A. REYNOLDS, Chief of Records.

Gold at 1 p. m. 113 1/2

In another column we publish the circular from the Petroleum Producers' Council relative to the election of a Director of the Agency in each District. In this District the name of Col. J. A. Vera has been recommended as a suitable person for that important position. We heartily approve of the nomination. There is no man in the entire region who has labored more zealously on behalf of the common cause against the enemy than he. From the incipient stages of the South Improvement conspiracy down to the present time he has spared neither time or money in the effort to break down the villainous monopoly that threatened the ruination of this region. By all means choose him as Director for the Eleventh District.

NEW WELL.—We made mention yesterday of a new well having been struck on the Central Petroleum Company's farm, in this place. The well is located on Lease No. 160 of that farm, below the old Anderson office, and a short distance from the old Anderson wells which were so prolific in their yield of oil in days gone by. It started up at seven barrels per day and has increased since to nine barrels. This well had forty-six feet of as fine third sand rock as the region affords. It proves beyond a doubt that good territory yet exists hereabouts.

We understand it is the intention of the Company to put down several more wells in the same vicinity before long.

Gen. McClellan left New York last evening for Meadville, where he will arrive today. He may be expected in the oil region sometime within the next three or four days.

Subscriptions to Producer's Agency.

The attention of Directors of the Producers' Association, of Committee on Subscription, and of subscribers to the stock of the Producers' Agency is called to the following resolutions of the Producers' Council—adopted yesterday.

The books will be closed on Saturday evening next. In the meantime, however, the lists are in the hands of the committee who will continue to receive subscriptions up to that time, and all who can, and have not yet done so, are requested to subscribe:

RESOLVED, That members of the Council are hereby directed to close and collect the subscription lists in their several Districts on Saturday next, that copies of such lists shall be furnished each District Trustee and the originals be presented by the members of the Council on Tuesday next, the 19th inst.

RESOLVED, That the Director of the Local Associations be requested to direct the immediate payment to the Trustees of the 10 per cent. required to be paid on each subscription at the time of subscribing, and that each subscriber be required to furnish a Trustee's receipt for the payment of such ten per cent. on his subscription, before being allowed to vote upon the shares of stock subscribed by them.

For convenience in carrying out the last resolution, printed receipts in blanks will be forwarded to Trustees by the Secretary of the Producers' Council. Capt. J. E. Ray, the Trustee for the Eleventh District, will probably receive these blanks by Thursday.

J. A. VERA.

L. P. WALKER.

Members of Producers' Council.

The following circular has been addressed to the President of each district Association. The circular is an important one, and at the request of the Association for this District we publish it:

OIL CITY, November 13, 1872.

To _____, Esq., President _____ District, Petroleum Producers' Association:

DEAR SIR—At a meeting of the Council held here, it was resolved to call in the subscription lists on Saturday night next, the 16th inst.

Also, **RESOLVED**, That the subscribers to the stock of the Agency, through their local Associations, be requested, at a meeting to be held on or before Monday next, to nominate thirteen persons throughout the Oil Region, for Directors of the Agency, and report the ticket so placed in nomination to the Secretary of the Council, at Oil City, the same day; and that the Secretary prepare a list of the persons so named thus nominated, stating opposite each name by which districts recommended, and post the same in a conspicuous place in the room where the election is held.

Please notify the committeemen having charge of the subscription lists to collect the ten per cent. on all their subscriptions, whether in cash or oil, and hand the same over to the trustees appointed in each district, with instructions to report with full particulars, at the meeting called as above. The trustees will please see that such subscriber is provided with a voucher, showing how many shares he is entitled to vote on, and that he be requested to execute a proxy for voting, in case he should not be able to attend personally.

Vouchers and proxies furnished herewith.

HENRY BYROM,

Secretary to the Council.

Alf. Myers, formerly the popular landlord of the Petroleum Exchange Hotel at this place, has started a similar institution at St. Petersburg, under Jerome Akin's Opera House. He has fitted up the room with all the modern conveniences and appliances necessary for running a first-class restaurant, and is now prepared to furnish warm meals to order at any hour of the day or night, and Alf. always did have the reputation of getting up the nicest the country afforded from a game dinner down to a plain oyster stew. Those of our citizens having occasion to visit St. Petersburg, will always receive a hearty welcome from Myers, and if he don't treat them well no one can.

In addition to his other attractions, Alf. has engaged the services of Taylor, Petroleum favorite bill poster, and the champion oyster opener of the oil region, who fills that honorable position in the new restaurant.

A charter has been granted for an Odd Fellows' Lodge at St. Petersburg. Also a charter has been issued for the same purpose at Foxburg. A new building is being erected on St. Petersburg road, to be used by both new Lodges.

Mr. E. Y. Brock, oil reporter of the Titusville Herald, paid us a call this afternoon.

A loud report this afternoon led many to believe a boiler had exploded in the vicinity. We did not learn the cause.

Another clerical editor speaks on the oil question. The editor of the Congregationalist, published at Boston, has about as much idea of the oil trade as a cow has about walking on ice. Its laughable to read the fearful efforts of such writers as this editor is:

The last efforts in creating a monopoly in the Oil Region has lately been made by the producers, and they have given to the public a series of twenty-three rules or regulations by which they show how it is to be done, but would it not simplify matters very much if these men should rescind their resolutions and take for their guidance this rule: "Remember the Sabbath day and keep it holy, &c. By working only six days in a week the over production would be prevented, and this is the cause of nearly all the trouble. For many years there has been no Sunday rest in the oil district, greatly to the scandal of those who respect the day, and in violation of law; the producers, by unanimous consent have ceased pumping for thirty days, in order that the stock of oil on hand might be cleared off. That time is just expiring, and if they will go to work again and be content without trying to cheat the Lord of the Sabbath, we shall expect to see the oil trade settle into a healthy state again. The present would seem to be the very best time to establish such a custom, and thus settle this trouble on a permanent basis; and we are sure it will never be settled as long as no Sunday is observed.

The Eleventh District claims, and justly, to be the banner district of the oil region in the matter of subscriptions to the stock of the Producers' Agency. We have now taken \$105,600 of stock, and when it is understood that this is in spot oil or spot cash, we think the claim is well founded. All the other districts subscribed cash or oil payable at the end of six months.

The Titusville papers of this morning are filled with accounts of the burial of Mr. J. A. Hooper, who was killed at Pioneer, day before yesterday.

Mr. C. J. Hepburn, Assistant Superintendent of the Oil Creek & Allegheny Railroad, has removed his office from Corry to Oil City, and intends making that place his home permanently.

The Oil Creek & Allegheny River Railway has put on an extra passenger train between Corry and Titusville, leaving Corry on the arrival of the Philadelphia & Erie train from Erie, at 6:30 p. m., it arrives at Titusville at 8 p. m. Returning, leaves Titusville at 8:10 p. m., making connections with the Atlantic & Great Western Railway for New York and the East.

The red sun gathers up his beams
To bid the withered earth farewell,
And voices from the swelling streams
Are ringing with the evening bell;
The cold lake throbs with restles grief
Where late the water lilies grew,
While autumn fowl, and autumn leaf,
Are sailing down the river blue.

Forsoaken are the woodland shrines,
The birds to warmer lands have fled,
And winds are waiving through the pines
A dirge for summer's glories dead;
Even man forsakes his daily strife,
And muses on the radiance flown,
As if in nature's changing life
He saw the picture of his own.

One of the most touching instances of gratitude is alleged to have occurred at Loch Haven the other day. A little boy, the child of a wealthy mother, tumbled into the river. He was rescued by a working man and restored to his parent. The woman gave the man a three cent postage stamp, and said she would be glad to have him come up to her house and sit out in the entry and hear her play on the piano. He went away with tears in his eyes. He said he wasn't used to such overwhelming kindness.

An important decision has just been rendered by the Supreme Court of Maryland in regard to the religious belief of witnesses. The case in question was an action for debt where the defence made objection to a witness on the ground of religious belief. The objection was founded on the old common law rule, as well as a provision in the State Constitution, providing that a belief in the existence of a God, with a system of future reward and punishment was the only requisite. It was shown by direct testimony to impeach the witness that, so far as could be gathered from his expressions, he came within both these limitations. In rebuttal it was shown that the witness did not believe in a personal God, but only in a Supreme Spirit pervading nature. The court held that a belief in personal God was not necessary, and that the witness, by acknowledging merely the existence of a Supreme Being or Power, established his competency to testify.

An epidemic prevails among the deer on the Michigan frontier similar to that afflicting the horses at the East, and large numbers are found dead and dying in the woods.

NOTES OF THE DAY.

Coal has been discovered in Lincoln county, Tennessee.

Home, the famous Spirituallist, will return to America soon.

Destructive fires have been raging in the pines of Clark county, Wisconsin.

Among the worst afflictions caused by the horse influenza are some of the names given it.

Eighty-two mummified Chinamen were lately shipped from Sacramento to the Celestial land.

A London firm recently imported by way of Rotterdam, the first cargo of Prussian coal ever brought into England.

Steam pipes twining among the roots of trees, to keep them warm and prevent the leaves falling off, is the most recent ramification of the inventive genius.

Hydrophobia is raging to an unparalleled extent in the northern counties of England, where many men as well as animals meet their death by it.

Dr. George S. Vallandigham, of New Lisbon, Ohio, is procuring subscriptions at Canton, Ohio, for a life of Hon. C. L. Vallandigham, his brother.

James Robinson, the noted equestrian, has been starting New Yorkers by riding a bare back hurdle race, with boots on—said to be the first instance of the kind on record.

Kentucky papers say that Joel T. Hart, the great Florentine sculptor, once built chimneys and fences in Bourbon county. Many of them are still standing, mute testimonials of the origin of a great genius.

Barry Sullivan is called the leading British tragedian of the age. He was in America about twelve years ago, and contemplated making a professional tour of this country again before long.

Thomas Fleury, living in Columbus, and a brakeman on the Pan Handle route, was killed last Monday morning, by a stroke, while entering the Corkrun Tunnel, five miles from Pittsburgh.

Iron shingles have been lately patented and are said to be less expensive than slate. They are made about six inches by thirteen inches in size, and fastened with headless nails.

CANADA OIL NEWS.—Occasionally we hear of a good bit of a 100 barrel well—as it is the case with the McMillan (No. 2 (the first one having been abandoned.) South of 12th Line, nearly opposite W. Mitchell's late residence. Messrs. Noble & Parsons, have struck stakes for a new rig across the 12th from the McMillan well; while the latter has a new well drilling a little to the East; a short distance to the West Gardner & Co., are down 400 feet.

The New Dominion territory, North of 12th Line, has nothing special to report this week; VanTule & Co., well, and also, the P. Taylor well, fell short of expectations; McGarvey & Rosenburg's new well testing; Polly & Dunlop and Lawson & Grange, and Frank Smith & Co., wells drilling; Noble Parsons' new well, near the Gibson well finished drilling with good show; Canadian Oil Company's No. 2 nearly down, with fair show—No. 3 preparing to drill. The Ribighini and Brake well to the North, upon the Barne's farm, is "not much," so far.

Lawson and Grange No. 2, and Col. Shemmaker's new well drilling. Ditto the the Lawyer well. Braks and Ribighini well, South of Lambe property nearly completed. Mr. Lamb's two last wells testing with fair prospect. The Fairbank and Draper wells, upon the Park's farm, are drilling. Further to the West Perkins, Gooley, & Co., and Anderson and Co., are drilling. In another week or two our wild cating friends to the far Nor' West will have "made a spoon or spilled a horn."

[Petroleum Advertiser.]

OIL NEWS.—The Cramer well, D. Shoup, Sr., farm, is doing 50 barrels. It was torpedoed a few days since.

Loane & Harms well, D. Shoup farm, is doing 40 barrels.

The Graff well is said to be doing about 5 barrels.

The Panten well, Hester farm, Turkey Run, is pumping 30 barrels.

The Hester well is reported to be doing only 40 barrels.

Many new wells are being started on the Knight farm, on Turkey Run.

The Coult, Irwin & Co. well, on the Ely Ritz farm, commenced pumping yesterday at the rate of 90 barrels per day. She will probably settle down to 75 barrels per day.

[Petroleum Progress.]

During the past winter a British steamship made two successful trips from the Chesapeake to London, loaded exclusively with Baltimore oysters. So great was the success attending the undertaking that it is now learned that three large vessels are now on their way to this country from European ports under charter to take cargoes of Baltimore oysters to London.

The value of metallurgical skill has recently been strikingly demonstrated in Greece. Some time ago the Greek Government parted with, for a mere trifle, to two enterprising foreigners, its right over the rubbish heaps at the Laurium mines which were first worked 3,800 years ago by the King of Athens. It was soon found that even the debris, which had been cast aside by the ancients as worthless, possessed immense wealth, and the Government, repenting of its bargain, has assessed the property at \$200,000,000, and is demanding more money for its right.

They are "come" on "personalities" over in Canada. Talk about "handles" to American names, we can't begin with the brevet Henglishmen of the Dominion. Here is a specimen of a marriage announcement. It is to be hoped, for the printer's sake, that marriage notices are paid for by the line.

At the Bishop's Chapel, Ottawa, on Thursday, November 7th, by the Right Rev. Lord Bishop of Ontario, assisted by the Right Rev. Lord Bishop of Huron, the Rev. H. W. Davies, D. D., Principal of the Normal School for Ontario, and Curate of the Church of the Holy Trinity, Toronto, and the Rev. H. Pollard, Assistant of Bishop's Chapel, Alfred Edward, youngest son of the late R. E. Davies, Esq., of Awtorth, Yorkshire, England, to Henrietta Sarah, only daughter of Henry Hartney, Esq., lease of Common, Ottawa.

Local Notices.

GIRL WANTED

At the Petroleum Exchange Hotel to do dining room work. Also a good cook wanted. Study employment furnished and highest wages paid.

For Sale

15,000 to 20,000 feet of SECOND-HAND TUBING, at from 25 to 35 cts. per foot. The Tubing is in first class order and all ready fitted.

April 23. H. E. WARNER.

If you

Want to Find an owner for anything Found, advertise in the Record, as no less than ten thousand people read it weekly.

Butter and cheese are almost indispensable articles of food. Properly used, they are nutritious and healthy; but an inordinate use of either causes indigestion and dyspepsia. Owen Guffney's Sundry Comfort, judiciously used will remove both of these troubles.

CIGARS

Lovers of good cigars will find several very fine new brands, never before introduced in this place, at the Post Office News Room. They are warranted pure Havanas.

GAFFNEY keeps constantly on hand Scotch Ale and London Porter, especially for family use.

STRAUSS' We have just issued Strauss Waltzes in two volumes, price \$4 each in boards \$5 each in cloth. The two volumes contain over Forty Beautiful Waltzes, worth at least \$35 in sheet form. In order to get the best of other dealers be particular to ask for Peters' Edition of Strauss' Waltzes, as it is the only correct and complete edition.

Address, J. L. WALTZES, Peters, Music Publisher, 599 Broadway, New York.

The Victor Brand of cigars at the Post Office News Room.
