STOVES, STOVES!

STOVES!

A stock of COOK AND HEATING STOVES cannot be exceeded in the oil region. As I bought before the late advance of Stoves by manufacturers, I am enabled to still sell at old prices. Those desiring anything in the way of a Cook or Heating Stove will do well to call and examine my stock, of which the following is a partial list:

America Cook Stove!

With reservoir and warming closet, a first class Stove for hard coal or wood.

- AMERICAN**—Cook, with low water reservoir and warming closet, for hard coal.
- THE HELPER and GREAT HELPER**—Cook, a cheap first class Stove with or without reservoir and warming closet, for hard or soft coal.
- Fire Queen**—Cook, a cheap first class Stove, for hard or soft coal.
- Iron Gate**—Cook, a large heavy and durable Stove for soft coal.
- Wheat Sheaf**—Cook, for hard or soft coal, is celebrated for its qualities as a good Stove and cheapness in price.
- Clipper**—Cook, for hard or soft coal, a small but excellent Stove and very cheap.
- Minnesota**—Cook, a wood Stove with elevated oven.

MY LINE OF PARLOR HEATERS cannot be exceeded:

- The Diving Fine Light House of 1879**—This is a beautiful self feeder Parlor Stove, with self regulating draft and patent clinker grate.
- The Radiant House**—A new self feeder Parlor Heater with mill grate and flum heated base.
- Keep Side's Burner**—Self feeder Parlor Heater with shaking fire patent and dumping clinker grate.
- Stuart's Parlor Heater**—Something new, a very beautiful and powerful heater.
- Cosy Light**—A neat and cheap Base Burner.
- House Light**—A cheap cylinder Stove with mill grate.
- House**—A sheet iron cylinder stove, very cheap.
- Joy**—A small self feeder and quite cheap.
- Black Swan**—A parlor cook stove with oven, for coal.
- Fame**—A cheap dining room Stove.
- Gem**—A cheap bed room Stove.
- Pearl**—A cheap cylinder Stove, for hard or soft coal.
- Volcano**—A large heating Stove.
- Giant**—Adapted for derricks and hotels.
- SALAMANDER**—A derrick stove. **GLOBE HEATER**—For stores and offices.

The Diamond Finery. Another Valuable Invention.

CALVES BACK-SUCTION PREVENTOR FOR OIL WELLS, patented August 15, 1871, which actively prevents the ingress of air in oil wells, while the tubing is being drawn. It is a well known fact to oil operators, that upon wells where Gas Pumps are used it is necessary to preserve as nearly a perfect vacuum as possible, and that no air should be let into the well, at any time, when it can possibly be avoided; consequently, whenever the tubing is drawn from a well it is the cause of great injury to it, as the stuffing box, being then necessarily opened, the air immediately rushes back between the tubing and casing, into the well going into the oil rock and gas veins, and consequently causing the oil and gas to rush back to a great distance. So much so, that it almost always takes several days after pumping is resumed for a well to be brought back to its former condition, and oftentimes it takes several weeks; and quite frequently wells have been almost completely ruined by the air being thus let in while drawing tubing.

The BACK-SUCTION PREVENTOR is attached to the stuffing box and works in such a way that it completely shuts up the space between the stuffing box and tubing so effectually that not a particle of air can get through at any time while the tubing is being drawn and replaced. It supplies a want long felt, and is, without question, one of the most valuable inventions of the day, to those engaged in the oil business. No well should be without it, as it often times saves ten times its cost by once using. It is manufactured at the FOUNDRY AND MACHINE SHOP OF ANDREWS & CO. TIDWORTH, PA., and for sale by Hardware Dealers.

ARRIVAL AND DEPARTURE OF TRAINS ON O. C. & A. R. R.

On and after Sunday, Nov. 3d, 1872, trains will run as follows:

NORTH			SOUTH		
No. 5.	No. 2.	No. 1.	No. 2.	No. 4.	No. 6.
