STOVES, STOVES!

STOVES!

My stock of COOK AND HEATING STOVES cannot be excelled in the oil region. As I bought before the late advance of Stoves by manufacturers, I am enabled to still sell at old prices. Those desiring anything in the way of a Cook or Heating Stove will do well to call and examine my stock, of which the following is a partial list:

America Cook Stove!

With reservoir and warming closet, a first class Stove for hard coal or wood.
AMERICAN—Cook, with low water reservoir and warming closet, for hard coal.
THE HELPER AND GREAT HELPER—Cook, a cheap first class Stove with or without reservoir and warming closet, for hard or soft coal.
Fire Queen—Cook, a cheap first class Stove, for hard or soft coal.
Iron Gate—Cook, a large heavy and durable Stove for soft coal.
Wheat Sheaf—Cook, for hard or soft coal, is celebrated for its qualities as a good Stove and cheapness in price.
Clipper—Cook, for hard or soft coal, a small but excellent Stove and very cheap.
Minnesota—Cook, a wood Stove with elevated oven.

MY LINE OF PARLOR HEATERS cannot be excelled:
The Diving Fine Light House of 1872—This is a beautiful self feeder Parlor Stove, with self regulating draft and patent clinker grate.
The Radiant House—A new self feeder Parlor Heater with mill grate and tilting heated base.
Keep Side's Burner—S-H feeder Parlor Heater with shaking fire patent and dumping clinker grate.
Smart's Parlor Heater—Something new, a very beautiful and powerful heater.
Cozy Light—A neat and cheap Base Burner.
House Light—A cheap cylinder Stove with mill grate.
House—A sheet iron cylinder stove, very cheap.
Joy—A small self feeder and quite cheap.
Black Swan—A parlor cook stove with oven, for coal.
Fame—A cheap dining room Stove.
Gem—A cheap bed room Stove.
Pearl—A cheap cylinder Stove, for hard or soft coal.
Yonkers—A large heating Stove. **GIANT**—Adapted for districts and hotels.
SALAMANDER—A derrick stove. **GLOBE HEATER**—For stores and offices.

TIN, SHEET IRON AND COPPER WARE,

SMOKE STACKS MADE TO ORDER

Make to order GALVANIZED IRON SAND PUMPS which are considered the cheapest and safest pump now in use, with common or patent valve.
Remaining of all kinds done with neatness and dispatch.

GRAND NOTICE!

S. SOBEL,
Wishes to notify the public that he has left for New York, and left his

Clothi'g Store

In charge of an Agent,
MR. S. MICHAEL

Who he would beg leave to recommend to the favor of the public.

Mr. Michael, having had an experience in that line of Goods for some years, I am sure he will give satisfaction to all who may favor him with their patronage, and as for Cheapness, I am positive he will not be beat, as I shall endeavor to buy nothing but the best of Goods, and as cheap as the New York market can afford.

I would also ask my old customers not to be led away by my previous Agent, but call at my old stand, next door to the Opera House, and get your money's worth.

S. SOBEL, Prop'r.
S. MICHAEL, Manager.
Petroleum Centre, Nov. 23, 1872.—M.

To Oil Operators.

New and Important Invention for

OIL WELLS.

THIS invention having been invented and applied for a Patent on

AN ARRANGEMENT FOR SEED-BAGGING OIL WELLS THAT SMALL GAINING!

IS PREPARED TO APPLY THE SAME ON OIL WELLS IN THIS REGION.

This invention is warranted to stop the water and thereby increase the production of all wells to which it is applied.

ALL ORDERS must be accompanied with the EXACT MEASURE OF THE HOLES AND THE AMOUNT OF CASING IN FEET AND INCHES. PRICE \$10.00

Address,
C. D. JENNISON,
Patentee,
JESSE
Titusville, Pa.

Another Valuable Invention.

CAT'S BACK SECTION PREVENTOR FOR OIL WELLS, patented August 15, 1871, which entirely prevents the leakage of air in oil wells, while the tubing is being drawn. It is a well known fact to all operators, that upon wells where Gas Pumps are used it is necessary to preserve as nearly a perfect vacuum as possible, and that no air should be let into the well, at any time, when it is possible to avoid it; consequently, whenever the tubing is drawn from a well it is the cause of great injury to it, as the stuffing box, being thus necessarily opened, the air immediately rushes back between the tubing and casing, into the well going into the oil rock and gas veins, and consequently causes the oil and gas to rush back to a great distance. So much so, that it almost always takes several days or a week to get the well back to its former condition, and oftentimes it takes several weeks; and quite frequently wells have been almost completely ruined by the air being thus let in while drawing tubing.

The BACK SECTION PREVENTOR is attached to the stuffing box and works in such a way that it completely shuts off the space between the stuffing box and tubing so effectively that not a particle of air can get through at any time while the tubing is being drawn and replaced. It supplies a want long felt and is, without question, one of the most valuable inventions of the day, to those engaged in the oil business. No well should be worked if it is not thus saved ten times the cost by using this.

It is manufactured at the PATENT OFFICE AND MACHINE SHOP of A. D. H. & S. 203, TEBBICK ST., PA., and for sale by Kessner & Co.,

GOLDEN TREASURE appears at the Post Office News Room, something different now.
