The old Eleventh District came to the rescue nobly, at the meeting held on Saturday night last. The total subscription footop ONE HUNDRED AND THREE THOUSAND DOLLARS, three thousand dollars more than the amount pledged. The "pooling" arrangement was entered into until such time as, the Agency gets into active working order, and Mr. Harry Howe, than whom no better man could have been selected, chosen as the agent of the Asses ciation for this District, through whose bands all oll will hereafter pass.

We feel like rejoicing at the success of this movement so far, as every person who has the future welfare of this region abould. It rings the death knell of all combinations, rings, monopolies, thieves, &c. Allah be praised.

The following special dispatch from Col. Vera, member of Connell from this district, gives the total amount of subscription to the capital stock of the Agency, as footed up at the meeting in Oil City, this sfiernoon. We are out of the woods. "Great is public opinion":

Oil City, Sept. 11.

Pledges made good. Actual subscriptions TEN HUNDRED AND EIGHTY-ONE THOUSAND SIX HUNDRED DOLLARS.

Gain on actual subscription three hundred thousand dollars.

People find consolation under the severest trials, as for instance the young Bostonian who said that be was glad of the horse disease for one thing, and that was, his rival could not carry his inamorate to ride for a

Chicago has twelve duity papers, eight English, three German and one Scandin .-

A le sas farmer bas forty five miles of funce atound bie lend.

A dreadful railroad accident occurred at Pioneer, about 8 o'clock this morning. resulting in the instant death of Mr. J. A. Hooper, a resident of Tatusville and a welknown oil man. The facts of this sad affair as we learn them from the railroad employ. es, and as brought out at the coroner's in quest, are as follows: Hosper, who is the agent for the Portland, Maine, Oil Works and Portland Tank Car Line, had come to far as Pioneer on the early freight train for the purpose of looking after some cars with the intention of taking the Union freight | present. train back to Titusville. Filling to make that train, he got on to a flat ear of the wild cat train of Yardmaster Here of this place, which usually follows the Union train to Muses Farm for the purpose of doing the switting at that point. The train was composed of two or three flat cars and one rack car. The rack car was to be switched off at Pioneer, and as is the custom the brakeman pulled the coupling pin to allow the engine and rack car to pull abend leaving the box cars on the main track. The unfortunate man was standing on the box car, and the supposition is tho's toe engine and rack car was going about and be would be left. As soon as the pin was drawn be ran across the car and made a jump for the rack, as a matter of course failing to catch'it and felling to the track the truck of the box car, which had not lost his momentum, caught him breaking all the ribs on one side, driving them into the heart and lungs, causing instant death. He also had a severe bruise on the head. Mr. H. was a man of about 49 years of

age, and leaves a large family to mourn his untimely end. He originally came from Portiand, Maine, and had been a resident of Titusville for over four years.

The remains were taken to Titusville on the 10,37 a so train, accompanied by Justice Reynolds and several Free Masons, of which

Mr. H. was a member. Upon the arrival of the train at that city, a large delegation of Musons took charge of the body and conveyed it to the home of the deceased. The funeral, we understand, takes place day after to-morrow.

Justice Reynords summoned a coroner's jury, who sher a view of the body and taking of the testimony brought in the following verdict:

Pioneen, Nov. 11, 1872. We, the undersigned jury men summoned by S. Reynolds, J. P., acting coroner, to riew the body of one J. A. Hooper who was killed at Pioneer, Nov. 11, at 8:45 a. m., find that said J. A. Hooper came to his death by his own carelessness in jumping from one car to another waite in motion, and we further exhonerate the O. C. & A. R. R Co., or its employees from all thame whatever.

> J. W. Noves. J. M. Garvey. W. A. Paniman. J. G. Dawson. A. Winsur. A. J. Lewis.

The great fire at Boston was the universal opic of conversation, on the streets, yesterday and to day, creating almost as great an excitement as the Galeago fire did. From our friend, Capt. D. Jones, who is a restdent of that city, we learn that the burned district comprises the main business portion of the place. The area burned over comprises seventy-two acres which was closely built in with magnificent grantle blocks, public buildings, caurebes, banks, &c. The toss will not fall short of \$300,000,000.

Despatches received this afternoon state the fire to be under control.

liberel minded people take action towards rosy-cheeked child. The minister relaiving them by subscriptions of money and provisions. We have reason to apprectate the situs lon, our town having suffered from the raveges of the fire flend several times in the days gone by. Let us, therefore, add our mite towards their restef.

MOIL EXCITEMENT IN MASSACHUSETTS The Boston Advertiser says: The oil excite ment at South Lee still holds out, the flow from the springs continuing unabated. Mr. Wheeler, the Egremont mineralogist, claims that these small springs are only leaks from large supplies of oil, and that coal can be found in the region. In proof of his faith in the latter statement, be is sinking a shaft on the south slope of Monument Mountain, having made sixty feet in twelve days, and has discovered an excellent quality of fire cisy, suitable for the manufacture of white fire brick, which are now arought from Ben nington, Vt., for use in, smeiting furnaces, fire places, grates, etc., slibeugh no coal has been found as yet.

A Chicago saloon keeper hung out a beer bottle, dressed in monraing, on Sand y, underneath which was a bucket of water, with the generous invitation, "Help yourselves,

The Swiss are importing English horses to improve their breed.

## Great is the Power of Public Cpinion."

#### GO SLOW!

The regular meeting of the Producer's Nov. 9th.

Roll called and majority of members

Minutes read and opproved.

There being no objections offered, the following names were added to the roll of

J. M. Kepler, C. W. Atkins, Wm. H. Ramsey, Gilbert Gordon, D. S. Winslow, W. B. Davis, Preston McCray, Willis E. McCray, H. Howe, C. C. Wicker, Jos. H. Kirchner, H. McWalters, Thos. Arnold, J. H. Luther, C. C. Whitford, O. F. Schonblom, Fred Gabring, and M. J. Kirchner, each of whom-with but one exception, and he not present-took stock in the Producer's Agency.

Committee on Procuring room continued. Letter received from Secretary of Pros ducers' Council notifying delegate to attend session of Council at Oil City Tuesday Nov. 12th and be prepared to report amounts actually subscribed to Producers' Agency. in Spot Cash, Spot Oil, and in Six Montas Subscriptions.

Upon a motion to continue subscription to the Capital Stock of the Producers' Agency, a call was made for further lovestments, and respond to in a manner exceedingly gratifying to those interested (as we all are) in the success of the movement .-All "the boys" did well, there was no strengling along the line, and even the PETROLEUM CENTRE RECORD became excited "just for luck" invested in stock, (indicating ONE wealthy editor in the country anyhow.) The grand total of Stock takenges ONE HUNDRED AND THREE THOUSAND DOLLARS, and thus Petroleum Centre and the Eleventh District make good their pledge, and most effectually endorse the Plan of the PRODUCER'S AGENCY.

On motion RESOLVED, That until the Producer's Agency is cetablished and in workingjorder, we, the Oil Producers of this District, will pool our oil and seil only through our Agent, paying him a commission not to exceed one cent per barrel.

Mr. Harry Howe was manufactured wingly ed Agent and on motton, the Directors of this Association instructed to arrange the netatic necessary to carry the pooling into

On motion the proceeding of this meeting, with the additions to the list of membersoip, (making sixty-nine in all;) amount of subscriptions, action on pooling &c., be published in the PETROLEUM CEN-TRE RECORD.

Adjourned to meet same place next Satarday evening. Nov. 16.

F. J KEFFER, President. J. A. VERA, Secretary.

A New Jersey couple made up the minds to be married, and straightway sen for a minister. The latter gentlemen, on entering the rustic abode of the damsel. found her, clad to bomespun, with sleeves rolled up, busily engaged in churning. Ratus was called from an adjoining field, where he was plowing, and taking his place with Amanda Jane before the man of authority, oformed him that they were ready to be wed "But," sald the reverend sire, "it is customery to have a witness," whereupon Much sympathy is expressed for the at- Amanda Jane went into an adjoining room, fliated city by ail. We suggest that our and drew in a cradle containing a plump the point," and at once proceeded with

McClymond's farm is a stirring place at this writing. The many operators there are pushing their wells as rapidly as possible each one anxious to get down first. The three wells completed on the farm are producing 40, 100 and 125 barrels a day, respectively. This is a sciended showing for the territory. Operators who have been fortunate enough to obtain leases there are ubilant over their prospects, and no time s lost in drilling. Several wells will be completed in the course of a month, when we look for some good strikes. - [Fairview Reporter.

The Jackson, Tenn., Whig tells the following cow and bull story, which is just as als. good as a cock and bull story: "There is on exhibition at the fair a cow with two bags, one on her back, and five legs, and a buil that gives milk equal to any cow.

The Grand Duke Alexis, it is said, is to be present at the National Centennial in

Silver ore is now sent from the Utah mines to Pittsburgh to be smelted

New Orleans papers complain of a scarciy of tonuage in that city.

Oil News .- The Trout Run oli well. near Clarion borough was torpedoed again shiped from Sacramento for burlat in their last week, and has since been pumping a few barrels a day of oil, of a light greet color, about 47 gravity. There is almost gas enough to run the ergine, and Messrs Plockross and Beatty, the gentlemen who are running it, feel hopeful of the production tocreast g, and it yet becoming a good paying well. The oil is being barrelied Association was held Saturday evening up and sold to mill men, merchants, and others. Whether this well proves a paying investment or pot, it has established the fact that we have, in this neighborhood, the oil learing rock, gas, and oil of a light gravity. Other wells will be put down and doubtless oil will be found here in large quantities.

The James well in Millcreck township is now some 1,600 feet deep, and still drilling. Oll or China" seems to be their motto.

Rigs are being erected on the Frederick Els'ager farm. Elk township, and also qu Geo. N. Berlin's land, by Mr. Bundred .-R. R. Richardson is preparing to operate on the Charles Wedekind farm. Capt. Geo. Kribbs and Jacob Hahn, on the Keyser place, near Edenburg.

The Ex ey well, of Dr. Hamar on Switzer Run, in Beaver township, since the suspension, has been pumping about 45 or 50 barrels. The Martin well, was doing 20 barrels and is now being drilled deeper.

The Delo well, in Salem township, is pumping 45 50 barrels.

The well on the Mouns farm, on Beaver

creek, is doing about 6 barrels. The Painter well was torpedoed last week, and is now doing 10 parrels.

In Beaver township in the neighborhood of Capt. Kribbs', there are fifteen rigs being

put up or about being communenced. There are some six rigs going up further down Beaver, in the neighborhood of Young's.

There are six or eight commencing to drill in the neighborhood of Geo. P. Delo, in Salem townsbip.

The Petersburg region is awake again ince the suspension, and is the largest and best producing district in the oil region -Developments are extending rather too rapidly for the good of the oil market.

[Ctarlon Democrat.

#### · Grave and Gay.

The Troy (N. Y.) Press tells the follow. ing story :

Last evening, while the audience was deeply interested in the play at the theatre, a young child was observed walking down the nisie with quick and anxious step. Her Ince and eyes betokened weeping, and even Jet the unwiped tears were trickling down er nale checks. The little one, after glancing burriedly and anxiously down the niele, darted forward toward a young wonish sitting near the stage, and beiding over behind ber, lattered out between he obe, "O dear! O dear! father's-dead!"-The young woman, startled, exclatmed, "O my God! my poor father!" and hastily arose and, with the mournful and mourning merenger left the gay place of pleasure for the darkened chamber of death. The scene was noticed by a number, and for a little time afterwards there was not a murmur of applause nor a sign of a smile on the audience. As the play progressed the depression passed away, and soon the sad scene of real life was forgotten in the painted representa-

An ingenious mechanic has invented but tons which can be sewed on with a screw driver! Here's a benefactor to the race! Talk about the man who invented sleep .-He's nowhere. No more in dreary solitude will the backelor consume the midnight oil sucking in vain to accomplish needlework with bungling fingers. The screw will do "saw it all.
