BOOTS SENT C. O. D. to any place in the Oil Regions

nov 18-46. J. A. PLANTE, Oil City, Pa.

A lot of old papers for sale at this office.

Another Valuable Invention.

PAVE'S BACK-STATION INVENTION FOR OIL WELLS patented June 15, 1871, which completely prevents the escape of oil wells, with the exception of the down hole. It is a well known fact to all concerned in the oil business that the pumps are used to draw up the oil from the well, and that the oil is lost by the escape of the oil from the well.

The BANK OF OIL PREVENTER is attached to the pump and works in such a way that it completely stops up the space between the pump and the well, so that the oil is drawn up by the pump and does not escape.

WATER-PROOF RUBBER PATENTOR.

Manufactured by the RUBBER PATENTOR, and is used for the purpose of preventing the escape of oil from the well.
