MUTUAL Fire Insurance.

The Mutual Plan guarantees to the mutually insured the greatest security for the least possible cost. The premium rates are the lowest. On this no dividends are paid to the stockholder, but it is simply assessed to pay deficiencies arising after the expiration of the year. The expenses which in the MUTUAL INSURANCE COMPANY, during the last 12 1/2 years of its existence, have averaged but 6 1/2 per centum upon the premium note, being lower than the rates paid in the best solvent stock companies during the same period of time. In insuring at stock rates, the insured must pronounce to himself that he pays every year, enough—1st. To form an accumulated fund for emergencies; 2d. To pay large dividends to the capital invested in the Company; 3d. To run the risk of a "Chicago fire" coming and wiping his Company out of existence. In a Mutual Company he keeps his own reserve in hand until needed, and pays no dividend to capitalists. The mutually insured, by being themselves the capitalists, look after the business, its character, and its agents in all places, thus protecting each other. For Insurances or Agencies, address J. J. FRUEBAUF, Secretary, Columbia, Lancaster County, Penna.
