THE WORKINGMEN.—On Saturday, a committee of workingmen from the Parker's Landing district, waited upon us as representatives of a meeting of the engineers, pumpers, drillers and laboring men, held in that place a few days since, with the request that we announce a mass meeting of workingmen to be held at Oil City, Tuesday, Oct. 15; also, that the claims of the workingmen be advocated through our columns.

Anything that will conduce to the benefit of that class of men we are willing to do.—There is no reason why the drillers and engineers of the oil region, provided the thirty day movement is a success and oil advances to \$5 per barrel, should not have their just claims allowed by a corresponding increase of wages. In this district, the movement appears to meet with general favor and undoubtedly a large delegation will attend the Oil City meeting.

As a class not a more intelligent lot of men can be formed in any other section of country than the engineers and drillers of the oil region, nor is there a harder worked class of men than they. It may seem to outsiders an easy task to sharpen a heavy iron bit or reamer over a fire of almost the temperature of 100 degrees Fahrenheit, or to turn a temper screw with cable and heavy set of tools attached, 12 or 18 hours out of the twenty-four, but we can assure them it is far from an easy task, and the men earn all they get, and we certainly think are entitled to an increase of pay, provided the producers movement now in operation proves a success.

To insure the movement a success, the workingmen should enter into it as a unit, otherwise it will prove a failure. We heartily wish them success, and advise all who can to attend the Oil City meeting.

Emperor William thinks of making a large reduction of the German forces now holding French territory—and as soon as a certain payment on account of the war indemnity shall have been made. This does not support the position that war is near because of the ill feeling that exists between Germany and France.

There is nothing now in the shutting down movement. In this district and the Ninth, so far as we can learn, with one exception, everything is silent, and as regards the oil business every day resembles Sunday.

In the Upper Benaehoff territory some few wells yet running. All the drilling wells shut down on Saturday.

Up to Saturday noon none of the wells on the Fenkville Flats or Sherman Flats were shut down, and none between there and Titusville. The wells on the Skinner, Morrison and old John Benaehoff farms were also running. Shut 'em down, gentlemen!

Thursday evening, Deputy G. S. Kelly, of Titusville, installed the newly elected officers of Minnekaunee Tribe No. 183, Independent Order of Red Men of Petroleum Centre, at their hall on Main street. The following is a list of officers for the ensuing six moons:

Prophet—L. H. Collom.
Sachem—H. Howe.
Sealor Sagamore—J. H. Heivly.
Junior Sagamore—H. Pond.
K. of R.—S. Reynolds.
K. of W.—T. S. Armstrong.

To-morrow is the day appointed in which the country is to be saved, in other words it is election day. Let every citizen approach the polls with the proud consciousness within himself that he is a native of the best country the sun ever shone upon, grasp his ballot in his good right hand, and vote just as he pleases, and thus will the Union be preserved, the Constitution kept inviolate, and the dear old flag (forever may it wave) upheld. So mote it be!

The voting will be done at the office of S. Reynolds, Esq., on Washington street. Polls open at 7 a. m.

Elsewhere we publish the law relative to the sale of liquors within the limits of the Commonwealth, which it would be well for interested parties to peruse.

Vote early, and often if you can, and may the best man win.

Several disgraceful fights occurred on the street, Saturday night. The old adage, "when wine is in good sense is out," was faithfully portrayed to the lookers on.

Messrs. Wait & Pugh, the well known proprietors of the Verandah Restaurant, have disposed of their interest in that popular resort to Mr. Thos. Healey, who takes possession to-morrow. While all regret to see these gentlemen retire from business, we are happy to announce it is not their intention to leave the oil region. We wish them success in whatever undertaking they may engage.

Von. Jobuson is not only a good fellow, but keeps as good and pure a stock of drugs as are to be found in the oil region, "which the same we will ever maintain." Cause why—he advertises in the RECORD.

We copy the following card from the Titusville Herald:

PETROLEUM CENTRE, PA., Oct. 5.
That the position of the Central Company may not be misunderstood, I would say they are not pledged at all in the matter of "shutting down" as to how long they shall cease operations. They stopped pumping voluntarily, to take advantage of dull times and good weather to fix for winter. The wells may possibly be closed down several days. It will depend all on the company's instructions, and they will insist on their right to judge for themselves. They make no pledges.

Respectfully,

J. E. RAY.

Elopement and Pursuit.

A week ago last Friday a gentleman and lady alighted at the Martin House in this town and registered their names as Duffett and wife, from Toronto, Canada. Last Wednesday a gentleman accompanied by a Buffalo detective, arrived at the Martin House in pursuit of a couple aforementioned, the former making himself known as the husband of the companion of Duffett, and very eager to overtake the fugitives being willing to pay \$5,000 for their arrest and detention. The husband and detective proceeded from here to Cleveland where they found further clue that they are on the tracks. Duffett is apparently about thirty-five years of age and the guilty wife about thirty. The latter, besides deserting a husband, left two small children behind.

[Girard Cosmopolite.

Of the insubriates treated at the asylum at Ward's Island, near New York city, during the past four years, more than one hundred were women, one-third of the number being ladies from the highest circles of society.

Some New Haven people have been trying to establish a ladies' reading room in that city, but find politics engrossing public attention so completely that they have concluded to do nothing further until after election.

Drinking Houses to be Closed on Election Day.

A very important law, entitled "An act to prevent the sale of intoxicating drinks on election day," was passed by the last legislature and approved by the Governor. As a matter of general information we publish it in full, as printed in the pamphlet laws of this year, for the information of the public and benefit of all concerned:

An act to prevent the sale of intoxicating drinks on election day.

SECTION 1. Be it enacted, etc., That from and after the passage of this act, it shall not be lawful for any person or persons keeping a public house or drinking place, either licensed or unlicensed, to sell spirituous or malt liquor, as a drink, to sell, furnish or give away, to be used as a drink, any spirituous or malt liquor, wine or any intoxicating beverage, on any part of the day set apart, or to be set apart for any general or special election, by the citizen of any election district or division within this Commonwealth, where an election is in progress, during the hours when, by law in said district, the election polls are required to be kept open.

SEC. 2. Any person violating any of the provisions of the first section of this act shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be subject to imprisonment in the jail of the proper county for a term of not more than one hundred days, and in addition to the above shall also be subject to a fine of not more than five hundred dollars and costs, at the discretion of the court.

SEC. 3. It shall be the duty of the constables of the several townships, wards and boroughs of this Commonwealth, under the same penalty as mentioned in section second to make return to the next court of quarter sessions of the proper county, the name or names of any person or persons offending under the first section of this act: Provided, Nothing herein shall prevent any other person or persons from prosecuting for such offense.

The Old South church in Boston has done a generous thing for its retiring pastor, Rev. Dr. Blagden. The doctor is seventy years old, and has served the society long and faithfully, and now he is to receive an annuity of three thousand dollars during his life-time. We are sorry that such liberality to emperannuated pastors is very uncommon.

Manitoba is rowdyish. Three newspaper offices have been gutted by the rowdies, who showed themselves to be uncommonly fast at distributing type, but they didn't make very clean cases. The disturbances were political—and popular.

Report says that one of the new recruits to Fairview recently quarrelled with his lady-love and took his troubles so much to heart that he endeavored to end his earthly career on Monday night last by taking a dose of poison. He either took too much or too little, consequently it failed to kill, and the depraved specimen of humanity still lives.

John McLellan, brakeman, fell off a freight train on the A. V. R. R., near Rattlesnake, last Saturday afternoon, and striking his head on a rock, was almost instantly killed. His home was at New Florence, Pa.

Since the shutting down movement went into effect, Lawrenceburg and the Landing are crowded with workingmen. Many visit the saloons and spend their money too freely. Fights are frequent occurrences among the rougher class.—[Oilman's Journal.

Attention Democrats & Liberal Republicans.

There will be a special meeting of the Greeley, Brown & Bucklew club this evening, Oct. 7, at 7 1/2 o'clock p. m. Let all members turn out. By order of the PRESIDENT.

MOONLY LOVE.—A Newport correspondent gives the following touching bit: "While standing on the extremity of the side piazza, which was flooded with the moonlight, I heard a slightly amusing, but no doubt important, conversation between a young couple. She was hanging on his arm half lovingly, and they were both looking up at the queen of night. He said tenderly, bending down his head, 'Do you love the moon?' She answered in a low voice: 'Yes.' He replied, with deep tenderness and feeling in his voice, 'Would I were the moon.' They passed on, while I momentarily exclaimed, 'No cards.'"

A lady correspondent of the Lookport Journal says when she was a poor girl, living in the country, she used to "plant corn in her bare feet." This imparts a new idea of the origin of these troublesome things.

The gentleman, accompanied by some ladies, who took an umbrella from the McClintock House verandah, last evening, will please return it to the Western Union Telegraph Office and oblige.

A TALK OF LOVE.—One quiet day in leafy June, when beehive birds were all in tune, two lovers walked beneath the moon. The night was fair, so was the maid; they walked and talked beneath the shade, with none to harm or make afraid.

Her name was Sal and his Jim, and he was fat and she was slim; he took to her and she took to him. Says Jim to Sal: "By all the snakes that squirm among the brush and brakes, I love you better'n buckwheat cakes."

Says she to Jim, "Since you've begun it, and been and gone and done it, I love you next to a new bonnet."

Says Jim to Sal, "My heart you've busted, but I have always gals mistrusted."—Says Sal to Jim, "I will be true if you love me as I love you; no knife can cut our love in two." Says Jim to Sal, "Through thick and thin, for your true love count me in, I'll court no other gal agin."

Jim leaned to Sal; Sal leaned to Jim, his nose just touched above her chin; four lips met—went—ahem! ahem! And then—and then—and then and then. Oh, gals beware of men in June, and underneath the silvery moon, when frogs and Junebugs are in tune, lest you get your names in the paper soon.

SHOWED FIGHT.—On Wednesday the vigilance committee appointed by the Producers Association, visited every well which had refused to shut down, and requested them to cease pumping, and to their credit be it said, nearly all did so. But when they came to a drilling well on the Shoup farm, owned by Wm. Heeter & Stephenson they found 25 or 30 men gathered together, full of whiskey, and the black flag run up on the derrick. They requested them to cease operations, but were met with curses and yells, and dared to come on and shut the well down. Determined to use no violence, the committee left, and resumed their labors. We believe that no violence whatever has been offered to any one, nor is it the intention to do so.—[Petersburg Progress.

The disposition in England to make the Lairds pay a portion of the sum awarded to the United States by the Geneva tribunal should be pushed to an official shape. It is right that greedy speculators of this character, who seek to make money out of the difficulties of others should be made to pay the penalty incurred by their misdeeds.

There is wheat enough stacked up on the wharf at Stockton, Cal., to make a tier of sacks six feet high and forty miles long.—The agent of the Visalia Railroad at that place states that there is double this quantity stacked up along the line of the road is yet hauled to the track.

A resident of Gilroy, California, has discovered a process by which the nicotine may be extracted from tobacco, giving good native qualities the fine flavor of prime Havana brands. It has been found that the soil of California is admirably adapted for the culture of the weed.

On Tuesday at noon a procession of oil producers, headed by a brass band, marched to the heavy oil wells in Sugar Creek township, about 1 1/2 miles from Franklin, to carry out the shutting down resolution. Upon their arrival there the safety valves of the engines were opened, and the band played "Hail Columbia." The scene was very exciting.—[Venango Citizen.

An Irishman and a negro who were nearly suffocated in a well in Kentucky, last week, have met with a peculiar misfortune.—They were both supposed to be recovering, and were both going about attending to their usual business, when suddenly and unaccountably both became deaf and dumb. At last accounts they could neither hear nor speak.
