John Galley, who made his escape from the train on Friday last, while being taken to Franklin, was rearrested near Miller Farm, on Saturday, and returned to the lock up. He was to have been taken to Franklin on the noon train to-day.

It oppears to us the ends of justice would have been catried out, and the county saved a good deal of expense, had this man been allowed to go free provided he "vamosed the ranch." We are credibly informed by one of our officere, that when arrested Galley was on his way to Buffalo, where he proposed to stay. There is no criminal act attached to vagraccy, for which this man was arreated, and the majority of the taxpayers are decidedly of the opinion that heavy bill of costs, &c , would have been avoided bad the above course been pursued. The casiest way is always the best in such Cases.

Considerable excitement was occasioned on Saturday evening, at the arrest of a 'fallen angel' who was in a state of intoxication The officers conveyed her part of the way to the lock up, when she was taken with a fit, and had to be conveyed to her home, and a physician summoned.

It was a sad commentary on the evils of human nature, and showed how low and degraded a woman can become. We have always adhered to the beliet that there would be no fallen women; no broken and scattered homes; no fathers, brothers, mothers or sisters weeping over the lost one; no more "unfortunates rashly importunate," did men who invariably put them there, imagine their own mothers and sisters in the same position. There will be fearful accounts for men to settle in "that great day when the Master of Lile shall judge the quick and dead," and men will have to answer for the wrongs done women.

Quite an enthusiastic Grant & Wilson political meeting was held at the Club Room, next door to the RECORD office, on Saturday night. A thorough organization was effect-

ed. The admirers of Horace Greeley celebrated the North Carolina election, Saturday night, by the firing of 37 guns, an anvil answering in lieu of a cannon.

Mre. E. J. Duell, agent for the "Science of the Bible," has received the work and is now ready to deliver it to subscribers. We would advise those of our citizens who have not procured a copy of this valuable and interesting book, to call on Mrs. Duell, at the McClintock House, where she can be found for a day or two longer. Had we the space we should like to give this book a review worthy of the subject matter contained in its pages, as it is in every way worthy of it?

OUR PUBLIC SCHOOLS.

MR. EDITOR:-I wish to beg enough space in the RECORD, always alert for the public weal, to say a word about our schools whose vacation will soon end. I will speak plainly, so that none can misunderstand my meaning.

Our school building is large enough, well lighted, pleasantly located, and needs nothing but a Janitor to make it comfortable for all concerned. The expense will be trifling, and I propose that parents sending children all give something toward the support of a person whose duty it will be to light the fires and sweep and dust the rooms early each morning. Last winter it devolved upon the teachers to do these things, and ball the winter it was not properly done. The children often suffered with cold, and late attendance by teachers and scholars was too common. If the rooms are kept warn and clean pubciual and regular attendance

of schollar and teacher will result. In this connection, I would name L. P Walker, Eeq., a gentleman who has the welfare and comfort of children slways next his hears to look after this matter .-Fetch around your paper and we will give enough for you to go shead and hire a Janitor.

The New Board has selected the teachers for the ensuing term, subject of course to such changes as may be found necessary in the future. As the true test of a teacher' qualifications are not found in the ipse dixit of a Superintendent, nor on the outside influence always brought to bear on such accesions, I trust that the Directors will visit the schools and see and hear for themselves the manner in which they are operated.

Last year there was much just complaint in a couple of rooms at least. The attendance of the teacher was often late and irreg ular. There was far too much scolding and senseless baranguing. Girls almos grown were often even crying with ebeer shame and verstion. The language was oo often coarse and uncouth, rude and loud. There was a lack of diguity in the threats made, and the punishments were of ten absurd. Now these things should not be tolerated by any Board. I hope the new one will correct anything of this kind in the future. Let this surplus oral energy bereafter find its way and expend its force on the Black board.

I submit that a teacher should be well bred always polite and courteous, kind and olerant to the children under his charge.

It concerns a parent much more that his child grow up into a gentlemanly fellow than that he be a le arned Boor. Let us by all means have good manne rs and good nature in the school room. Let the pupil be so treated that he is siways anxious to go to school, and ever ready to open his book .-Let it be fully understood by all concerned that neither the parents or Directors in this district will longer wink at bad manners in the school room.

The McCool well, on the Logue farm, South Side of Clarico, is doing 25 barrels.

Tabor & Co. are going to start six new wells on the Logue farm, on the South Side of Clarion.

The Milligan & Connelly well, on the D Shoup, is still keeping up to its first produce tion-50 barrels.

Cap. Chalfant has commenced drilling on the Chalfant No. 2, about a hundred yards from the Progress office.

Brown & Crawford bave a new well on the Logue farm, which is down, and doing 45 barrels. It is called the Bee Tree well. The Campbell well, on the Wm. Smith tract, South Side of Clarion, is about 8 feet n the sand and promises to be a large well.

Painter & Alishouse have the tools out of thei: well, No. 2, on the E. Ritz farm, and will probably strike the sand this week

The Logue well, No. 1, is a new strike It is on the Logue farm, South of the Clarion river. There is every indication for a large well.

A very important field is being developed on the South Side of the Ciarlon river, on the Logue, Smith and Fox farms. On the A. Logue there are several wells just about down. Logue No. 1, will doubtless be a very good well.

Developments will soon commence on the Miles, Logue, adjoining the A. Logue. Taylor & Co. are the operators we believe. This farm was sold about one year ago for \$12,000, on the supposition of its being "dead beat" territory.

There are two new rigs going up at the mouth of Turkey Run, on the Keating farm, This will open up much more territory, if they prove successful, since there is no well within a considerable distance.

The success of the Risher well, on the D. Master farm, gives the St. Petersburg district, fully five square miles of new territory

trict, mily nee square miles of new territory while the Myers well, on the M. Shoup farm, confirms the value of the territory. The "Myers' is reported at 50 barreis. L gue well, No. 1, on the Logue farm, South Side of Clarico, is flowing a heavy stream, and promises to be a large weil. The oil is thrown over the derrick. A. Willoughby & Co. are the lucky owners. A year ago this was considered "dead beat" territory.--[St. Petersburg Progress.

The American Bison is rapidly disappearing from the western plains. These animuls at one time were to be found everywhere west of the Hudson river but they have many years been extinct in the regions east of Mississippl river. As the bison are driven into narrow limits their destruction becomes greater, and is highly probable that this animal within the next thirty years will become entirely extinct. As a proof of the wholesale slaughter of the bison, it may be stated, that during last May twenty-five thousand of these animals were killed south of the Kansas Pacific Railroad, for the sake fof their hides alone which were sold at two dollars each for shipment to the East. In addition, it is estimated that about five theusand bloop were killed by the Indiana to supply the people on the frontier with meat, so that at least thirty thousand bison have been killed in one month in the southwestern ferritories
