J. H. MARSHALL, R.

Gold at 1 p. m. 114

Although many threats were made against

the Central Petroleum, Columbia and Maple

Swade Companies, for not shutting down

with the balance of the producers of this

district, nothing unlawful was done during

the night. Had any attempt been made to

shut down the wells forcibly it is probable

the parties engaged therein would have met

with a warm reception, as the officers of

the several companies were alive to the situation.

At Knoxville a large body of men forced

the Union, Brevoort and other companies to

shut down.

Up the Creek, the wells on the Funkville

gate, Sherman Flats and other points are

not shut down, but the owners are willing

to pump the oil out on the ground and de-

stroy it, entering into a contract to do so.

Several wells which were forced to shut

down on Cherrystone, yesterday, were started

up during the afternoon.

As we stated yesterday, the question is

no doubt one of right and will no doubt

prove beneficial to all concerned. At the

same time all attempts to force individuals

or companies to shut down should be depre-

ciated by all right minded men.

We would once more call attention to the

party to be given this evening, at Sobel's

Opera House, for the benefit of the Colum-

bia String Band, of Columbia Farm. The

boys have "laid out" for a nice time, and

we hope to see a large turnout.

The Columbia Oil Company are making

preparations to shut down.

Recently a bet was made on the Tarr

Farm, \$10 a side, between Cyrus Woodford

of Tarr Farm, and Wm. Haines, of Pet. Cen-

tre, the question at issue being—"Did the

colored man assist in gaining American

Independence. The question has been left

to our decision. History, we believe, shows

the colored man in numerous instances to

have aided the American colonist materi-

ally in gaining their independence, both by

fighting at the front against the British and

otherwise aiding the colonists.

Cholera is making havoc among the hogs

of Iowa.

## Competition in Europe Against American Petroleum.

A formidable competition is springing up in Europe against American petroleum. It has been discovered that the hitherto neglected oil districts in Galicia possess capabilities that warrant anticipations of an immense yield. Although the wells were discovered some time ago, the people in the oil regions neither understood its utilization nor had they all the machinery at hand, and the samples sent to market were too inferior to be commendable as a competitor against American standard white. Now, however, in a small village twenty refineries are already busy. Galicia's future as a petroleum producing country, Americans, now on the spot, direct from the oil regions of Pennsylvania, and thoroughly familiar with the subject, declare to be incalculable, and the oil production of that province now increases daily. A number of companies have immediately been formed in the country; a few at first; they have now swelled to a great many ones. And it should be noted that all the prospecting has been surface boring hitherto, no hole having been sunk below a depth of 800 to 900 feet, while the American hop for the greatest results at a profundity of 1,000 to 1,500 feet. The fulfillment of these expectations is all the more likely, as all the experience thus far made in the Gallician oil regions proves that the bulk of the oil ascends from a certain depth.

### THE BALL IS ROLLING!

A telegram has just been received from the Directors of the Columbia Oil Company at Pittsburgh, to shut down everything at once, and steam is now being blown off the boilers. The blowing of the whistles at this writing indicates the good work is going on.

### DEMOCRATIC.

For the purpose of securing discipline and order in the Petroleum Centre Greeley & Brown Club, at the Grand Democratic and Liberal Convention at Titusville, on the 31 day of October, it has been proposed that we form ourselves into a Battalion consisting of two regiments and eight companies, each regiment to consist of four companies of twenty-five men each, making one hundred men in a regiment. The companies to be lettered alphabetically and each one to have a small white flag to designate company A, B, C, &c., and in accordance with this suggestion, I will propose the following officers:

- Chief Marshal—Mr. Kenler.
- Ass't Marshal 1st Reg't—Mr. Schonblom
- 2d Reg't—Mr. Robinson,
- of Pioneer.
- Band Marshal—Dr. Smart.
- Capt. Co. A, 1st Reg't—J. McOmber.
- " B, " —J. Bell.
- " C, " —M. Connor.
- " D, " —J. B. McCros,
- Kane City.
- " E, 2d Reg't—A. G. Harper, do
- " F, " —F. Holden, Col-
- umbia.
- " G, " —Mr. Meeger, Pio-
- neer.
- " H, " —Mr. Gaffney.
- Columbia Band at head of 1st Regiment.
- Drum Corps " 2d "
- Each officer will carry a cane and wear a white sash.
- President and Secretary of club will wear a white rosette.
- One member of each company will be selected to carry the various banners, regimental flags, Greeley hat, &c.
- Eight small boys selected to carry the company flags. Per order

JAS. DESHLER, President.

Sharpsville is to have a brass band.

The Reed House, Erie, is to be rebuilt.

Greenville contributed \$240 to the pick-

pockets at Erie, to make the State Fair a success.

A colored woman named Mason died sud-

denly of heart disease in Oil City, on Satur-

day.

An enthusiastic Democratic meeting was

held at Sobel's Opera House, last evening.

It was addressed by Messrs. Rogers and

Snowden, of Franklin. The meeting was

quite largely attended.

By the following telegram to M. Roach,

agent for the Roberts' Torpedo Company a

point, it will be seen that the Company

are with the producers in the shutting down

movement. Here it is—

Titusville, Sept. 30.

To Thos. Roach:

Put in no torpedoes during the thirty

days suspension. E. A. L. ROBERTS.

The producers of this district held a meet-

ing at the Grant & Wilson club rooms, this

P. M., for the purpose of more thoroughly or-

ganizing.

A committee was appointed to wait upon

the Central Petroleum Company for the

purpose of inducing them to shut down.

A committee was also appointed to attend

the mass meeting at Oil City.

The meeting adjourned to Saturday night.

## NOTES OF THE DAY.

A Chicago lady, aged 79, has swelled the next census by a 400.

A Terre Haute lady aged three score years and ten, has attended every circus within the neighborhood since she was five years old.

Mrs. Partington says, that since the invention of the needle-zun there is no reason why women shouldn't fight as well as men.

The champion swimmer of Charleston, Mass., is Miss Libbie Barrigan. She can swim faster and further than any one else in the place.

Mrs. Catherine Hellish, of La Crosse, is among the missing. Any woman who would voluntarily assume such a name as that ought to be.

James Parton says the first question many women would ask, were they sentenced to be hanged to-morrow, would be, "have I a hanging dress?"

A Boston woman claims to have read last year fifty metaphysical and scientific works, as many more of history and belles-lettres, besides 500 novels, plays, poems and newspapers.

Congrove thus describes a talking woman: She has got that everlasting rotation of tongue that ech'o has no chance with her, but must wait till she dies to catch her last word.

One of Chicago's churches employs a woman as sexton. She is an adept at digging graves, but is too much prone to giving the young men the best seats and letting members of her own sex stand.

Southern papers complain in severe terms of the daring and shrewdness manifested by a certain class of cattle thieves, who are afflicted with a very unpleasant, (to the owners,) habit of appropriating anything in the live stock line which comes within their reach.

The people of Holland, Michigan, celebrated the quarter-centennial of their settlement there a few days ago. In that vicinity there are now twenty-five thousand Hollanders, and it was a great day. Being an honest, and industrious people, they have had marked success from the founding of their colony. The village of Holland was nearly destroyed by the terrible fire of last fall, but has almost recovered itself, and its inhabitants are fully re-established in hope, energy and courage.

Since issuing their posters and purse lists for the races in October, the managers of the Greenville Driving Park have concluded to offer an additional purse for pacers.—The purse is \$200, open to all; \$125 to first, \$50 to second, \$25 to third.

On the 1st of October the stamp duties on all business papers and legal documents, save bank checks, will be removed. Contracts, affidavits, bills, receipts, notes, conveyances, policies, warrants, writs, warranty deeds, mortgages, power of attorney, and all such documents will be free from this perplexing restriction.

A Dunkirk young lady left her home, Wednesday, for Japan, to take charge of a school at Yokohama.

At Prospect Park, New York, on Saturday, a three mile race was trotted. Aiden Goldsmith's mare, Huntress won, her time being 7:21 1/2. This is the best three mile time on record. Thirty-three years ago the horse Dutchman trotted against time at Beacon's course, near Philadelphia, making the three miles in 7:32. This time has stood at the head of the record ever since, until Huntress beat it on Saturday. In 1860 Flora Temple was backed against Dutchman's time, but failed to beat it, her record being 7:33 1/2.

A St. Louis German lately complained to the Mayor that if the boys didn't stop going to swimming in the river where his daughters could see them he would make trouble. "Ah! Mr. Schermerhorn," replied the Mayor, "if I remember rightly, your house is half a mile or more from the river."—"Yaw, dat is so, but den you see, my girls dey got a spy glass."

### NOTICE.

There will be a meeting of the Grant & Wilson Club at their rooms on Tuesday evening, October 1st. A general attendance is requested as business of importance is to be transacted.

J. W. BEATTY, Secretary.

New York has a curious murder case. One man was stabbed by another some time in August. He was taken to the hospital and remained there until he was discharged as "cured." In a day or two he was ejected from a street car by the conductor. From the effects of his fall the wound in his chest opened, and he died. There was some difficulty in determining as to which party committed the murder. The coroner's jury has discharged the car conductor and committed the original assailant to answer the crime.

## A TRIUMPH OF ORDER.

BY COLONEL JOHN HAY.

A squad of regular infantry, In the Commune's closing days, Had captured a crowd of rebels, By the wall of Pere la-Chaise.

There was desperate men, wild women, And dark eyed Amazon girls, And one little boy, with a peach down cheek And yellow clustering curls.

The captain seized the little wail, And said, "What dost thou here?" "Sapristi, Citizen captain! I'm a Communist, my dear!"

"Very well. Then you die with the others!"

"Very well! That's my affair!" But first let me take to my mother, Who lives by the wine shop there.

"My father's watch. You see it, A gay old thing is it not? It would please the old lady to have it Then I'll come back here and be shot."

"That is the last we shall see of him." The grizzled captain grinned. As the little man skinned down the hill, Like a swallow down the wind.

For the joy of killing had lost its zest In the glut of those awful days, And Death writhed gorged like a greedy snake From the arch to Pere-la-Chaise.

But before the last platoon had fired, The child's shrill voice was heard! "Hoop la! the old girl made such a row I feared I should brake my word."

Against the bullet plied wall He took his place with the rest, A button was lost from his ragged blouse, Which showed his soft, white breast.

"Now blaze away my children! With your little one—two—three!" The Chassepots tore the stout young heart, A saved Society!

### [ADVERTISEMENT.]

PETROLEUM CENTRE, PA., Oct. 1, 1872.

MR. EDITOR:—Pardon me for presuming to intrude upon your valuable time and more interesting and valuable paper, but after mature deliberation, candidly considering the merits of our gubernatorial candidates and after them the candidates for President and Vice President from a firm conviction of duty to myself and patriotic devotion to my country, I am compelled in conscience to sever my connections with the ring, and now I openly renounce through your paper my connections with the Grant & Wilson Club and the Ring-Republican-Grant-party.

JOHN SOLIVER.

It.

An ignorant young woman, in the New York library the other evening, took up a book from a shelf and read "The Descent of Man," by Darwin. "Pshaw!" she exclaimed; "we needn't go to a book to find that out."

Immense quantities of tunny fish have lately been captured off the Mediterranean coasts, and the market of Marseilles abounds with them. This is the fish of which Pilny gives so marvelous an account, and a very delicious fish it is.

An imaginative speaker at the recent New York Milk Producers' Convention, said that the noise of mixing milk and water at Jersey City, in the early morning, sounded like Niagara.

A grain elevator at Valljo, California, one hundred and twenty-three feet high, and containing three thousand tons of grain fell with a great crash the other day. It was built by a Chicago company as an experiment, in 1869; and was the only structure of the kind in the Pacific States. The total loss, grain and elevator, was \$270,000.

THE NEW FLOWING WELL.—Our reporter visited the new flowing well, owned by Dr. Hunter and others, situated a short distance below the old Drake well, near the track of the Oil Creek railroad, below the city. It is called the Red Men's Well, in honor of the order of Red Men, of which all the owners are members. When visited yesterday evening it was flowing water and oil with tremendous force, the volume of water, however, being very largely in excess of the oil. The discharge was through a couple of two-inch pipes from the five and a half-inch casing. The amount of oil produced is estimated at about a hundred barrels per day. Flowing with the oil and water is a large amount of gas, so much so that the owners requested us to caution those who visit the well to be careful and not to strike a match in the vicinity. The consequence of such a piece of thoughtlessness would be disastrous to the well, as also those being present.—[Titusville Courier.

## Local Notices.

### For Sale.

3 Portable engines and boilers, 800 ft. of 5 1/2 casing, 2 sets of tools, one 900 foot cable, sand pump line, &c. Prices and terms reasonable. Inquire of T. O'DONNELL, Kane City, Pa. Sept. 30-1w.

In Underclothing of all kinds ALDEN'S stock, just received, cannot be excelled in the oil regions. Call and examine. Sept. 31-1t

### For Sale Cheap.

3 Producing wells with machinery complete. Inquire of HOWE & COOK, Petroleum Centre, Pa. Lock Box.

Just received at ALDEN'S a large stock of gents Underclothing. The very best in town.
