We notice a number of "tea-tasters" are about sailing for China from San Francisco to test the new crop of tes now gathering in the Celestial Kingdom of pig tail costume and rat diet. And herein comes a moral. A physician concected with a large English manufactory at Staffordebire protesis aganst the use made of tes by the women, particularly of the working , classes .-He says the women drink tea several times a day, making it a principal article of diet, and hence comes an untold amount of sickness. Tea is as distinctly a narcotic poison as is opium or alcohol. It is capable of destruction to digestion, it disorders the beart's action and it shatters the nerves .---Besides the poison of the tea the great quantity of hot water imbibed is very injudi, cial to digestion and proper nutrition .-

Steel & Smott had their well on Oil Spring Run torpedoed this week.

OIL NEWS.

Frederick 1st, the well belonging to Blan" velt & Co., was torpedoed this week. The Dolly Varden well on the V. O. &

C. Co. tract was torpedoed the second time on Monday. The Ellis Run well, owned by Combs,

Chancellor & Jackson was torpedoed twice this week. McCandless & Jeffries drilled a 516 inch

bole for the St. , Ronan Oil Co., 540 feet in 634 days; quick time. The shipments of oil from the Gale tract

for the week ending Saturday, June 15, amounted to 1371 barrels.

Enterprise well No. 2 is going down rapidly under the skillful manipulation of the Dulla Bros.

The Orphans Widow well, on the V. O. & C. Co. tract was torpedoed this week and is now pumping 15 barrels per day.

The well owned by Shufelt & Benedict on Marietta Run is being rapidly drilled down. They have a good show of oil.

Jenkins Bros., contractors have just finished a well for the Oil Run Petroleum Com-TWENTY DIFFERENT STYLES OF pany. The well will be torpedoed next

week. The Steel & Woodward No. 4 was torpe doed this week and is now pumping about 6 barrels of heavy oil; the well is on the Woodward tract. Mr. E. P. Davis' well No. 3, which was

completed last week, and torpedoed yesterday, is now pumping about 15 barrels per day.

W. C. Stilles, Jr., struck a well on 57, Sec. B. V. O. & C. Co. tract. The well was torpedued to-day; before torpedeoing the

well pumped 216 barrels of oil per day. The Hillsdale Success Co's,, well No. 1 is

still producing about 5 barrels per day .-They have a new rig nearly completed .-Lubricator.

The Uniontown Genius of Liberty, gives the tollowing statement of the weight of some of the fleeces taken from a flock ef sheep owned by Mr. John L. Goe, of that place. Mr. G. is a brother of Mr. Bateman Goe, one of the directors of the Columbia Oil Company, and is well known to many hereabouts. In a letter to his uncle be says: "Many of them weigh from 15 to 20 pounds, a number of them over 20 poinds each. One ewe's firece, 23 pounds 6 ounces one ram's fisece, 30 pounds 3 ounces. These sheep are regularly sheared every year .-

One year hence I hope to shear a number of fieeces from 25 to \$0 pounds each." Mr. Goe has a flock of 200 sheep, which are not surpassed in the United States. The slip from this flock weighs over 3,000 pounds of fine, clean wool, which is certainly bard to beat. The market price of wool at Uniontown is 40a65 cts. per ib.

This beats Geo. King's story of the Califorois sheep, which are so fat that the hide and horns make excellent tallow.

Capt. Thornton, the gentlemanly agent for the N. Y. & Western Theatre, is ongaged in billing the town to-day for that show. They appear at the Opera House on Satur, day evening.

# Hope's Boug.

I bear it singlag, singlag sweetly, Softly in an undertone, Singing as if God bad taught it, "It is better, farther on."

Night and day it sings the same song, Sings it while I sit alone, Sings it so the heart can hear it, "It is better, farther on."

Sits upon the grave and sings it, Sings it when the heart would groan, Sings it when the shadows darken, "It is better, farther on."

Farther on? How much farther? Count the milestenes one by one? Not no counting, only trusting,

"It is better, farther on." A California Bride.

#### The Visalia correspondent of the San Francisco Bulletin says: A curious phenomenon confronted me while in Inyo county last week, and ; which by accident forgot to mention in my previous letter. The phe, nomenom is a child bride, a wife now at the mature age of twelve, who has lived in the conjugal state for some three years or more. This child, to make the man nearly fifty years old, or more than four times her senior. How any person of authority ever consented to unite these two is a mystery I confess my inability to penetrate. But somebody was found, that much is certain, and the strange knot was legally and properly tled. Mrs. Lou. Peysen, the little mat' ron, is very small even for her age, wears short dresses and conducts berself in most matters precisely as a child she is. She is intelligent, bowever; has a nimble tongue, and is quite ready of speech. I am told that the twain do not get along together remarks ably well; but it is difficult to conceive how this could be otherwise-the husband two score and ten, and the wife barely a dozen years old. Whenever Peyson happened to offend anybody, the stinging sercesm is flung at him that if he does not mend his speech the offended party will lure his wife away with a stick of sugar candy. Fancy what a sarcasm this with which to crush a middle aged and proper Benedict! I am told, by parties in Mrs. P.'s confidence, that she has made a covenant with herself to gouge out her amiable liege's eyes as ber little fingers are strong enough. I had nearly forgotten to mention that Lone Pine is the babitation of this infelicitious and ill assorted couple.

Sol. Hewer Sapborn, who was found dead on the railroad track, in Massachusetts, a few months since, must have been a man of singular fancies. Fifteen years ago he will ed his body to's medical society in New York. But as he outlived the society he re wrote his will and made the following cheerful disposition of himself. He bequesthed his mortal remains to Dr. Holmes and Professor Agassiz, to be prepared and placed in any museum of anatomy chosen by them. Of his skin, two drum-beads were to be made and given as little souvenirs to two friends of his youth, and in return, they were to have beaten upon the. drums, at a base of Bunker Hill monument-Yankee Deodle, at sunrise every 17th of June. All that afterward remained of him was then to be buried beneath the roots of an eim, which would thus be nourished, giving a cool shade for the children sportog beneath its branches.

The heathen Chines in Idaho flies monster kites, which in shape resemble buge spiders, legs and all, and after reaching a considerable height messengers in the shape of butterflies and paper birds are sent up on New Engined manufacturers of silver and .... the string. A Janeaville, Wieconsin, girl, frightened ber serenaders away by filling, out of 'the window. Those suffering from tootbache or baving diseased testh, should call on Dr. Critten-den, at the Rochester House, for permanent, and speedy relies. In Ottawarcoulday, Kansar, recently, a child two years old died from being bitten by a rattlesnake. The bead of the snake, with three or four inches of the body, bad been, severed with an axe, and was supposed to be lifeless, and the child bappened to stop near the severed head and was bitten, and died in about four hours.

The Harverhill Bulletin says the follows ing recommendation was actually written by a New Hampshire lawyer to a United States Senator in favor of a young lady who proposed to teach in the far West :

plished and successful teacher, full of taith, courage and energy, who can run a school. lead a prayer meeting, ibreak a colt, fight a grizzly or shine in a drawing room, wants to try her hand at her profession in your fur off State of Nevada, and teach the young idea there how to shoot something besides Indians and sage bens. I know her well and can wouch that she is everything that a woman ought to be, to wit: plucky, clever, a miable and good. (Signed)

HOUSE BREAKING .-- On Friday last, while Mr. Geo. S. Duncan and family, of Plumer, were absent on a visit to Oil City, some unknown scoundrels forsibly entered and prets ty thoroughly went through the bouse, taking a sum of money, a lot of clothing and many articles of volue. Mrs. Duncan's trunks and ward robe was ransacked and the contents scattered promiscuously about, in some instances being wantonly and maliciously torn and cut. Mr. Duncan has the thieves "spotted" and will prosecute them to the full extent of the law. We are in possession of the names of these scoundrels, but refrain from publishing them, in order that justice may be meted out to them.
