Council fires lighted at 7 1/2 o'clock.  
H. HOWE, Sachem.  
S. REYNOLDS, Chief of Records.

Sold at 1 p. m. 11 1/2

The Oil City Derrick of this morning, goes a little deeper into the pipe line question, and answers the Titusville Press article in good shape. The Press is a good paper, and Mr. Bloss a thorough newspaper man, but we are of the opinion he assumes a little too much in its statements regarding the producers. We presume no one in the entire oil regions cares a continental scrip how liberal a man Mr. Wm. H. Abbott is or what he has done for Titusville, but they do and have a right to know the official acts of Mr. A. in connection with the pipe lines. Eulogizing and praising the Abbott/Barley/pipe-line-banking-liquor clique can not prevent people from criticizing their acts when it affects the entire region.

The hardware dealer's association met at Oil City, yesterday, and passed a set of resolutions taking strong grounds against the credit system. That is the correct principle, and if adhered to strictly by the hardware dealers and others, will drive out of the oil business that class of dead beats and shysters who have preyed for years on the trade, hanging to it closer than blood suckers. By all means shut down on the credit system.

That was a hard joke on the producers perpetrated by the Titusville Evening Press, which calls them an "organized mob." Many of our leading citizens are members of that "mob," and we imagine are not in love with the Press men, judging from some of the "cum words" used after reading the wrothy dissertation of that sheet.

We are sorry to learn of the death of an infant daughter of Mr. A. E. Fay, local editor of the Titusville Courier. It is but a few months since he was called upon to mourn the loss of another little one. We sympathize with the parents in their sad affliction.

Below we give the concluding most important sections of the Petroleum Producers' Agency:

VII. Members of the Petroleum Producers' Association shall sell their oil only to the Agency. The Agency shall purchase all the oil offered by members of the Association and shall pay therefor at least five dollars per barrel for oil of standard grade, and for the heavy oil of the Fifth District. Payment for oil purchased shall be made as follows: If the market will take the entire supply as fast as offered, the full market price shall be paid in cash on delivery; but if the Board of Directors or the Council shall determine that the oil daily offered to the Agency is in excess of the demand, the Agency shall pay three dollars in cash and give the seller a Certificate entitling him to the net proceeds of the oil when sold, less the amount advanced thereon.

VIII. The Agency shall sell no oil for a less price than five dollars in cash, on delivery, per barrel without the consent of the Council of the Petroleum Producers' Association.

IX. To the redemption of the Certificates, on and after the tenth of the month succeeding that in which they were issued, shall be applied the proceeds of all the oil sold and delivered during that month, less the amount advanced and the amount required to tank the surplus oil. For the unpaid balance of the certificate the holder shall, upon the surrender of the same, be entitled to a Tank Receipt, representing his interest in the amount of surplus oil in store and tankage.

X. The Agency shall be entitled to receive for buying and selling the oil such commissions per barrel as the Council may allow, applicable first to the payment of expenses, second to the payment of dividends on the Capital Stock, which shall be six per cent, semi-annually, free of taxes.

XI. All the net proceeds of surplus oil sold, shall be applied specifically to the redemption of the Tank Receipts at their value, the surrender of which shall be the option of the holder.

XII. The Agency shall establish Sub-Agencies at such points within the oil producing district for the receipt, storage shipment of oil as may be necessary to facilitate the convenient and economical transaction of the business of the region, subject to the approval of the Council.

XIII. The Agency shall provide all storage necessary to hold the oil on sale and the surplus oil in store.

XIV. The price on the cars of oil of the Standard grade shall be uniform at all the sub-agencies on the line of the railways within the oil producing district, provided it be practicable to so arrange with the railroads.

XV. A barrel shall be uniformly forty-two gallons.

XVI. Whenever the production of Petroleum shall be permanently in excess of the demand the Council of the Petroleum Producers' Association shall determine at what time the production shall be restrained and shall take such measures as may be practicable, necessary and lawful to prevent the drilling of oil wells; but it shall confine its orders, so far as practicable, to preventing the starting of new wells allowing those already in process of drilling to be completed.

XVII. Whenever in the opinion of the Board of Directors it may be advisable they may subject to the approval of the Council, provide such refining capacity as may be required to maintain the higher price for crude petroleum consistent with the consumptive demand.

POLICE.—Yesterday afternoon, a bit of a row occurred on Washington street, between a man known as "Jakey" and two other men, one of whom is named Peffer. Jakey, it appears, was passing by the shoe store owned by Peffer, when the latter called him a "d-d Jew" and ordered him off the sidewalk. Jakey replied, "If I am a Jew, you're nothing but a scar krow," and what's the difference." "That's the difference," replied Peffer, striking out from the shoulder, and hitting Jakey square in the eye. The other man then ran out and hit Jakey in the other eye. This appeared to add insult to injury, and he retired in good to Justice Reynolds' office and swore out a warrant against the defendant's for assault and battery. After a hearing in the case the Justice fined the defendant \$8 each and costs, amounting to \$22 in all. Rather dear sport for the boys.

A valuable deposit of red hematite has lately been discovered about two miles west of Staunton, Virginia. The vein is about thirty feet wide, several miles in length, and is said by miners, who know, to be practically inexhaustible.

It is important that all members of the Producer's Association of the 11th District, be on hand at the meeting at the Grant & Wilson club room, this evening. Business of importance to all will be brought before the meeting.

### The Canada Horse Disease.

This epidemic among the horses of the Dominion of Canada, which has been doing great damage for several months past, has reached Buffalo and the county bordering on Niagara river, and is causing considerable excitement among owners of horseflesh. The Buffalo papers of Saturday give the symptoms of the disease and remedies, obtained from veterinary surgeons in that city and Canada, which we give below for the benefit of our readers who may have sick horses:

The symptoms are, in the early stages, a starting coat, dry or hacking cough, moving with reluctance, and general dullness; nasal membrane at first pale, watery discharge from one or both nostrils, ears and legs cold. As the disease advances the membranes become highly colored; the discharge from the nostril changes to a mucous of greenish or yellow color; the pulse, which at first was low, is quickened; the breathing is also quickened, and in some cases obstructed and labored. Should the animal be kept at work, the disease, which in its early stages is local, with light catarrh, fever, and confined principally to the bronchial tubes, will be extended to the chest; the covering of the lungs, pleura, pleurisy; a disease of a more formidable character to contend with, immediately follows.

The stable should be well ventilated, the horses blanketed, chloride of lime sprinkled through the stable every morning. The nostrils should be sponged out two or three times a day, if the mucus adheres thereto. The food should consist of bran with a little oats, and a moderate quantity of hay. If the bowels are costive, a half pint of raw linseed oil may be given, but it is probable that the mash will cause sufficient relaxation.

Prescription No. 2 (given below) should be administered every morning and evening. If the throat should be sore—which can be ascertained by pressure of the hand upon the larynx—about two table-spoonfuls of Prescription No. 1 (also given below) should be rubbed in. So long as the disease is confined to the larynx, there is very little danger, but should it descend to the lungs—which will be indicated by the continued standing up of the animal, cold extremities and labored breathing—a half pound of mustard should be mixed with two ounces of turpentine and water, to the consistency of thick cream, and the mixture rubbed well in behind the forelegs or over the region of the lungs. The legs should be bandaged, if cold. If the pulse should be over fifty-five per minute, fifteen drops of Fleming's tincture of acouite should be given every two hours; and if breathing still continues labored and the pulse grows more rapid apply the mustard again, and give one and a half drachms of calomel for two mornings.

The following are the prescriptions referred to:

PRESCRIPTION NO. 1.  
Lined oil, 1 1/2 oz.; turpentine, 1 1/2 oz.; liquor ammonia fort, 1 oz. Mix all together in a four ounce bottle and apply to the throat, if you think it necessary to do so.

PRESCRIPTION NO. 2.  
Nitrate potash, 1 1/2 oz.; tartarized antimony 1 1/2 oz.; digitalis, 1/2 oz. Pulverized all together and make twelve powders, give one morning and night. P. S.—If they are not very bad you might omit the last ingredient, namely digitalis.

THE ABBOTT QUESTION.—The Derrick claims that it is right in what has been said against Mr. Wm. Abbott, of Titusville. The only trouble with the Titusville papers on these questions concerning Titusville men are that they are too much under the thumb of these men to call their souls their own. They dare not even censure "you blighted villains," if they belong to Titusville, and are worth a few thousand.

It seems that the charges against Mr. Abbott are well founded, as the Courier's own words bear themselves. The Petroleum Centre Record says that the producers in that district curse Mr. Abbott roundly for his actions. And the fact itself, of Mr. Abbott, starting his wells shows how little faith can be placed in his word even if he has hitherto been known as an "exemplary citizen."—Tidoute Journal.

These "high toned wide spread liberality" individuals of Titusville, need more said in their favor than what has emanated from the Titusville papers, before they can be patched up in the eyes of the public, or the pipe line certificate business pushed up.

The dreaded horse epidemic has broken out in Corry and may be expected in this vicinity soon. In another column we publish several prescriptions which have been used successfully at Buffalo, Rochester and other points, where the disease is prevalent.

Wit loses its respect with the good when seen in company with malice; and to smile at the jest which plants a thorn in another's breast is to become a principal in the mischief.

### NOTES OF THE DAY.

Ice formed in Columbus, Ga., on the night of the 15th inst.

The Cincinnati Industrial Exposition cleared \$3,000 over expenses.

South Lee, Mass., is greatly excited over the discovery of petroleum in the vicinity.

Land, in the fruit growing district of Michigan, is valued at from \$250 to \$300 per acre.

Efforts to cultivate the tea plant at Calistago, California, are said to have entirely failed.

Isaac Shivers, aged one hundred years, died last Saturday at Haddonfield, New Jersey.

Reports from the pinceries on the Black and Wisconsin rivers, state that there has been no rain since July. The marshes are all dried up, and the whole country is more destitute of water than even last season.

The Boston Gazette says that the young ladies of that city can quote Goethe and Schiller fluently, but cannot quote a single couplet of Pope, nor tell whether Washington Irving was an Englishman or an American.

A travelling circus recently arrived at Kalama, Washington Territory, at ten o'clock at night. The tents were erected and the performance began at midnight, and by sunrise everything had been repacked, and taken its departure.

There is now in course of construction in Washington city a sewer of nine feet interior diameter, through which a six-mule team can be easily driven. Seven hundred bricks and two barrels of cement are required for each foot of advance made.

A new iron furnace has just been completed in Conshohocken, Pa., J. B. Moorehead & Co., which is furnished with Ford's patent hot blast, an invention introduced in England about two years ago, and now being tried for the first time in this country.

A man in Big Creek, near Memphis, Tenn., last week, was flourishing a pistol in a most reckless manner, and when remonstrated with, laughed at the timidity of the bystanders, and to prove that the weapon was harmless, pointed it to his breast and fired, killing himself almost instantly.

Messrs. Locke & Jones, Toledo, Ohio, Publishers of the Toledo Blade and American Farm Journal, announce that they will issue, November 1st, the initial number of a new Literary Magazine to be called Locke's Dollar Monthly, with Mr. D. R. Locke, (Nesby,) as editor. The new Monthly will be in character up to the standard of the best four dollar magazines, and will contain forty-eight pages. The object is to put the best literature at such rates that it will reach every family. The first number will contain a poem, "61-71," by Mr. D. R. Locke, resembling in character the poem "Hannah Jane," which appeared in Harper's Monthly last October. He will also write for the Magazine characteristic sketches and stories, (ignoring politics, and the authors in the country will contribute essays, sketches, stories, poems, &c., &c. The Magazine will be mailed to subscribers at One Dollar per annum. All whose names are received before November 15th will receive the Magazine for two years for the one dollar.

LOCKE & JONES, Publishers.

Smuggling from Canada is carried on to a much greater extent than many are aware of. It is principally carried on by the female sex, and the Custom House officers cannot stop at all times to peep under shawls look into baby carts, or examine pockets, hoop skirts or gigantic bustles. The officers at last concluded that one grand haul might frighten these female smugglers into a cessation of the business, and at Detroit, on Monday, one hundred and fifty women were searched by a woman appointed for the purpose, and a considerable amount of booty secured. The goods were confiscated, but the ladies were allowed to go on their way. It is said that at least ten per cent. of all who were searched had smuggled goods on their persons.

It is shameful for a man to rest in ignorance of the structure of his body, especially when the knowledge of it mainly conduces to his welfare, and directs his application of his own powers.—[Melancton.]

A dog fight, late yesterday afternoon, drew a crowd.

All the wells in the Ninth District, comprising Cherrytree Run and vicinity, start up on Monday morning. As may be expected the men are glad to get back to work once more.

We are not advised as to the day the Central Petroleum Company and Columbia Oil Company will start pumping, but presume it will be about the middle of next week.

### Local Notices.

#### NOTICE.

The regular meeting of the Producers' Association of the 11th district will be held at the Grant & Wilson club room in this place on Saturday evening Oct. 25th at 7 o'clock. Members and all producers, contractors, managers, drillers and pumpers are requested to attend.

SECRETARY.

31

#### Notice.

MATHER, the Pioneer Photographer of the oil regions, will move into his new rooms in Chase & Stewart's New Block, Titusville, in about three weeks.

He will have one of the largest and most elegant studios in Pennsylvania.

Don't forget to call and visit his new rooms.

Oct 25-1w

The latest styles of Underclothing for gents wear, at the JAMESTOWN CLOTHING STORE.

In Underclothing of all kinds ALDEN'S stock, just received, cannot be excelled in the oil regions. Call and examine. Sept. 21-11

#### For Sale.

A desirable riding or driving HORSE, in good order. For terms inquire at Phelps' Vegetable Store, opposite the Opera House, Petroleum Centre, Pa.

Just received at ALDEN'S a large stock of gents Underclothing. The very best in town.

For Sale  
15,000 to 20,000 feet of SECOND-HAND TUBING, at from 25 to 35 cts. per foot. The Tubing is in first class order and all ready fitted.  
April 23. 11 H. H. WARNER.

UNDERCLOTHING; UNDERCLOTHING;

Just received at the JAMESTOWN CLOTHING STORE, call and see the stock.

GREELEY HATS at the JAMESTOWN CLOTHING STORE.

The Victor Brand of cigars at the Post Office News Room.

GRANT HATS at the JAMESTOWN CLOTHING STORE.

HATS AND CAPS in great variety and in all styles, just received by express from New York, at the JAMESTOWN CLOTHING STORE. Call and look at them August 12-11.

Just received at the JAMESTOWN CLOTHING STORE, a large assortment of new and snobby styles of HATS & CAPS.

Butter and cheese are almost indispensable articles of food. Properly used, they are nutritious and healthy; but an inordinate use of either causes indigestion and dyspepsia. Owen Gaffney's Sunday Comfort, judiciously used will remove both of these troubles.

#### CIGARS.

Lovers of good cigars will find several entirely new brands, never before introduced in this place, at the Post Office News Room. They are warranted pure Havanas.

#### New Goods.

#### Emel Zedwich.

(“LITTLE JOE.”)

#### BOOT AND SHOE MAKER,

Has just returned from Buffalo with a complete stock of

#### Fall and Winter Goods.

Has been established in Petroleum Centre for the past three years, and has the name of

#### Making the Best Fit and Finest Boot in the Oil Regions.

He is constantly receiving orders from other sections of the Oil Regions.

He constantly keeps on hand

#### Ready-made Boots & Shoes

LADIES' AND CHILDREN'S SHOES AND GAITERS.

CALL AND SEE HIM.

EMEL ZEDWICH.

#### The True Plan.

A monthly journal, devoted to the interests of the people who are engaged in business or the TRUE PLAN PUBLISHING AND COMMISSION HOUSE, 30 cents a year. Send stamp for specimen, and learn how you may reduce your living expenses 20 to 50 per cent, without diminishing comforts or luxuries—Plain, straightforward business; not in the least "sensational." Of interest to everybody. Address: John B. Alden, Manager, 458 West Jackson Street, Chicago, Ill.

Gaffney keeps constantly on hand Scotch Ale and London Porter, especially for family use.
