Another Valuable Inven- tion.

CATES' BACK-SUCTION PREVENTOR FOR
OIL WELLS, patented August 15, 1871, which en-
tirely prevents the influx of air in all wells, while
the tubing is being drawn. It is a well known fact
to all operators that upon wells where this Preven-
tor is used it is necessary to preserve as nearly a per-
fect vacuum as possible, and that no air should be
let into the well, at any time, when it can possibly
be avoided; consequently, when the tubing is
drawn in a well it is the cause of great injury to
it, as the stuffing box, being then necessarily opened,
the air immediately rushes back between the
tubing and casing, into the well, forcing the oil
rock and gas veins, and not so rapidly coming, the
oil and gas to rush back to a great distance. So
much so, that it almost always takes several days
after pumping is resumed for a well to be brought
back to its former condition, and sometimes it takes
several weeks; and quite frequently wells have been
almost completely ruined by the air being thus let
in while drawing tubing.

The BACK-SUCTION PREVENTOR is attached
to the stuffing box and works in such a way that it
completely shuts up the space between the stuffing
box and tubing so effectively that not a particle of
air can get through at any time while the tubing is
being drawn and replaced. It supplies a well long
fall, and is without question, one of the most val-
uable inventions of the day, to those engaged in the
oil business. No well should be without it, as it of-
ten saves ten times its cost by one using it.
It is manufactured at the FOUNDRY AND
MACHINE SHOP OF ANDREWS & CO., TIDI-
CREEK, PA., and for sale by Hardware Dealers.
Tidicreek, Pa., March 25, 1872—Law 511.

CATES' BACK SUCTION PRE- VENTOR.

Means Andrews & Co.—Gentlemen:—Having
as a result of CATES' BACK SUCTION PREVEN-
TOR, I can confidently recommend the same to all
operators engaged in the oil business. As the best Pre-
ventor of back suction on Oil Wells. One well was
small that I had to pull to 100 ft. After put-
ting on one of CATES' BACK SUCTION PRE-
VENTORS the production was increased to a good
paying well. Before we put the back suction Pre-
ventor on the well we had to pump the
well two weeks to bring it to its former condition.
I can confidently recommend this Pre-
ventor to all Oil Operators who have any back suc-
tion Wells.
Yours, &c.,
HART, FRANKS & Co.

Means Andrews & Co.—Gentlemen:—This is a
copy of the one of CATES' BACK SUCTION PRE-
VENTOR, on the Lee & H. Island
Lakes, Eschscholtz, and would not do without
it at any price, as it will do all and more than it is
recommended to, and I can confidently recom-
mend it to all Oil Operators who have any back suc-
tion Wells.
Yours, &c.,
JOHN MYERS.
