S. H. KOEGER, R.

Gold at 1 p. m. 114 1/4

In another column will be found a call for a Base Ball Meeting, at the old base ball grounds, on the Central Farm near the iron tanks, on Saturday afternoon next. The meeting is called for the purpose of taking measures to organize a base ball club in this place. Nearly all the surrounding towns boast of their ball clubs, and certainly we have as good amateur players here as elsewhere, therefore let our young men not be behind the times but attend the meeting and organize a club by all means.

Those from this place, who attended Barnum's Hamburg, at Titusville, yesterday, are loud in their condemnation of the shabby manner in which they were treated by the managers of this travelling fraud. Last night's train brought home about as tired and worn out a looking lot of mortals as it has ever been our fortune to gaze upon, and many were the "cuss words" indulged in. The only advice we can tender them is to stay at home next time and put their spare change to better use.

Just received at Mease & Armstrong's flour and feed store, a large quantity of those nice Peach Blow Potatoes. The nicest potatoes for family use now in the market. Try them.

Barnum's Circus passed over the Oil Creek Road, about 2 o'clock this morning.

Richard Smick, of Petroleum Centre, was run over by a horse and buggy, at Titusville, yesterday. He was not seriously hurt.

The Oil Creek and Allegheny River Railway Company has reduced the rates of oil from Tidoute to Oil City from thirty to twenty cents.

Union City is to have a grand old fashioned Fourth of July celebration. Music, procession, balloon ascension, artillery practice, fire works, &c.

A fine quarry of lithographic stone has just been discovered in Kentucky, on the line of the Lexington and Big Sandy Railroad. There is but one other similar quarry in the world.

PERSONAL.—Mr. C. S. Morris, recently of the firm of Johnson & Morris, druggists, having disposed of his interest in the business, leaves town to-morrow morning, for his home in Cambridge, Crawford county. During his stay here Mr. M. has made many warm friends, the best wishes of whom will go with him wherever his future lot in life may be cast.

Our young friends, Mr. James McLivain, the gentlemanly book-keeper for Mr. Geo. W. Winsor, and Mr. James Deshier, left town this morning on a pleasure trip to New York City. They also intend visiting Long Branch and other watering places.—We wish them a pleasant visit and a safe and speedy return. No matter how many years may intervene, once in a while the "heart still bends to the good old friends, and the days that shall live no more." May the boys live them o'er again during their absence.

Train 10, freight, which left this place at 12:25 p. m., yesterday, for Titusville, had on board nearly 100 passengers bound to see Barnum. Through a misunderstanding of dispatches the conductor pulled on to the siding a short distance above Shaffer and waited there one hour and forty minutes for the down freight, the conductor of whom was waiting his train at Miller Farm for its arrival. Finally the up freight got started, when to add to the misfortunes of the disappointed circus goers, the engine ran off the track, and delayed them until the 4:40 passenger train which stopped and took them off, too late for the circus, however. If you want to hear a "cussin' of railroads" in general, ask any of the passengers about the scenery around Shaffer, and their trip to see Barnum.

On the 4th day of last March a lodge of the Knights of Pythias was organized at Tarr Farm, which now numbers over 50 members, and is in an exceedingly flourishing condition. It is known as Shaltum Lodge No. 355. A member furnishes us with the following list of officers of the lodge:

- A. B. Mudge, W. C.
 - G. A. Curtis, V. C.
 - A. B. McClintock, V. P.
 - W. J. Stehn, F. S.
 - A. D. Sloan, R. S.
 - J. S. Miller, W. B.
 - Morris Haslan, W. G.
 - Arthur Renick, I. S.
 - Harvey Wright, O. S.
- Trustees—A. L. Johnson, Aaron Brown, D. P. Payne.

The lodge meets Tuesday evening of each week.

F. W. Mitchell, of Rousseville, is the fortunate owner of a new 60 barrel well on the Shaw farm. So says the Oil City Derrick.

Barnum's show cars ran off the track just as they were coming out of the depot at Erie, smashing several cars. The cages containing the happy family and the Sea Lions, were broken up, and several of the Happy Family escaped. The performance at Corry was delayed in consequence of the accident.

Josh Billings says courting, like strawberries and cream, wants to be did slow, then you get the flavor.

The Methodist conference adopted a report prohibiting the members from attending theatres and dancing parties, and also from patronizing dancing schools.

We are indebted to our townsmen, Messrs. S. A. Woods and Frank Ripley, for late copies of the Memphis Avalanche. Thanks.

Several cases of small-pox have recently occurred in the town of Cambridge, Crawford county. The physicians of that place pronounced the disease to be billousness. Must be learned physicians thereabouts.

Last evening commenced the Jewish feast of Shaboth, held in commemoration of the revelation on Mount Sinai.

A mad dog created considerable excitement at Titusville the other day.

The Fourth is to be celebrated at Titusville.

The new iron bridge at Parker's Landing will soon be completed.

Petroleum evidently exists in Lyria.—During the recent earthquake at Antioch it is said that one of the fissures made in the ground yielded "a torrent of black water with an offensive smell." This was doubtless oil.

Our friend Johnson, the genial proprietor of the Petroleum Centre Drug Store, has gone and done it. Nothing serious—only brought back to town a better half. We wish him all the happiness possible, and may no cloud arise to mar the horizon of his wedded life. We prefer ours plain and straight.

We go to press somewhat earlier than usual to allow the boys to go to the circus.

CANADA OIL NEWS.—The present season of the year is generally termed the "dull time" in the oil business. To this is now added the unsatisfactory relations between England and the United States, which in some degree affects the oil market, and has a tendency to check development. However, new ventures are daily being made, and nearly all the drillers in the piece are kept at work.

Several wells, started last week, are being tested. The Gibson well, upon lot 15, Thomas subdivision, was finished on Tuesday, and started pumping on Wednesday, yielding freely, and giving promise of being a fair well. A few other wells on the same territory will be completed next week and tested without delay. The Kennedy & Jeffrey No. 5 is nearly down, and No. 6 is nearly ready for drilling.

In the vicinity of the "Deluge" and "Empire" wells, preparations are lively. Messrs. Johnston, McGarvey & Reynolds have a new rig up; and a little to the south-east Messrs. Hessey, Rosenburg & McGarvey are erecting a rig. To the north, Messrs. J. Clement & Wallen are drilling, and Messrs. Garner & Lawyer are pretty well down. Messrs. Hessey & Craze have moved their rig a short distance to the north-east, and are getting ready for another venture. The Western Company well No. 3 is not completed, owing to a mishap with the tools in the hole. There is a good show, and prospect of a fair well. The rigs for Nos. 4 and 5 are nearly ready. To the west, upon the Graham farm, Mr. Moncrieff's new twin well is down, with a "big show," and will be tested without delay.—[Petrolia Advertiser.]

Oil in Butler County.

The Butler Herald makes the following interesting statement regarding the oil prospects in that county, which contains encouragement for believers in the existence of petroleum in Beaver county. It says: We have heard that the operators for oil on the Wm. C. Campbell farm, west branch of Bear Creek, Fairview township, struck quite a vein of oil in the second sand rock. Our informant states, when he visited the well, there had collected about ninety feet of oil in it. The consequence of this strike was intense excitement among oil men, as the opinion hitherto prevailed that the west branch of Bear Creek was not on the oil belt. We presume the operators will not desist until the third sand is reached, so as to effectually test the territory. This should by all means be done, for should the territory prove good for oil there is no man who can calculate the immense wealth of Butler county in this particular. Another fact is to be taken into calculation, and that is the belt would stretch to Boydstown, Butler down the Connequenessing creek and on to Beaver, thus traversing the whole county from its north-east to its north-west corner. Besides this, should oil be obtained at the Reiber place, on the Kittanning road, it may be a question of vast importance whether the oil belt may not be some four or five miles wide in this section, and if so, prove an inexhaustible mine of wealth. True, these things are as yet matters of speculation, but they border so closely on realities that we are forced to give them publicity even though we incur the opposition of the doubting and unbelieving. Human progress develops itself by steps of regular gradation, and it is seldom we find such development inconsistent with nature's own workings. We shall see by and by.

The Corry Blade gets excited over Barnum's Hamburg, and let itself off in the following high old style: "There is certainly such an immense number of people here as to show that the country around is pretty populated, and well-to-do people." Of what use is grammar hereafter.

The Tidoute Journal has been purchased by G. A. Needle & Co. Under their management the paper presents an improved appearance, both editorially and otherwise. We wish the new proprietors success in their enterprise, and trust the people of Tidoute will extend them a liberal support.

Fresh shell Clams direct from New York are among the delicacies at the Petroleum Exchange Hotel. They are nice and no mistake. We have tried them and know whereof we speak. A dozen or two will convince the most skeptical.

The oil refinery of Doe & Frazier, at Rousseville, was destroyed by fire on Saturday last. Loss \$5,500. The fire originated in the still.

Several prominent English nomenclators and M. P.'s will make the bears of Saratoga hotel keepers leap by spending some time this Summer at the Springs.

Turkey City, the classic name of the new oil town in Richland township, and which bids fair to strut with its head as his as any in that region, takes its name from Turkey Run, on whose banks it is situated.

SOBEL & AUERHAIM—DRY GOODS, &C.

1872. NEW GOODS! 1872. NEW GOODS.

Important to our Patrons and the public at large!

LADIES and GENTS' FURNISHING GOODS, Carpets, Oil Cloths, Trunks, Valises, Satchels, &c., &c.

Please call early and examine for yourselves. SOBEL & AUERHAIM. The Oldest Established Dry Goods House on Oil Creek.

The Chicago Post ought to take out a patent for machine poetry, as will be patent to all who shall read the following: John G. Saxo having thus commenced an inventory of the shams of the Saratoga belle— "Hark to the music of her borrowed tone; Observe the blush that purchase makes her own; See the sweet smile that sheds its beaming rays, On the false loom where her diamonds blaze—"

The Post thereupon thinks that although it is good enough as far as it goes, it by no means completes the description, which it proceeds itself to do—thus:

"Anon the changes of the walk reveal The patent instep and the patent heel, The patent panier rounds the form divine, Its patent arch supports a patent spine, Lends matchless symmetry, and stylish gait, And bears the label 'PATENT—68.' Behold the plaintive glance of languid eyes; The penciled lashes flutter as she sighs And lifts her ceylon eyebrows in surprise. She shakes her head—four pecks of vagrant hair Fly like a hop yard in the August air; And twenty grim ghosts whisper her aside: 'Dear sylph! we wore that wig before we died.' To whom respondent unashamed the beauty 'Gilt out, you spooks! I guess I know my jatey!' The garish gas her patent charms revealing; Her bosom heave with cotton batting feeling; Her false teeth gnash with gutta-perchaire; Her false eyes flash with fabricated fire; She drops her patent chignon in a chair Then jumps to pick it up— But I forbear."

What unspeakable Relief is offered to the burning and throbbing flesh by a single application of that unequalled balsam for human or brute suffering, Mexican Mustang Lintment. The tormenting and sleep-destroying pains of rheumatism, gout and neuralgia, are completely banished by its use; stiffness of the joints and painful swellings quickly yield to its emollient influence; it heals bruises, cuts, scalds, etc., with astonishing rapidity. For strains, spring halt, scratches, saddle, collar and harness galls, as well as the more serious external maladies of the horse, it is a swift and thorough remedy.

NOTES OF THE DAY.

Louisville has an African Tichborne. The banana ripens in Florida every month in the year. Florida negroes average about \$30 per week moss gathering. Oxford University celebrates its one thousandth anniversary this year. The price and demand for Pennsylvania iron has not been so great since the war as now. An irresponsible steam whistle at Green, Wis., blew three hours before it could be shut off. The busy hum of the first Methodist camp meeting of the season has just been heard in Minnesota.

The "seventeen-year" locusts have made their annual reappearance in Kentucky and Tennessee.

Mother Goose is not an imaginary person. She was the mother-in-law of a printer in Boston, Mass., and her real name was Elizabeth Goose. The first edition of her well-known rhymes was sold for two coppers on Devonshire street.

Local Notices.

SEALED PROPOSALS

Will be received by the Board of Directors of Complanter, until June 22nd, at 12 o'clock, for BUILDING THREE SCHOOL HOUSES in said Township, one at Silverville, one at Columbia Farm, and one at Kane City. Separate proposals must be made for each building. The Board reserve the rights to reject any or all of the bids. Plans and Specifications may be had on application to Geo. H. Dixon, Secretary of the Board, Oil City, Pa. Office at Fox's Planing mill, P. O. Box 1, 682. j 11-td.

Attention Base Ball Players.

All parties interested in the healthful and invigorating exercise of Base Ball play, are requested to meet at the old ball ground, near the Oil Creek depot, for the purpose of organizing a Club. All lovers of the sport will please meet at the above mentioned place, on Saturday, June 15th, at 2 p. m. sharp.

BY REQUEST OF A PLAYER. j 8-td.

For Sale Cheap.

Two Wells and rigs complete on the Buchanan Farm, west of Columbia Oil Company. Two Woodbury Engines No. 2 1/2 and 3. One do Boiler No. 4. 1,500 feet Tubing, 700 feet one inch Pipe, 700 feet 3/4 casing, 216 feet 5/8 casing. Apply to CHARLES E. HART. Petroleum Centre, June 8, 1872. j 5-1w.
