S. H. KOOKER, R.

Gold at 1 p. m. 113 1/2

**PITHOLE OIL NEWS.**—The Phillips Bros., of this place, completed and tubed their new well on the Webster. Petroleum Company's tract, at Pithole, on Saturday last. Well was tubed the same day and testing commenced. It is now yielding six barrels per day good. The well is 746 feet deep, and said of rather a coarse and inferior quality.

A well on the adjoining lease, Holmden farm, owned by Haskell & Mesger, is in the sand and has 150 feet of oil in the hole. The sand is of a black slaty quality and rather inferior.

Considerable excitement prevails on the Ball farm, back of Balltown, at the striking of a 60 barrel well. The well is owned by Mr. Michael Day, was completed on Saturday last, and is yielding fully 60 barrels per day and increasing.

The old wells hold out as well as ever.—Timer at Pithole are reported as being brisk, especially in oil matters.

A lively game of base ball came off on the grounds of the Petrolia club, yesterday afternoon, between the second nine of the Columbia Farm club and the second nine of the Petrolia club. The following is the score:

Columbias.		Petrolias.	
R.	O.	R.	O.
Peffer, c,	0 5	Miller, c,	2 3
Holland, s s,	3 4	Foster, p,	2 5
Robb, 3d b,	5 2	Hughes, s s,	3 4
B Peffer, p,	3 4	Dorousse, 1st b,	2 4
Joe Peffer, r f,	4 3	Nicholson, 2d b,	2 4
Gardner, 2d b,	2 5	Schroder, 3d b,	4 2
Holland, 1st b,	4 2	Bovee, 1 f,	4 3
Moak, 1 f,	5 2	Crop, c f,	2 3
McKallip, c f,	1 5	Resgan, r f,	6 1
Total,	27 32	Total,	27 29

Umpire—A. M. Moreland. Scorer—C. W. Ecob. Time of game—2 hours and 45 minutes.

In the arrangements for the Boston Jubilee the comfort of the horses were not forgotten, as the Society for the Prevention of Cruelty to Animals placed troughs of water at convenient points near the Coliseum for the use of animals.

### New Postal Regulations.

As the new postal regulations possess a legal as well as a general importance we give them a place in our local columns: The new postal bill which became a law just before the session of Congress closed, makes some changes in existing postage regulations which are of general interest. The most important is the authorization of one cent postal cards for correspondence or for printed circulars, similar to those which were introduced in Great Britain nearly two years ago, and are now in use in nearly all European countries. The House provided in the bill for paper flap to cover and conceal the writing. The Senate changed this to an open card. In conference committee the style of the card was left to the discretion of the Postmaster General, who prefers the open card and will order that kind only to be manufactured. The face of the card will bear a one cent stamp, and the back will be ruled for the letter. The price of the card and stamp will only be one cent. It will probably be three or four weeks before they will be ready for sale, as the plates for printing have yet to be prepared. The postage on circulars, newspapers and other transient printed matter, which under the law was two cents for every four ounces or less. Small circulars, which formerly cost two cents to mail, can be now be sent for one cent an important reduction to business men who use the mails largely to advertise their business. The change is now in force, the law being immediate in its effect.

**PERSONAL.**—Mr. Charles Phillips and family, of New Castle, arrived in town yesterday. Mr. Phillip will be remembered as being the gentleman who met with a serious accident from a runaway pair of horses, a few months ago, by which he has been laid up ever since. He has nearly recovered from the injuries received at that time.

Our townsman, Mr. N. H. Payne and wife, left town yesterday to attend the Peace Jubilee at Boston. We wish him a pleasant time.

The Rouseville correspondent of the Oil City Derrick, says:

Levy, the Hebrew clothier, had a girl arrested last week for assaulting his little boy. She was taken before Justice Reynolds, at the Centre, by whom, through the efforts of Counsellor Given, she was acquitted.—Levy had the costs to pay and the bear to buy for the "boys," who fleeced him most unmercifully by their drinking, as the whole bill will foot up but little less than \$30.—"Sheep clothing" is at a discount in consequence.

**OPPOSITION IS THE LIFE OF TRADE.**—Cherrytree Run has now four pipe lines in operation—a good many for the reduced production of that locality—the Central Transportation piping to this point; Boulton & Barcroft piping to Columbia Farm; Richardson piping to Tarr Farm, and the Cherrytree Pipe Line piping to Rynd Farm.

With this number in operation the competition on transportation rates and prices for oil when delivered has become spirited. The Central now charges five cents per bbl. and no per cent. off. After the 1st of July the Cherrytree pipe will charge ten cents per barrel and one per cent. off.

The other lines are either making reductions or offering perquisites which make the inducements equal.

The new freight tariff of fifteen cents per barrel for oil from Columbia, discriminates some against the Central.

Tom. Wait and Billy Pugh, the gentlemanly proprietors of the Verandah Saloon, returned to town yesterday from a fishing excursion in the wilds of Forest county.—The fishing grounds was the forks of Salmon Creek, and in two days fishing they caught 566 speckled trout. Pretty good catch, in addition to the fun of camping out in the woods for a day or two.

A good and desirable place in Petroleum Centre to purchase boots, shoes, gaiters, rubbers, &c., is at Geo. Magrane's boot and shoe store, on Washington street. He is the sole agent in this place for the celebrated Ventilating Water Proof Boots and Shoes, decidedly the finest boot and shoe ever made for keeping the feet dry, they being impervious to water. Geo. sells his goods at remarkably low rates. Give him a call.

Messrs. Fisher, Norris & Co., the well known machinists, have applied for a patent on an Improved Temper Screw for Drilling Oil Wells. It is decidedly the best oil well tool of the kind ever invented. We would advise our oil operators to call and examine it, at their shop on Main street.

Mr. John Oberly, of Plumer, is about to sink another well on his tract of land between Plumer and Pithole. The spirits having gone back on him in the location of two wells, both of which proved to be dry holes, this time he proposes to locate it without the aid of spirits of any kind. We hope he may meet with success.

**CANADA OIL NEWS.**—The W. Clement and Moss well, upon the north end of the Lambe property, flowed at the depth of 400 feet, and was pumped a short time, when drilling was resumed, and the well is nearly down, gas in abundance, and it is expected the well will be a good one. A few hundred rods south the Chamberlain and Wallen well is down 492, and will be pumped in a few days, good show and plenty of gas. The rig for the Bolton and Campbell well is getting ready. Further south Mr. Lambe is putting down a new well. Peat, Gurdand Johnston have a well ready for testing; P. Taylor & Co. are drilling; Kennedy and Jeffrey No. 5 is improving; F. Smith & Co. are drilling a well upon the Monroe property. The Fish and Townsend well, near middle of Lambe territory, is being tested; Penton & Co. are drilling; C. Smith & Co. are also busy drilling upon the same territory. Near the south end of the Lambe property, the new well of Gurd, Johnston and Peat, proves a good one. The "Ben Bolt" has been put deeper, and is being tested, with fair prospects. The burnt well of Ribighmi and Brake is being rebuilt, and their new wells are progressing favorably. The Lancaster & Co. well, near by is not completed as yet. The Moffat and Co. well, upon the Lamott place, is down, and will soon be tested. The Tetrau well, upon the same territory, is progressing. Mr. McDougall is putting down a new well upon his property to the Nor-west, and Drader & Co. have a rig ready upon his farm north of 12th line. The Callinan well is being drilled. A few other parties are about to commence operations in the same locality. We understand the Hesly, Widdle, and a few other wells further to the Nor-west are progressing.—[Petrolia Advertiser.]

Sitting for one's picture is not a very fascinating employment; it is monotonous, to say the least, particularly in sitting for your picture by the photographic process. If you try to put your on your best look yet, invariably get up a smirk, and if you try to look perfectly natural you look stiff, and old, and cross. But they have a way at New York police headquarters that is effective, even if it does not secure a perfect likeness. The other day a thief was taken to the artist for his picture, that it might adorn the gallery of thieves' counterfeits.—One would suppose a thief would not object to a good counterfeit, but in this case he did, and on being placed before the camera he shut his eyes and opened his mouth, like the mouth of a cave, and he made up faces. The result can be imagined. Finally "cuffs" were put on his hands—not of lace but of iron—a strap was put over his head and under his chin to keep his mouth shut, and yet they could not strap his eyes open, and so his picture was taken with his optics closed.

### An Elopement.

One solitary occurrence of the past week, says the Clarion Democrat inspired the drooping spittles of the localizer gladdened our heart and caused us to whittle our pencil at both ends. On Friday of last week a woman with a little girl arrived in the Brookville stage, stopping at the Loomis House, and registered her name, Mrs. Settemyer, Brookville. The next morning a man came in the Brookville stage and had the woman with the little girl took passage on the stage to Franklin. On Wednesday morning last, a man arrived from Brookville and inquired anxiously of the whereabouts of the parties previously mentioned. When told the story we have related, he said the woman was his wife, and that she was running away with another man. He declared his intention of following the guilty parties, not so much for love of his lawful spouse, as to wreak vengeance on her by sending her to the penitentiary.

This afternoon the first nine of the Columbia Farm club and Petrolia club, are playing a match game of ball, on the grounds of the latter club.

In the appropriations made by Congress during the season just closed the harbor of Erie comes in for \$30,000, half of which is to be expended in the erection of a light house on Presque Isle. So many vessels have gone ashore on the north coast of the peninsula that, as a measure of safety, a light is considered absolutely necessary at that point.

There is not so much smiling and shaking hands going on now as before the election.

A residuary legacy by John Redman, a Boston master builder, to the Massachusetts General Hospital, has turned out, on a final settlement of the estate, to amount to \$446,000.

A Baltimore minister is deposed just for playing whisky poker and auction pitch for the drinks in a lager beer saloon.

It is conceded at the Democratic headquarters at Philadelphia that the Pennsylvania delegates to the Baltimore Convention will vote for Grooly.

SOBEL & AUERHAIM—DRY GOODS, &C.

# 1872. NEW GOODS! 1872. NEW GOODS.

Important to our Patrons and the public at large!

LADIES and GENTS FURNISHING GOODS, Carpets, Oil Cloths, Trunks, Valises, Satchels, &c., &c.

Please call early and examine for yourselves. SOBEL & AUERHAIM. The Oldest Established Dry Goods House on Oil Creek.

**DROWNED.**—Dr. A. F. Jennings, for some twenty years a practicing physician at Sherman, Chautauque county, and latterly a resident of Fredonia, was drowned at Columbus, Pa., about four miles from Corry, yesterday. He was stopping at a hotel, and getting up at six o'clock in the morning, told the landlord he was going to the pond a few rods distant to fish. He was not seen again until ten o'clock in the forenoon, when his lifeless body was found in the pond. A coroner's inquest was held, and a verdict of accidental death rendered. The deceased leaves a wife and son and daughter in New York.—[Buffalo Commercial.]

A colored fisherman was crossing the Mississippi at Little Rock, one stormy night, recently, with his young child with him in the boat. When in the middle of the river the water began to dash over the sides of the low boat, and it was evident that the craft would sink in a moment, unless relieved of some of its load. Putting his child securely in the middle of the craft, the father jumped into the river and was washed away and drowned. A party from the bank went to the rescue and recovered the boat and child, but the man was never seen afterward.

A Fort Wayne man has a pocket knife which belongs to Willie Collins, the English novelist, and has a history. Collins bought it and had his name engraved on it. He lost it at Tours, France. The finder committed a murder with it. Collins changed to be in attendance at the trial, and recovered his knife. He lost it again, at Bath, England, and the finder committed suicide with it. Collins again recovered the knife, but lost it the third time. This time it was found in Fort Wayne. The gentleman who picked it up is a great admirer of the novelist, and wrote to him, receiving in reply a letter detailing the above facts.

It has recently been ascertained that iron sand, which is found abundantly on the beaches of New Zealand, can be converted into excellent steel by a simple and economical process. It is mixed with an equal quantity of clay, and of the ordinary sea sand, which contains a large admixture of shells. The mixture is worked up into bricks, which are hardened in a kiln, then broken and smelted in an ordinary cupola furnace.

A young girl in Winterport, Maine, a few days ago was taken with a sudden dizziness and fell into a profound sleep just before supper. For five days it was impossible to arouse her, although the neighbors and doctors assembled and used such rough measures as a cold shower bath. The lethargy began on Tuesday, and on Sunday the girl, who had been breathing naturally all the time, turned over and asked if supper was ready, adding that she was very hungry. She is now as well as ever.

During a violent storm at Halifax, N. S., on the 18th inst, the lightning struck and shattered the steeple of a church, and completely demolished an adjoining mission house. Several other buildings, in various parts of the city, were also damaged by the electric fluid.

At Johnstown, N. Y., the hundredth anniversary of the erection of the court house is to be celebrated on the 26th inst. An address will be delivered on the occasion by ex-Gov. Horatio Seymour.

The "American Colony" in Paris is preparing to give a subscription ball on the Fourth of July.

There are six candidates for a judgeship, in Georgia, each of whom holds the rank of colonel.

### Local Notices.

Gaffney sells Lager

To MERCHANTS.—All mercantile licenses must be paid before the first day of July to the County Treasurer, at Franklin, or they will be sued and per centage and cost added.
