A Georgia chemist has invented a distilling apparatus compact enough to be kept in one's bed room mantel piece and capable of producing some twenty-five bottles of whisky per day. He has named it the Bourbon's vaude mecum.

An Englishman has invented a process by which ale, porter or brown stout may be made in a solid form, and dissolved, like yeast cakes when wanted for use.

The skeleton of a buffalo has been exhumed from a depth of twenty two feet at Council Bluffs.

The House Wife's Comfort!

S. FISHER'S

Renovating Mixture,

FOR WASHING & SCRUBBING PURPOSES.

It washes clean, and gives a very clear and beautiful appearance to the fabric, and will set the color in calicoes. For cleaning grease spots out of carpets, broad cloths, washing linen and cotton goods, and for scrubbing it cannot be surpassed. It saves a large amount of labor, and does away with scrubbing brushes.

It does not injure the finest texture, for the simple reason that its affinity is for grease or oil, changing them to soap, and thus loosening any substance with which they may be combined.

It is instant death to bed bugs.

Petroleum Centre, June 4, 1872.

Having tried Fisher's Mixture I take pleasure in recommending it to housekeepers as being everything that is claimed for it. S. REYNOLDS.

Prepared and sold only by

S. FISHER, Rousseville, Pa.

Fisher's Block, Main Street.

Take Notice.

All parties knowing themselves indebted to the firm of Schermerhorn & Ten Eyck, flour and feed dealers, are requested to call at their store, on Washington Street, and settle the same immediately, as they intend to close out their business.
