of unseated lands for Venango Coun-
ty, takes place at Franklin on Monday
next.

CHERRYTREE NEWS.—Our Cherrytree
correspondent, Novice sends us the follow-
ing news, which we have to condense on ac-
count of its late reception: On Sunday last
the engine house at the Stewart well, No. 1,
Potts farm, took fire from the gas. All at-
tempts to arrest the flames were in vain.—
The engine boiler soon exploded with terrific
force. Pieces of it were blown 50 and 60
yards, and burning boards flew into the air
like skyrockets. The concussion was so
great that it burst open the doors of a
boarding house near by and threw some of
the inmates to the floor. A small tank, con-
taining 35 barrels of oil, was totally de-
stroyed. Fortunately no person was injured.
Loss, \$1,700. Mr. A. Pierce had two head
of young cattle killed by lightning on the
20th of May.

The well on the Strouse farm, 2 miles
south of Titusville, is a dry hole. The rig
on the John Irwin farm is being moved a
few rods northward of the dry hole over
which it stood.—[Venango Spectator.

Several days ago the owners of the Boyd
farm bridge over Oil Creek, discovered that
the Petroleum Centre end of the structure
was caving in. No particular danger was
apprehended until this morning, when the
bridge tender noticed that the under sills or
sleepers had spread apart nearly a foot, and
that it was not safe to allow teams to cross
over it until repairs had been made. With
that accustomed energy characteristic of
him, Road Commissioner McHugh immedi-
ately set a gang of hands at work repairing
the public portion of the work. The
bridge will only be closed a few days.

Lumber is on the ground for one or two
wells, to be drilled in the vicinity of the
new Bronson well, on Oil Creek, a short
distance above Miller Farm.

We are forcibly reminded of the near ap-
proach of Independence Day, from the vast
quantities of fireworks of every description
to be seen at Schonblom's lower store.

"Lamb chops" with an alias are growing
in favor among "the boys" at present.—
Jinks says they are good.

Mr. C. Pfeffer has opened a new boot and
shoe store, in Plante's old stand, on Wash-
ington street, and is prepared to attend to
the wants of the public in that line. Give
him a call.

Horace Greeley, in his "Essay on Farm-
ing," says that the only way to effectually
destroy "widow's weeds," which seem to
thrive in some kind of soil, is for the hus-
bandman to say, "Wilt thou?" They gen-
erally wilt.

To-day will be the anniversary of the first
session of the American Congress at New
York in 1775.

Mothers are reminded that the present
style of sharp boot heels is dangerous for
small children. Try the palm of your hand
or a shingle.

The Clarion county jail is not a popular
institution. Two of the boarders lifted a
cell door off the hinges and departed one
day last week.

Knights of the Fish-pole assert that the
fishing hereabouts is very satisfactory.

The Sabbath School Convention of the
Oil Creek Baptist Association met in Erie
on Tuesday, continuing in session two
days.

A woman named Brown was found in a
barn in Corry on Saturday last in a deathly
stupor. She was finally restored and a bot-
tle half-filled with laudanum was found by
her side. Jealousy was the cause of her
attempted suicide.

Barnum will delight the Corryites with
his great show to-morrow.

Over twenty thousand people paid tri-
bute to Barnum in Pittsburgh on Friday
last.

A very extensive oil fire occurred near
Pittsburgh on Monday. It consumed the
Crescent oil refinery and a paper roofing
establishment. Loss thirty thousand dol-
lars; insurance twelve thousand dollars.

An Erie lady gave a burglar a very severe
flogging with a dust brush the other night.
She said she wouldn't have done it if she
hadn't been under the impression that it
was her husband just getting home.

The Government of Sweden offers a prize for
the best essay on the means of preventing
the emigration of the rural and laboring
classes from that country.

We like to get hold of a really pathetic
occurrence even though we have to go as
far west as Wisconsin for it. A Madison
paper tells how a green couple from a coun-
try town in that State made a mis of their
honeymoon in this wise: After seeing the
minister, John and his bride, who had respec-
tively been out of sight of home before, took the
cars for Chicago. They went to a hotel,
and leaving her in the parlor, John went
out to view the ruins. He got lost, and, not
knowing the name of his tavern, wandered
about disconsolate. As night came on he
was in despair, and after wandering about
for a time, the fear of being arrested as a
vagrant, and having to pass the night in a
station, so affected him that he made his
way to the depot, took the eleven o'clock
train for Milwaukee, and the next day reach-
ed home a bereaved and disconsolate indi-
vidual. The girl was sensible, and after
shedding a few tears, called for a room, re-
tired and enjoyed a good night's rest. The
next day she waited till the afternoon train
and got home that night. John had faith
that she would return, and was at the depot
on the lookout. The train stopped, they
rushed into each others' arms, and in their
present bliss forgot all the woes of the past.
John says he might be married forty times,
but he will never go on another wedding
"tower."

The record of the fall of snow last winter,
near the line of New Hampshire and Maine,
shows that the aggregate was nine feet and
two inches. The largest fall in one day
was eighteen inches. Twice during the
winter a foot of snow fell, but there was
many storms when from four to eight inches
fell.

The newly invented words have recently
made their appearance—"additionable" and
"paragrams." The former was used by
Lord Granville, the British Secretary for
Foreign Affairs, in a speech, in the House of
Commons, on the Alabama claims, and the
latter is the invention of a San Francisco
newspaper editor.

A complaint is made by a Harrisburg pa-
per that there is no shad to be found in the
Susquehanna river, and that no effort has
been made to propagate the fish, although
the river is well adapted for them. A bill
was passed by the Legislature of Pennsylv-
ania provided for the hatching of shad in
the Delaware and Susquehanna rivers, but
the Governor has withheld his signature.

Minnesota papers note the shipment from
Duluth and St. Paul of large quantities of
grain by the Northern Pacific Railroad to
the stations on the Red river of the North.
The section is by competent judges declared
to be the best adapted to produce wheat of
any part of our Continent.

New Orleans is bestirring herself commer-
cially. The various towns and cities of the
States of Alabama, Georgia, Florida, North
Carolina and South Carolina are crowded
with an army of drummers from that city.

The New Zealand Maoris—a warlike,
aboriginal tribe—having satisfied themselves
that the white man's drink has been the bane
and the curse of their country, and that the
love of it has been the cause of their wars
and suffering for years, have determined to
banish it from their midst.

Indianapolis prides itself on the possession
of a veteran razor-grinder, named Daniel
Woods, who is 102 years old. He served
twenty-five years in the English army, and
was one of Napoleon's guards at St. Helena.
He has one hundred and thirty saber cuts
on his body, and eleven bullet wounds.

A new use has been found for the tales or
reed-like vegetation which grows on the
swamp lands of California. It is said to
yield from fifty to sixty per cent. of paper
pulp, equal to that obtained from cotton.

A benevolent person, fresh from a visit to
the pampas of South America, strongly ur-
ges that the New York policemen should be
instructed in the use of the lasso as a means
of stopping and securing runaway criminals.
The plan would hardly answer. The crimi-
nals know the ropes to well.

Shenango Tribe, No. 175, I. O. R. M.,
was organized in Meadville, on Tuesday of
last week, by J. Redman, Great Sachem, of
Pennsylvania. A large number of Improved
Red Men were in attendance from
Titusville, Rouseville, Oil City and Frank-
lin.

NEW WELL AT RENO.—On Saturday last
the Reno Company struck a large well in
rear of the town. It is doing upwards of 150
barrels daily.

Tuesday last was a remarkable cold day.
Until late in the evening a heavy frost and
the destruction of crops was apprehended,
but by ten o'clock the weather moderated so
as to place vegetation beyond serious dan-
ger. It was just thirteen years previous, to
the day, since the great frost that withered
almost everything green west of the Allegh-
eny mountains. That destructive frost oc-
curred on the night of June 4, 1850.

"Be Good to Yourself."

"Good-bye! good-bye!" the driver said,
As the coach went off in a whirl;
(And the coachman bowed his handsome
head;)
"Be good to yourself—my girl!"

Ad! many a fond good-bye I've heard;
From many an aching heart;
And many a friendly farewell word,
When strangers came to part;

And I've heard a thousand merry quips,
And many a senseless joke,
And many a fervent prayer from lips
That all a-tremble spoke;

And many a bit of good advice
In smooth proverbial phrase;
And many a wish—of little price—
For health and happy days;

But musing how the human soul
(Whatever the Fates may will)
Still measures by its self-control,
Its greatest good or ill,—

Of benedictions I protest,
'Mid many a shining pearl,
I like the merry coachman's best—
"Be good to yourself—my girl!"

LASTING LOVELINESS.—Twenty years ago,
when paint, pearl powder and enamel,
were ruining the complexions and destroying
the health of women of fashion, Hagen's
Magnolia Balm was brought out as a pure
botanical cosmetic, guaranteed to restore
bloom and beauty to skin. From that time
to the present has been continually rising in
public estimation as the safest and most un-
exceptionable preparation of its class. In-
stead of producing an artificial metallic sur-
face like the deadly enamels, or whitening
the outside like the poisonous fluids sold
under various names as "beautifiers," it
keeps the skin as soft as velvet, renders it
as smooth and glossy as satin, and imparts
to it that delicate, rosy tinge which is the
beau ideal of complexional loveliness. This
exquisite chromatic effect is not transient.
By applying the Balm daily it may be pro-
longed from youth to age. A lady who
purchased the first bottle of the article nine-
teen years ago, writes to say that her com-
plexion at forty is "purer, clearer and more
brilliant than it has ever been;" and she at-
tributes its beauty solely to the daily use of
Hagen's Magnolia Balm.

NOTES OF THE DAY.

Ye gentle aborigines Settling Bull, Black
Moon, Iron Dog, Iron Horn, Four Horns
and Loog Dog, have declared there shall be
no railroads through the Powder River
Country.

A lady occupied the pulpit and six young
ladies passed the contribution boxes in the
staid and sober old State street Methodist
church, in Troy, N. Y., on Sunday even-
ing.

A barkeeper at Lynchburg, Va., advertis-
es that gentlemen wishing drinks must bring
orders from their wives.

At Dayton, Ohio, a widow announces on
the tombstones of three several deceased
husbands, "We will meet in heaven, hus-
band dear."

Two gentlemen arrived in Council Bluffs,
for the purpose of investing in real estate
there, were arrested the first day (and fined
\$18 for discharging fire arms within the
city limits. They are pleased with the en-
terprise of the city.

The recent copious rains, it is generally
conceded, were worth millions of dollars to
the prospect of a good yield of crops is more
encouraging than ever.

The Mendelssohn Society of Titusville are
practicing for the Boston Jubilee.

SENSIBLE TO THE LAST.—Some Union
soldier of the late war is preparing for the
judgement day in a very appropriate way.
He sent ten dollars to the "treasury to be
added to the conscience fund because he ap-
propriated some sugar and coffee and a pair
of socks while guarding provisions in East
Tennessee. The ten dollars is not worth
half so much as the little homily with which
accompanied it. He says: "I must get
ready for the judgement day, and, although
this act would not be regarded very wrong,
it was the violation of the honor of a soldier.
A government with such a President as we
had then ought to have soldiers that could
be trusted even when they have been hungry
for a long time. I want no shadow on my
soul when I come to the judgement of God."

The House Wife's Comfort!

S. FISHER'S

Renovating Mixture, FOR WASHING & SCRUBBING FUR- TURES.

It washes clean, and gives a very clear and beau-
tiful appearance to the fabric, and will set the col-
or in calicoes. For cleaning grease spots out of
carpets, broad cloths, washing linen and cotton
goods, and for scrubbing it cannot be surpassed.
It saves a large amount of labor, and does away
with scrubbing brushes.
It does not injure the finest texture, for the sim-
ple reason that its affinity is for grease or oil,
changing them to soap, and thus loosening any
substance with which they may be combined.
It is instant death to bed bugs.

Petroleum Centre, June 4, 1872.
Having tried Fisher's Mixture I take pleasure in
recommending it to housekeepers as being every-
thing that is claimed for it. S. REYNOLDS.
