ATTENTION.

The Grant & Wilson Club are requested
to meet at their headquarters at 6 1/2 sharp
this evening. Rally one and all for the
gathering at Rousseville. Per order
S. JOHNSON, Captain.

NOTICE.

All subscribers to the Chicago Relief Fund
of last winter, are requested to meet at the
office of S. Reynolds, on SATURDAY
EVENING, SEPT. 14TH, 1872. Of the
amount subscribed at that time, \$400 was
sent to Chicago and \$300 to the sufferers by
the Michigan and Wisconsin free, leaving a
balance on hand of \$258 95. This meeting
is called for the purpose of disposing of the
remaining balance.

By Order.

SPECIAL TRAIN TO TITUSVILLE TO-MORROW NIGHT!

By the following telegram from Titusville
it will be seen that a special train is to be
run over the Oil Creek Railroad, to-morrow
night, for the accommodation of those who
desire to attend the Democratic and Liberal
Republican Mass Meeting, to be held in that
city, and which is to be addressed by Hon.
Charles R. Buckalew, Democratic candidate
for Governor:

Titusville, Sept. 12.

To John McOmber, Esq.:

Have arranged to run a special train from
Oil City and return.

M. N. ALLEN.

Rev. J. M. Condit, of Girard, will
occupy the pulpit of the Presbyterian
Church of this place, on Sunday next, fore-
noon and evening. The Rev. gentleman is
spoken of as being a very talented and elo-
quent divine, and the public are cordially
invited to attend and hear him.

We had almost forgot to mention that our
friend Auerhain, of the well known dry
goods firm of Sobel & Auerhain, had gone
to New York for the purpose of purchasing
his fall and winter stock of dry goods. He
proposes to lay in a stock of goods in his
line, the like of which has never been seen
in this region, due notice of which will be
given in the Record.

We are informed the new well on the
Simms farm, owned by our townsmen,
Messrs. Kepler, Worden & Taylor, is likely
to prove a good well, making an excellent
show, better in fact than any of the wells
yet put down on the Upper Bennehoff Run
territory. Yesterday the yield was six bar-
rels of the greasy fluid, while the water was
being exhausted. The prospect is good for
a big well. The Simms farm is about 200
rods from the Hyde farm or Octave Oil Co's
property, and near the Toby Oil Co's tract,
upon which are located some of the best
producing wells in the region. The loca-
tion of the new well indicates the belt to
lead in this direction. Our informant states
the excitement thereabouts to be on the in-
crease in that vicinity. He noticed several
teams engaged in hauling lumber and ma-
terial for rigs on the ground.

We predict a new oil excitement in this
vicinity before many months, as there is no
doubt in the minds of our most experienc-
ed operators, but that a large expanse of oil
territory exists between Petroleum Centre
and Titusville, which only awaits develop-
ment to produce results that will startle the
most sanguine.

We might add that leases are being rap-
idly taken up along the line of the belt, and
the only hindrance to active operations is
the proposed cessation of drilling for the
ensuing six months.

We shall keep our readers duly posted as
developments progress in this new and prom-
ising oldorado.

A special train runs to Rousseville from
this place, this evening, for the accommo-
dation of those who desire to attend the
Republican mass meeting at that place. See
notice elsewhere.

LATER.

We learn by special dispatch that the
Rousseville special will be free, train start-
ing from Pioneer.

A special train runs from Oil City to Ti-
tusville, this evening, to accommodate the
Democrats and Liberal Republicans who de-
sire to hear Hon. Buckalew speak at Titus-
ville. We are not advised whether the ride
will be free or not.

Hon. C. R. Buckalew and Daniel Kalb-
fus, Esq., leading Democrats, passed thro-
ugh town over the Oil Creek Road, on the after-
noon train, en route to Titusville.

Refreshing showers yesterday cooled the
atmosphere considerably.

The engine house at the McCray Hill
Water Pipe Line, on the Boyd Farm, was
destroyed by fire at an early hour yester-
day morning. The force pump was not
running at the time. The fire is supposed
to have originated from the firebox under
the boiler. The pump was quite badly in-
jured by the fire. Loss about \$300.

We notice the genial phiz of our friend,
S. C. Coulter, of St. Petersburg, in town to-
day. He is looking well, but says he is
not getting rich very fast, although we sin-
cerely wish he might collect together heaps
of the "filthy lucre."

Josh Billings, in his directions "How to
pick out a good horse," says "good horses are
skare, and good men, that deal in any
kind of horses, are skarser. An honest man
is the noblest work or God, this famous say-
ing was written, in grate, anguish or heart,
by the late Alexander Pope, just after buy-
ing a good family horse."

The Londoners have got through their
fashionable season in town, and are begin-
ning to throng watering places and other
country resorts just as our upper ten are re-
turning to city life.

On Tuesday morning a man named Irwin,
was arrested at Franklin, by Constable
Braden, on charge of obstructing the track
of the Allegheny Valley Railroad in the
vicinity of Parker's by throwing ties there-
on. He came up on the freight train and
the constable was present in compliance
with a telegram, and nabbed him. He
feigned insanity, and gave his name as
"Irwin, the Doctor." He was rather vio-
lent when arrested, and it was found nec-
essary to put him in irons. A hearing was
had before Mayor Mackey, at the close of
which he was committed to jail.

Speaking of the ravages of the cotton cat-
erpillar, the Atlantic Constitution says:
"No such calamity as this has befallen the
people of the South since the day of Sher-
man's march to the sea. And it has come
like a clap of thunder in a clear sky. We
can compare it to nothing so near like it as
the great prairie fires of the West last fall.
The loss to the South is estimated at from
\$75,000,000 to \$100,000,000.

Ohio claims to have clipped four million
pounds more of wool this year than last.

This is the season of State fairs. Those
of Iowa and Illinois opened yesterday.
Wisconsin inaugurates her's next Monday,
while Michigan and Minnesota follow suit
the day after.

Grand Larceny—A Wife and a Thousand Dollars Stolen.

[From the N. O. Picayune, August 29th.]
Captain Badger, Chief of Police, on yester-
day received the following letter from a
lamenting husband. It tells a strange story,
in an amusing way, and the author may be
complimented upon the powers of descrip-
tion. One after reading this letter would
come to the conclusion that the fascinating
"Susannah" has been in the habit of travel-
ing barefooted. Those of our readers who
have wives are recommended to look out for
the gay Lothario, for he may turn up in
this section and ply his seductive arts upon
the weaker sex of the Crescent City.

"A man giving his name as Charles
C— was at work for me in July. He
left my house on Saturday night, July 27th,
taking with him my wife and about one
thousand dollars of my money and a horse
and two silver watches, one single and one
double case. They were last heard from
near—going on foot in the direction of—
The horse has been recovered. The man is
apparently a steamboatman, and claims New Orleans as a home. He is
about six feet high, 35 or 40 years old,
square built, walks very straight with a
swinging gait, wears No. 9 shoes, toes turn-
ed out, had a heavy dark beard, smiles
when he talks, dark complexion, weighs
about 180 pounds, dark yellow eyes, or per-
haps dark blue.

"My wife is forty-six years of age, quite
small, weighs perhaps 95 or 100 pounds,
light complexioned but badly sunburnt,
giving the appearance of being dark. She
is a plain looking old country woman, and
addicted to smoking a pipe. Hair light
eyes blue, short, round foot, speaks coarse
for a woman, chews tobacco and has a long,
lim nose—stands straight out, two front
teeth missing, and the rest of her teeth are
very defective. Her finger nails are very
large and flat, so as to be easily noticed.—
Her name is Susannah. Toe nails are gen-
erally quite small, and most especially the
little toe and the next one to it. In her
walk her toes turn in, right foot turns in
more than the left, and she has a quick
step."

The letter is accompanied by a note sug-
gesting that the man has 'shaken' the woman;
may be that he has made away with her,
and a request is made that a sharp look out
may be kept for him.

A square shaft of a pillar belonging to
the temple rebuilt by Herod the Great, has
just been found in Jerusalem. It is a mono-
lith, and is finally engraved on its four sides
with magnificent monumental characters.—
The inscription is in the Greek language,
and forbids the entrance of the Gentiles
into the inner courts of the temple.

A passenger of the ill-fated Metis fell on
his knees in the saloon, just before the ves-
sel sunk, and commenced to pray. A deck
hand brought him a life preserver, but he
refused to accept of it, whereupon he was
seized by the collar, and jerked violently
to his feet, with the injunction, "Do some-
thing for yourself, man, before you ask for
help." The passenger fastened his life-
preservers and jumped meekly overboard.

The formal transfer of the Oil Creek and
Allegheny River Railway to the Allegheny
Valley Railway Company has been made.
It goes under the management of Messrs.
Phillips and Lawrence, President and Gen-
eral Superintendent of the Valley road, Mr.
C. J. Hepburn, former Superintendent, tak-
ing the place of John Pitcairn, Jr., as Gen-
eral Manager at this point. This puts an
additional one hundred miles of track un-
der the management of Col. Lawrence and
gives the road outlets at Corry and Irving-
ton. It is rumored that the Valley road
company is about purchasing the Buffalo,
Corry and Pittsburgh road, but the rumor
is not generally credited, as, owing to the
heavy grades, it is not a desirable acqui-
sition.

The discovery of a new "Mammoth Cave,"
in Boone County, Kentucky, is reported,
and is causing much excitement. The local
papers say that the neighborhood has been
the resort for picnics for years; and yet,
until July 16th, it has remained entirely
unknown. The cave, so far as explored, is
said to be more than two miles long and
contains single chambers no less than a hun-
dred feet in length by forty feet in width
and twenty in height.

Another fine vein of coal has been opened
by the Rock Mountain Coal Company, and
coal is now delivered at Salt Lake City at
six dollars per ton.

Georgia is said to have doubled in value
since the discovery that the leaves of the
saw palmetto could be converted into pa-
per.

An ingenious Connecticut mechanic has
invented a machine for printing in colors
and gilt enamels on China and pottery of all
kinds, which it is claimed, will revolution-
ize the whole business of ornamenting
crockery, reducing the cost to a small frac-
tion of what it now is.

CANADA OIL NEWS.—We have had a sen-
sation during the past few days in the way
of a flowing well, situated upon the prop-
erty owned by H. Webster, of Hartford, Conn.
(Mr. W. H. McGarvey, agent,) and located
north of the 12th line, opposite the Mitchell
farm. The lucky parties are Messrs. Vansal-
stine, Varvelli and Co. The well commen-
ced to flow at 460 feet, while being drilled;
on Monday evening, and yielded over 100
barrels during the night. In the morning
it discontinued the flow, and since then has
pumped at the rate of about 200 barrels a
day. As this well is situated some distance
from any other, it is likely to open a new
opportunity for a number of parties to try
their hand.

The announcement that the new well of
Coryelly and Smith, a little south of the
celebrated flowing well, began to gas
furiously and flow freely while drilling, at a
depth of 350 feet, caused attraction in the
neighborhood. The well is situated west
of side road, near blind line. On Thursday
the well was pumping over 150 barrels a
day.

Another well that has caused considera-
ble talk the past few days, is one being put
down by Gurd & Co., to the west of the
McDonald wells upon lot 1, in the 12th line,
Culveston farm. At a depth of 450 feet the
gas was so strong that the workmen had to
discontinue for a time. What appears singu-
lar about this well is the fact that upon
the gas appearing in the Gurd and Co.,
well, it disappeared from the gas well of
Mr. McDonald, a long distance east of it,
thus arguing that there exists an under-
ground current of gas from the west to the
east, and, probably, a run of oil in the same
direction. The well is nearly finished, and
will be tested immediately, and should it
come up to expectations it will extend the
oil district a long way to the west, more
especially since the Halley well has proved to
be a good pump. The latter well is in
Sarnia township, and already Messrs. An-
derson and Co., and other parties, are pre-
paring for ventures for six or seven miles to
the north-west of Petrolia.—[Petrolia Ad-
vertiser.

A Rochester man named Wable gave his
betrotted \$20 to buy a stove for commencing
housekeeping. While he was asleep
she hid his clothes and married another fel-
low in the room underneath his chamber,
saying she was tired of fooling away time
waiting for Wable. He was awake when
the affair occurred, but did not feel pre-
pared to go down to turbid the bans.

The "bottle of sacred oil" recently found
amid the ruins of Pompeii, to which refer-
ence was made in this paper, turns out to
have been nothing but a bottle of whisky
inadvertently left behind by a picnic party
of Colonel Polk's friends when that gentle-
man was American Ambassador at Rome.

A Japanese scholar in one of the New
Haven schools, having been insulted by a
schoolmate recently, sent a note to one of
the inspectors, requesting permission to kill
the offender.

An amorous Nebraska swain was lately
engaged in kissing a widow in the dark,
when an impertinent flash of lightning re-
vealed the performance to a select party of
spectators, and the man was obliged to mar-
ry the widow to get out of a scrape.

An experimentalizing Californian has this
year manufactured one hundred pounds of
opium from one acre of poppies, and has
demonstrated that the soil and climate are
well adapted to the growth and perfection
of the Chinese poppy.

Of late no other Southern State has at-
tracted so much attention as Florida. Inva-
lids have gone thither, found health, and
have written in loud praise of the climate.—
Agriculturists have discovered the quality
of its soil and the sequence of its seasons,
elements tending to make it a land capable
of producing all the most important staples
of the country.

The pioneer movement in the matter of
woolen mills in Southern California has just
been made in a proposition presented to the
Common Council of Los Angeles, by parties
from the East, for a grant of free water
power to establish a mill with a capacity
of two hundred and fifty yards per day.

A Georgia physician, who has had twenty
cases of twins occur in his practice since the
beginning of the year, was recently made
the happy parent of a pair of bouncing boys,
weighing nine and a half and ten and a half
pounds respectively. Well may he exclaim,
Ob, Gemini!

A new and profitable branch of business
has been invented in Georgia, by a genius
who sprinkles salt on the railroad to allure
cattle upon the track. The animals are
killed by the trains, and the railroad com-
pany has to pay for them.

A Kansas paper says that in front of its
office men are at work with a carpenter's
jack-plane dressing off stone for a business
house, and that the stones after being dress-
ed are almost as smooth as dressed lumber.
That's either very soft stone or a precious
hard story.
