CURIOSITIES OF THE OIL REGION.

Search the world over and we presume in

no section covering the area of the oil

region can be found more curiosities of nature

than in the great petroleum regions of West-

ern Pennsylvania. On the Osborne tract,

a short distance above Alleghenopolis

City, Cherrytree Run, is a well yielding

five or six barrels per day, from the outside

of the conductor hole of which flows a never-

falling spring of mineral water, from a

depth of nearly six hundred feet, which, in

its medicinal properties, is very similar to

the water of the Congress and other springs

at Saratoga and Avon Springs. We have no

doubt that should some capitalist take hold

of this spring and build some kind of a

house over it, that a popular resort for

invalids would be the result, as the water

possesses sufficient medicinal properties to

cure rheumatism, scrofula, and diseases of

that nature. In addition the scenery of

Cherrytree Run is the most beautiful that

can be found in any other section of coun-

try; the climate is mild, salubrious and

healthful, and a more open hearted gen-

eral lot of people it would be hard to find

in any other section of country than on

Cherrytree.

So much for the mineral springs of the

oil region. Everything else has been dis-

covered in the oil country except gold and

diamonds, and we expect one of these days

PETROLEUM ITEMS.

The new well on the

Hyde farm, upper Bennehoff Run territory,

owned by the Octave Oil Company, men-

tion of which was made in the Record a

day or two since, is yielding eight to ten

barrels per day, and increasing. It is

thought it will prove a good paying well.

A new well was struck on the Brown

farm, Cherrytree Run, on Sunday last,

which bids fair to be a five or six barrel

well. It is owned by S. Elliott, Sr. & Son.

The well has a strong volume of gas, and

will undoubtedly prove a good well after

being experimented with a torpedo.

A new well was struck on the Dempsey

farm, Cherrytree Run, a few days since

which is yielding seven or eight barrels per

day. It started up at nothing to speak of,

but was brought up by the use of a torpe-

do.

Wright Bros. & Vincent, have leased

twenty acres of the Dempsey farm flats,

above Kane City on Cherrytree Run, and

are about to commence the work of devel-

oping the same at once. The prospect is

good for small wells.

A new well, was struck on the Coxton

farm Oil Creek, a few days since, which is

yielding six barrels per day. Owned by

Mr. Eaton, of Franklin.

One or two new wells on the Columbia

farm, are nearly ready for testing.

There will be lively times in the oil region

in a few weeks. Arrangements will soon

be made for a series of Greeley mass meet-

ings, and among the noted speakers to be

present, it is said, will be Carl Schurz, E.

O. Perrine, and Governor Hoffman.

A system of exchange of letter lists has

been established by the postmasters of the

principal Springfields in the country, and a

large number of letters are carefully

addressed every week to Springfield, Ohio,

Illinois, Missouri, Vermont, or Massachu-

setts, when some other Springfield was in-

tended, the plan will be of considerable ser-

vice.

A tradition has long existed that before

the Spanish invasion the Aztecs derived

large supplies of precious stones from what

is now New Mexico, and Kit Carson many

years ago reported the existence of diamonds

and rubies in the same region. An explor-

ing party is now said to have discovered the

exact locality, and to have taken to San

Francisco a hundred thousand dollars

worth. Steps will be taken to secure a gov-

ernment patent to the lands, and a com-

pany will be formed with a large capital to

work them.

CONTEMPT OF COURT.—Our readers will

recollect that several years since the United

States Court granted injunctions on several

parties in the oil regions, restraining them

from infringing on the patent of Col. E. A.

L. Roberts, in the manufacture of oil well

torpedoes. Alexander Hammer, one of

those so enjoined, went to Europe, and on

his return Col. Roberts asserted that he

and others were engaged surreptitiously in

the manufacture of the torpedoes. Bring-

ing the matter to the attention of the Court,

an attachment for contempt was issued and

the accused was arrested by Detective Pan-

dar at Antwerp near Petersburg, Clarion

county, on Friday night. Saturday morn-

ing Hammer was brought before Judge

McCandless. The Court ordered the de-

fendant to be remanded to jail for a further

hearing to-day. This is the first of a series

of similar cases, as Col. Roberts has filed

affidavits upon which attachments for other

parties are disobeying the injunctions of the

Court will be issued.—[Pittsburgh Mail.

Hammer was sentenced by the Court to

pay a fine of \$200 and costs and be impris-

oned for two months.

Shamburg has one institution worthy of

mention and which is first class in all its

belongings. We allude to the Livery and

Feed Stables of our friends, Carlin & Golden,

located almost opposite the Union Hotel, in

that burg. They have a stock of as fine

livery horses as can be found west of the

Allegheny Mountains suitable alike for rid-

ing or driving purposes. And in carriages

and buck boards they can't be beat. In ad-

dition, their prices are most reasonable—

"Bob" and his partner are genial whole

souled fellows, and we advise those of our

citizens having business at Shamburg to

cultivate their acquaintance, and if in need

of livery horses to pay them a call. Hav-

ing been there we know whereof we speak.

Their stables can readily be seen having a

large sign over the door painted McCor-

mick's Bazar, "which the same" means that

they do not exactly keep off goods and no-

tions for sale, but that the do keep fast nags

and elegant turnouts, just the thing to take

your girl out a riding in.

A railroad from Parker to Titusville is

talked of very solemnly.

Watermelons and other cholera bomb

shells are in market.

The Red Stockings, of Boston, play the

Sedocese of Oil City, on the 16th inst.

1st of Grand Jurors drawn for fourth

Monday of August, 1872.

Cranberry—John Brandon, A. McCurry,

Canal—Warren Duffield, Reuben Stewart,

Clinton—Samuel Richards,

Cherrytree—A. W. Alcorn,

Franklin—W. W. Pennell, John Henry,

Milton Myers,

Irwin—Milton Beighles, Julius Hender-

son, Joseph Milton,

Oil City—Geo. Leister J. R. Roberston,

H. H. Herpst.

Plum—James Loker, James Grove,

Richland—Josiah Ruch, A. V. Orr, Jack-

son Lavere,

Rynd—Peter McMan.

Rouseville—J. Bunville.

Rockland—Smith Simpson.

Scrubgrass—Wm. Perry.

NOTES OF THE DAY.

The effects of the New York Standard

brought only \$1,000

The total taxable property of California

is assessed at about \$800,000,000.

Paris is overrun with counterfeit gold coin

manufactured in Spain.

One of the wealthiest bankers in Italy is

Emmanuel Marafoni, a natural son of the

King of Italy.

A Louisiana planter has set his hands at

work gathering caterpillars from his cotton

at half a cent apiece.

They have sent 2,000 young black bees

from Saratoga lake to England. They go

over in large glass tanks.

Several students from Howard University,

at Washington, are serving as waiters at

the Long Branch hotels.

Baltimore having organized the "Ida

Greeley Grays," Cincinnati responds by

starting the "Nellie Grant Blues."

A young lady lost, a few days since, two

diamond rings valued at twelve hundred

dollars, on the bathing beach at Narragan-

set Pier.

The journeymen shoemakers at Lynn,

Mass., are about to start a co-operative

manufacture, with a subscribed capital of

\$8,000.

Miss Emily Faithful, a prominent leader

of the cause of the advancement of the

condition of women in Europe, will make a

lecturing tour through this country in the

fall.

BUTLER COUNTY OIL NEWS.—A well

owned by M. Hulings and son, on the

Thompson farm, about two miles west of

Parker's Landing, has been pumping for

some days, yielding a goodly amount of oil.

Mr. Hulings informs us that he feels confident

that the well will remain good for 50 bar-

rels per day.

The well on land of M. S. Adams & Co.

near Petrolia City, owned by Balph, Bleigh,

Parker and others, has been flowing oil for

some days at the rate of 200 barrels per

day. This well promises to remain one of

the largest in the Parker district.

A well was recently sunk on the Grant

farm, west of Lawrenceburg, which has

been pumping for the last ten days aver-

aging a production of 85 barrels per day.—

Five-eighths of this well has been purchas-

ed by Wilson & Stoughton, and one-fourth

by Crawford & McFarland. These gentlemen

paid high figures for their interests, but ex-

pect to double their money in the invest-

ment.—[Oilman's Journal.

Important to Petroleum Shippers.

An act of June 6th, 1872, provides for the

free entry of petroleum barrels and other

packages exported filled with American pro-

duce, provided at the time of shipment a

declaration is made to return the same em-

pty. It was decided that this decision should

not be held applicable to barrels which

were shipped from the United States before

the passage of the act, and the Secretary of

the Treasury will instruct collectors of cus-

tomers accordingly.

The meeting at Parker's Landing on Sat-

urday week to take measures for the defense

of the casing suits was largely attended.—

Messrs. Crawford, Campbell and Hulings

of the lower district, were appointed mem-

bers of the General Committee, and the

General Committee were directed to aid the

Harmony Society in the defense of the cas-

ing suits. A Finance Committee was also
